Hi Ed

I don't need a CD necessarily—we need an electronic copy to upload to our database, if an agency doesn't send a cd we usually pull them off the agency website, but I could only find the public review draft on CCWD. If you have a final adopted plan, a pdf emailed to me would be fine.

Thanks, Julie

I read the UWMP guidelines which stated that we should send one copy to DWR, one copy to the State Library, and one to the local library. Unless I am reading the wrong section, I did not see a requirement for a CD – I apologize if I missed that requirement. We will be putting the final draft of the UWMP on CCWD's web site Monday at www.ccwd.org.

Do you still need me to send the CD or will the web site download be sufficient?

Ed-

Hello Ed

This is to inform you that the Department of Water Resources received the hard copy of the 2010 Urban Water Management Plan for the Calaveras Water District on July 29, 2011. However, the CD was missing, and on your website I could only find the public review draft. Could you please send a pdf of your adopted plan??? Once all documents are logged in, the reviewer of your plan will contact you.

Regards,

Julie Saare-Edmonds
