Recycled Paper

Jan 9. 2008

Delores Brown, Chief
Office of Environmental Compliance
California Dept of Water Resources
901 P St.
Sacramento, CA 95814

Dear DWR,

Please reject the proposed amendments in the draft EIR and instead provide a realistic assessment of the safe yield of water from the Delta.

In addition, please assist communities in decreasing demand from the Delta and increase drought water reliability through aggressive implementation of urban water conservation, agricultural water conservation and water recycling.

Sincerely,

Dennis Thomas
