2005 URBAN WATER MANAGEMENT PLAN

August 2007

Prepared by:

Winzler & Kelly Consulting Engineers
495 Tesconi Circle, Santa Rosa, CA 95404
(707) 523-1010

In conjunction with

Luhdorff & Scalmanini Consulting Engineers
500 First Street, Woodland, California 95695
(530) 661-6806

Brown and Caldwell
10540 White Rock Road, Suite 180, Rancho Cordova, California 95670
(916) 444-0123

&

Maddaus Water Management
9 Via Cerrada, Alamo, CA 94507
(925) 820-1784

"This is a draft report and is not intended to be a final representation of the work done or recommendations made by Winzler & Kelly. It should not be relied upon; consult the final report."

TABLE OF CONTENTS

1.0 INTRODUCTION 1-1
1.1 Urban Water Management Planning Act 1-1
1.2 Resource Maximization and Import Minimization 1-3
1.3 Coordination 1-3
1.4 Public Participation and Plan Adoption 1-4
1.5 Previous Water Supply Management and Planning Documents 1-4
1.5.1 Previous Water Demand Projections in Relationship to This Plan 1-5
1.5.2 Previous Water Supply Projections in Relationship to This Plan 1-5
1.6 Assumptions 1-6
1.7 Findings 1-7
1.8 Plan Organization 1-7
2.0 SERVICE AREA DESCRIPTION 2-1
2.1 Description of Service Area 2-1
2.2 Current and Projected Population 2-1
2.2.1 Climate 2-2
2.2.2 Water Distribution Facilities 2-3
2.2.3 Potable Water Distribution System 2-3
2.2.4 Recycled Water Distribution System 2-4
3.0 SONOMA COUNTY WATER AGENCY SUPPLY 3-1
3.1 Summary of Analysis 3-1
3.2 Description of the Agency Supply 3-1
3.3 Hydrologic Availability of the Russian River Supply 3-2
3.4 Hydrologic Availability of the Agency's Groundwater Supply 3-3
3.5 Water Rights and Contracts for Agency Supply 3-3
3.5.1 Agency's Water Rights 3-4
3.5.2 The Restructured Agreement for Water Supply 3-5
3.5.3 The Temporary Impairment MOU 3-6
3.6 Quality of the Agency Supply 3-6
3.7 Reliability and Vulnerability of the Agency Supply 3-7
3.7.1 Hydrologic Reliability and Vulnerability 3-7
3.7.2 Contractual Reliability and Vulnerability 3-7
3.8 City's Existing and Projected Agency Supply 3-7
3.9 Water Supply Plans and Programs Related to the Agency Supply 3-9
4.0 GROUNDWATER SUPPLY 4-1
4.1 Requirements for Groundwater Sources 4-1
4.1.1 Definition of Terms 4-2
4.1.2 Description of the Groundwater Supply 4-3
4.1.3 Contracts for the Groundwater Supply 4-4
4.1.4 Discussion of Groundwater Management Plans and Authority 4-4
4.1.5 Plans and Programs Related to the Groundwater Supply 4-5
4.1.6 Description of Adjudications or Legal Rights to Pump 4-5
4.1.7 Descriptions of DWR Determinations Related to Groundwater 4-5
4.2 Groundwater Basin Description 4-5
4.2.1 Santa Rosa Valley Groundwater Basin 4-6
4.2.2 Petaluma Valley Groundwater Basin 4-7

"This is a draft report and is not intended to be a final representation of the work done or recommendations made by Brown and Caldwell. It should not be relied upon; consult the final report."

