TABLE OF CONTENTS

CHAPTER 1. INTRODUCTION 1-1

PURPOSE 1-1
PLAN CONTENTS AND ORGANIZATION 1-1
GLOSSARY OF TERMS AND ACRONYMS 1-2

CHAPTER 2. PLAN PREPARATION, COORDINATION AND ADOPTION 2-1

PLAN PREPARATION 2-1
PUBLIC INVOLVEMENT 2-1
OTHER AGENCY INVOLVEMENT 2-1
PLAN ADOPTION 2-1

CHAPTER 3. BACKGROUND 3-1

BRIEF INTRODUCTION 3-1
RESOURCE MAXIMIZATION AND IMPORT MINIMIZATION 3-1
CITY'S WATER SERVICE AREA 3-1
Geography and Historical Climate 3-2
Population & Employment within the Service Area 3-3
Existing Customers 3-3
Retail Customers 3-3
Wholesale and Wheeling Customers 3-5
OVERVIEW OF THE CITY'S WATER SYSTEM 3-6
Water Supply and Treatment Facilities 3-6
Sacramento River Water Treatment Plant 3-7
Fairbairn Water Treatment Plant 3-7
Pressure Zones 3-7
Groundwater Wells 3-7
Storage Tanks 3-7
Pumping Facilities 3-8
Transmission and Distribution Mains 3-8
REFERENCES 3-12

CHAPTER 4. EXISTING AND PLANNED WATER SUPPLY SOURCES 4-1

SURFACE WATER ENTITLEMENTS 4-1
Sacramento River Water Rights 4-1
American River Water Rights 4-3
Bureau of Reclamation Settlement Contract 4-3
Summary of Surface Water Entitlements 4-4
GROUNDWATER SUPPLY 4-4
Description of the Groundwater Subbasins 4-5
Groundwater Quality 4-5

Groundwater Levels 4-6
Groundwater Level Trends in the North American Subbasin 4-6
Groundwater Level Trends in the South American Subbasin 4-7
Groundwater Management 4-7
Management of the North American Subbasin 4-7
Management of the South American Subbasin 4-8
Sustainable Yield of the North and South American Subbasins 4-9
DESALINATED WATER AND BRACKISH GROUNDWATER 4-9
OPPORTUNITIES FOR SHORT TERM OR LONG TERM EXCHANGES OR TRANSFERS 4-9
REFERENCES 4-12

CHAPTER 5. WATER SUPPLY RELIABILITY 5-1

RELIABILITY OF THE CITY'S SURFACE WATER SUPPLIES 5-1
1957 Water Rights Settlement Contract with the Bureau 5-1
Limits for Water Diverted from the Sacramento River 5-1
Limits to Water Diverted from the American River 5-1
Water Forum Agreement 5-2
Extremely Dry Years (Conference Years) 5-3
Hodge Flow Conditions 5-3
New Water Treatment Plant to Increase Surface Water Supply Reliability 5-4
Summary of Surface Water Supply Reliability for this UWMP 5-5
Available Supply During Each Hydrologic Condition 5-6
72-Year Annual Hydrologic Analysis 5-7
RELIABILITY OF THE CITY'S GROUNDWATER SUPPLIES 5-9
WATER QUALITY IMPACTS ON RELIABILITY 5-11
Surface Water Quality 5-11
Groundwater Quality 5-12
OTHER POTENTIAL WATER SUPPLY OPPORTUNITIES 5-12
New Water Treatment Plant 5-13
Potential Recycled Water Use 5-13
REFERENCES 5-14

CHAPTER 6. PAST, PRESENT, AND PROJECTED WATER DEMANDS 6-1

PAST AND PRESENT WATER DEMANDS 6-1
PROJECTED WATER DEMANDS 6-1
Retail Water Demand Projections 6-3
Land Use for the City's Future Retail Customers 6-3
Aggregate Unit Demand Factors 6-3
Projected Water Demands for the City's Retail Customers 6-4
Wholesale/Wheeling Water Demand Projections 6-6
Total Projected Water Demands at Buildout 2030 6-6

EXISTING AND FUTURE WATER DEMANDS BY CUSTOMER TYPE 6-9
Projected Water Demands for Lower Income Households 6-11
REFERENCES 6-17

CHAPTER 7. COMPARISON OF WATER SUPPLY AND DEMAND 7-1

COMPARISON OF HISTORICAL WATER SUPPLY AND DEMANDS 7-1
COMPARISON OF SUPPLY AND DEMAND IN THE CURRENT YEAR 7-1
COMPARISON OF PROJECTED SUPPLY AND DEMAND..... 7-1
Normal Year 7-1
Single Dry Year 7-4
Multiple Dry Years 7-4

