Legend

- Air Vacuum/Air Release (13 SF Permanent Impact)
- Blowoff (17 SF Permanent Impact)
- Test Station (3 SF Permanent Impact)
- Pipeline Alignment
- Pump Station
- Limits of Disturbance (Temporary Impacts)
- Pump Station (0.96 ac. Permanent Impact)
- Proposed Flowmeter Vault (225 SF Permanent Impact)
- Upgraded Flowmeter Vault (225 SF Permanent Impact)
- Steam Diversion Valve Fault (391 SF Permanent Impact)
- Stream Diversion Rip Rap (299 SF Permanent Impact)