4.3 Geology of the Santa Rosa Valley Groundwater Basin 4-8
4.3.1 Regional Geologic Setting 4-8
4.3.2 Faults 4-10
4.3.3 Groundwater Production Zones 4-10
4.3.4 Well Yields and Aquifer Characteristics 4-13
4.4 Precipitation 4-14
4.5 Groundwater Conditions 4-15
4.5.1 Water Level Hydrographs for Santa Rosa Plain Subbasin 4-18
4.5.2 Rincon Valley and Healdsburg Area Subbasins 4-19
4.5.3 Petaluma Valley Groundwater Basin 4-19
4.5.4 Groundwater Elevation Contours 4-20
4.5.5 Groundwater Quality 4-21
4.6 City's Groundwater Supply 4-21
4.6.1 Historical City Pumpage 4-21
4.6.2 Projected City Pumpage 4-22
4.7 Groundwater Supply Sufficiency 4-22
4.7.1 Setting 4-22
4.7.2 Water Budget Estimate of Groundwater Recharge 4-23
4.7.3 Empirical Analysis of Groundwater Conditions 4-25
4.7.4 Hydrologic Availability of the Groundwater Supply 4-27
4.7.5 Reliability and Vulnerability of the Groundwater Supply 4-27
4.7.6 Summary of Groundwater Supply and Sufficiency 4-28
5.0 RECYCLED WATER SUPPLY 5-1
5.1 Description of the Recycled Water Supply 5-2
5.1.1 Description and Quantification of the Wastewater System 5-2
5.1.2 Current Recycled Water Use in the City 5-3
5.1.3 Potential and Projected Recycled Water Use 5-4
5.1.4 Actions Taken and Plans for Optimizing the Use of Recycled Water 5-5
5.2 Hydrologic Availability of the Recycled Water Supply 5-6
5.3 Quality of the Recycled Water Supply 5-7
5.4 Contracts for Recycled Water Supply 5-7
5.4.1 Transfers and Exchanges of Recycled Water 5-7
5.5 Reliability and Vulnerability of the Recycled Water Supply 5-7
5.6 Plans and Programs Related to the Recycled Water Supply 5-8
5.7 Summary of the Recycled Water Supply 5-8
6.0 PAST, CURRENT AND PROJECTED WATER USE 6-1
6.1 Current and Projected City Land Uses 6-1
6.2 Base Water Use Projections 6-1
6.2.1 Past Water Use 6-1
6.2.2 Base Demand Projections 6-2
6.2.3 Unaccounted-for Water and Additional Water Use 6-4
6.2.4 Water Sales to Other Agencies 6-5
6.3 Demand Management 6-5
6.3.1 Current Demand Management Practices 6-5
6.3.2 Projected Savings from Planned Water Conservation and New Development Standards 6-5

6.4 Total Water Use 6-6
7.0 WATER SHORTAGE CONTINGENCY PLAN 7-8
7.1 Actions in Response to Water Supply Shortages & Catastrophic Interruptions .. 7-8
7.2 Consumption Reduction Methods 7-8
7.3 Additional Prohibitions against Specific Water Uses 7-9
7.4 Penalties and Charges for Excessive Use 7-9
7.5 Effect on Revenues and Expenditures 7-9
7.6 Water Shortage Contingency Ordinance 7-10
7.7 Mechanisms for Determining Actual Reductions 7-10
8.0 WATER SUPPLY VERSUS DEMAND COMPARISON 8-1
8.1 Summary of Supply 8-1
8.2 Water Supply Reliability 8-2
8.3 Water Quality Impacts on Future Water Supply 8-3
8.4 Normal Year Water Supply vs. Demand Comparison 8-4
8.5 Single Dry Year Water Supply vs. Demand Comparison 8-4
8.6 Multiple Dry Year Water Supply vs. Demand Comparison 8-5
8.7 Summary of Comparative Analysis 8-7
9.0 REFERENCES 9-9

LIST OF FIGURES (all Figures Follow Section 9.0)

