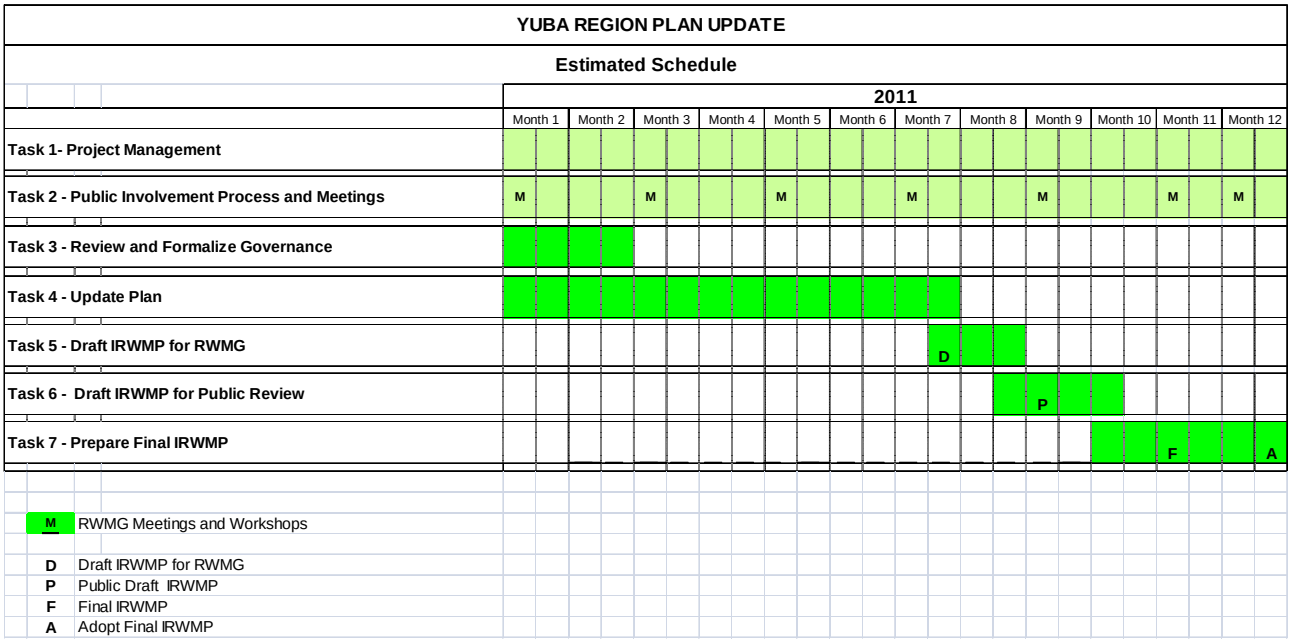
8 Schedule

For simplicity, the program schedule shown for the primary tasks in Figure 8-1 is referenced in months from the date of award of funding. The PSP states the notice of award is anticipated for December of 2010, so our project start date would be January 2011.



The 12-month duration of the project will culminate with formal adoption of the IRWMP presumably in time for a subsequent round of Proposition 84 IRWMP Implementation Grant funding cycle.

The project schedule includes the estimated delivery dates and meeting schedule. These have been developed together to reduce the number of meetings, and maximize the content of each meeting by aligning the meeting dates with key decision points in the project schedule.