Figure 2.1 – Water Service Area
Figure 2.2 - Water Distribution Facilities
Figure 3.1 – The Russian River System
Figure 4.1 – Location Map, City of Rohnert Park and City Wells
Figure 4.2 – Groundwater Basins and Subbasins Rohnert Park and Vicinity
Figure 4.3 – DWR and Todd Study Areas
Figure 4.4 – Geologic Map, City of Rohnert Park and Vicinity
Figure 4.5 – Geologic Cross-Section A-A'
Figure 4.6 – Geologic Cross-Section B-B'
Figure 4.7 – Contours of Mean Annual Precipitation City of Rohnert Park and Vicinity
Figure 4.8 – Annual Precipitation at Santa Rosa Gauge Water Year 1906-2005
Figure 4.9 – Cumulative Departure from Mean Annual Precipitation at Santa Rosa Gauge
Figure 4.10 – Location of Wells with Water Level Hydrographs
Figure 4.11 – Location of Wells with Water Level Hydrographs in City of Rohnert Park/Cotati Area
Figure 4.12 – Location of Wells with Representative Groundwater Level Hydrographs
Figure 4.13 – Spring 1951 Groundwater Elevation Contours Prepared by Cardwell (1958)
Figure 4.14 – Spring 2004 Groundwater Elevation Contours for Shallow Wells in the Santa Rosa Plain Subbasin and Northern Petaluma Valley Groundwater Basin
Figure 4.15 – Spring 2004 Groundwater Elevation Contours for Intermediate/Deeper Wells in the Rohnert Park Area
Figure 4.16 – Spring 2006 Groundwater Elevation Contours for Intermediate/Deeper Wells in Southern SRP Subbasin
Figure 4.17 – Total Annual Metered and Unmetered Pumpage in Study Area: 1970-2005
Figure 4.18 – Rohnert Park and Vicinity Sonoma County, California

LIST OF TABLES

Table 1-1 Index of the Requirements of the Act (All Citations Are to the Water Code) 1-2
Table 1-2 (DWR Table 1) Coordination with Appropriate Agencies..... 1-4
Table 2-1 (DWR Table 2) Population – Current and Projected..... 2-2
Table 2-2 (DWR Table 3) Climate 2-3
Table 2-3 Rohnert Park Tank Information..... 2-3
Table 3-1 Summary of Lake Sonoma Storage and Agency Water Rights under a Range of Hydrologic Conditions..... 3-3
Table 3-2 – Prior Year Agency Deliveries 3-7
Table 3-3 Summary of City's Anticipated Supply from Agency 3-9
Table 4-1 Index of Additional Reporting Requirements for Groundwater Supply 4-2
Table 4-2 City Well Site Information 4-4
Table 4-3 Hydrographs Reviewed for City of Rohnert Park UWMP..... 4-17
Table 4-4 (DWR Table 6) Amount of Groundwater Pumped by the City (2001-2005)..... 4-22
Table 4-5 (DWR Table 7) Amount of Groundwater Projected to be Pumped by the City..... 4-22
Table 4-6 Revised Water Budget for Water Years 1987-2001 (Modified from Todd, 2004)..... 4-24
Table 4-7 Groundwater Recharge Estimated from Water Budget for Water Years 1987-2001 4-25
Table 4-8 Summary of Historical, Current and Future Groundwater Pumpage for the Study Area 4-26
Table 4-9 Summary of City's Anticipated Groundwater Use 4-28
Table 5-1 Index of Additional Reporting Requirements for Recycled Water Supply..... 5-1
Table 5-2 (DWR Table 32) Participating Agencies Table..... 5-1
Table 5-3 (DWR Table 33-modified) Wastewater Collection and Treatment 5-3
Table 5-4 (DWR Table 34 - modified) Disposal of Wastewater (Non-Recycled) by Subregional System..... 5-3
Table 5-5 (DWR Table 37-modified) Recycled Water Uses..... 5-4
Table 5-6 (DWR Table 35) Recycled Water Uses – Actual and Potential..... 5-5
Table 5-7 (DWR Table 36) Projected Future Use of Recycled Water in Service Area 5-5
Table 5-8 (DWR Table 38) Methods to Encourage Recycled Water Use..... 5-6
Table 5-9 Summary of City's Anticipated Supply from Subregional System..... 5-8
Table 6-1 Projected Development Pattern 6-1
Table 6-2 Base Year Water Use Factors..... 6-2
Table 6-3 Customer Classes – Current and Projected 6-3
Table 6-4 (DWR Table 12) Past, Current, and Projected Water Deliveries 6-4
Table 6-5 (DWR Table 14) Additional Water Uses and Losses..... 6-5
Table 6-6 Savings-Related Tier 2 Water Conservation and New Development Standards 6-6
Table 6-7 (DWR Table 15) Total Water Use..... 6-7
Table 8-1 (DWR Table 4) Current and Planned Water Supplies..... 8-1
Table 8-2 (DWR Table 17) Future Water Supply Projects..... 8-1
Table 8-3 (DWR Table 19) City Demand Projections to Wholesale Suppliers 8-2
Table 8-4a (DWR Table 8- modified) Current Supply Reliability Percent of Normal 8-2
Table 8-4b (DWR Table 8- modified) Year 2030 Supply Reliability Percent of Normal..... 8-2
Table 8-5 (DWR Table 9) Basis of Water Year Data..... 8-3
Table 8-6 (DWR Table 10) Description of the Factors Resulting in Inconsistency of Supply ... 8-3

Table 8-7 (DWR Table 39) Current and Projected Water Supply Changes due to Water Quality – Percentage 8-4
Table 8-8 (DWR Table 40) Projected Normal Year Water Supply 8-4
Table 8-9 (DWR Table 41) Projected Normal Year Water Demand 8-4
Table 8-10 (DWR Table 42) Projected Normal Year Supply and Demand Comparison 8-4
Table 8-11 (DWR Table 43) Projected Single Dry Year Water Supply 8-5
Table 8-12 (DWR Table 44) Projected Single Dry Year Water Demand 8-5
Table 8-13 (DWR Table 45) Projected Single Dry Year Supply and Demand Comparison 8-5
Table 8-14 (DWR Table 46) Projected Supply during Multiple Dry Year Period Ending in 2010 8-5
Table 8-15 (DWR Table 47) Projected Demand Multiple Dry Year Period Ending in 2010 8-5
Table 8-16 (DWR Table 48) Projected Supply and Demand Comparison during Multiple Dry Year Period Ending in 2010 8-5
Table 8-17 (DWR Table 49) Projected Supply during Multiple Dry Year Ending in 2015 8-6
Table 8-18 (DWR Table 50) Projected Demand Multiple Dry Year Period Ending in 2015 8-6
Table 8-19 (DWR Table 51) Projected Supply and Demand Comparison during Multiple Dry Year Period Ending in 2015 8-6
Table 8-20 (DWR Table 52) Projected Supply during Multiple Dry Year Period Ending in 2020 8-6
Table 8-21 (DWR Table 53) Projected Demand Multiple Dry Year Period Ending in 2020 8-6
Table 8-22 (DWR Table 54) Projected Supply and Demand Comparison during Multiple Dry Year Period Ending in 2020 8389.2 8-6
Table 8-23 (DWR Table 55) Projected Supply during Multiple Dry Year Period Ending in 2025 8-6
Table 8-24 (DWR Table 56) Projected Multiple Dry Year Period Ending in 2025 8-7
Table 8-25 (DWR Table 57) Projected Supply and Demand Comparison during Multiple Dry Year Period Ending in 2025 8-7
Table 8-26 Projected Supply during Multiple Dry Year Period Ending in 2030 8-7

Table 8-28 Projected Supply and Demand Comparison during Multiple Dry Year Period Ending in 2030 8-7

LIST OF APPENDICES

Appendix A Urban Water Management Plan Public Hearing Notice and Resolution
Appendix B Water Shortage Allocation Methodology
Appendix C City of Rohnert Park Water Policy Resolution
Appendix D DWR Groundwater Basin/Subbasin Descriptions
Appendix E Groundwater Level Hydrographs
Appendix F Water Waste Ordinance
Appendix G Demand Forecast Modeling
Appendix H Best Management Practices Reports and Coverage Reports
Appendix I Water Shortage Emergency Ordinance