CHAPTER 8. WATER DEMAND MANAGEMENT MEASURES..... 8-1

MANAGEMENT MEASURES 8-1
OVERVIEW OF WATER CONSERVATION PROGRAMS AND MEASURES..... 8-1
COMPARISON OF DMMS, CUWCC BMPS AND WATER FORUM BMPS..... 8-3
DESCRIPTION OF DMM IMPLEMENTATION..... 8-4
DMM 1: Water Survey Programs for Single Family and Multi-Family Residential Customers 8-4
Corresponding BMPs 8-4
Description..... 8-4
Implementation Schedule 8-5
Annual Budget/Expenditures 8-5
DMM 2: Residential Plumbing Retrofit 8-5
Corresponding BMPs 8-5
Description..... 8-5
Implementation Schedule 8-6
Annual Budget/Expenditures 8-6
DMM 3: System Water Audits, Leak Detection and Repair 8-6
Corresponding BMPs 8-6
Description..... 8-6
Implementation Schedule 8-7
Annual Budget/Expenditures 8-8
DMM 4: Metering with Commodity Rates for all New Connections and Retrofit of Existing Connections..... 8-8
Corresponding BMPs 8-8
Description..... 8-8
Wholesale Water Deliveries 8-9
Implementation Schedule 8-9
Annual Budget/Expenditures 8-10
DMM 5: Large Landscape Conservation Programs and Incentives 8-10
Corresponding BMPs 8-10
Description.....8-10
Implementation Schedule 8-11
Annual Budget/Expenditures 8-11

DMM 6: High-Efficiency Washing Machine Rebate Programs 8-11
Corresponding BMPs 8-11
Description 8-11
Implementation Schedule 8-12
Annual Budget/Expenditures 8-12
DMM 7: Public Information Programs 8-12
Corresponding BMPs 8-12
Description 8-12
Implementation Schedule 8-13
Annual Budget/Expenditures 8-14
DMM 8: School Education Programs 8-14
Corresponding BMPs 8-14
Description 8-14
Implementation Schedule 8-14
Annual Budget/Expenditures 8-14
DMM 9: Conservation Programs for Commercial, Industrial and Institutional Accounts 8-15
Corresponding BMPs 8-15
Description 8-15
Implementation Schedule 8-15
Annual Budget/Expenditures 8-16
Commercial, Industrial and Institutional Ultra-Low Flow Toilet Replacement Program 8-16
BMPS 8-16
Description 8-16
Implementation 8-16
Annual Budget/Expenditures 8-16
DMM 10: Wholesale Agency Programs 8-16
Corresponding BMPs 8-16
Description 8-16
Implementation 8-17
Annual Budget/Expenditures 8-17
DMM 11: Conservation Pricing 8-18
Corresponding BMPs 8-18
Description 8-18
Implementation 8-19
Budget/Expenditures 8-20
DMM 12: Water Conservation Coordinator 8-20
Corresponding BMPs 8-20
Description 8-20
Implementation Schedule 8-20
Annual Budget/Expenditures 8-20
DMM 13: Water Waste Prohibitions 8-20
Corresponding BMPs 8-20
Description 8-21
Implementation Schedule 8-21
Annual Budget/Expenditures 8-21

DMM 14: Residential Ultra-Low Flush Toilet Replacement Programs 8-21
Corresponding BMPs 8-21
Description 8-21
Implementation Schedule 8-22
Annual Budget/Expenditures 8-22
SUMMARY OF DMM IMPLEMENTATION 8-22
EXISTING CONSERVATION SAVINGS 8-24
REFERENCES 8-26

CHAPTER 9. WATER SHORTAGE CONTINGENCY PLAN 9-1

CONTINGENCY PLAN 9-1
PLAN DEVELOPMENT 9-1
STAGES OF ACTION 9-1
ESTIMATED MINIMUM WATER SUPPLY FOR NEXT THREE YEARS 9-4
DROUGHT/EMERGENCY PLANNING ACTIONS 9-5
No Water Available from the American River 9-5
No Water Available from the Sacramento River 9-5
Area-Wide Electrical Power Failure 9-6
Earthquake 9-6
Flood 9-6
MANDATORY PROHIBITIONS AND RESTRICTIONS 9-7
WATER RATES AND PENALTIES FOR EXCESSIVE USE 9-8
REVENUE AND EXPENDITURE ANALYSIS 9-8
Potential Revenue Impacts 9-8
Potential Expenditure Impacts 9-9
MECHANISMS FOR DETERMINING ACTUAL WATER USE REDUCTIONS 9-9
DRAFT WATER SHORTAGE CONTINGENCY RESOLUTION 9-9

CHAPTER 10. RECYCLED WATER PLAN 10-1

DESCRIPTION OF WASTERWATER DISPOSAL AND TREATMENT SYSTEMS 10-1
Combined Sewer System (CSS) 10-1
CSS Pumping Stations 10-1
Pioneer Reservoir 10-1
Combined Wastewater Treatment Plant (CWTP) 10-2
CSS Flow Available to Meet Recycled Water Demands 10-2
Description of the SRWWTP 10-3
EXISTING AND PROJECTED RECYCLED WATER USE 10-4
SRCSD Water Recycling Program – Phase I 10-4
SRCSD Water Recycling Program – Phase II 10-4
Total Existing and Projected Recycled Water Use 10-5
ACTIONS TO ENCOURAGE USE OF RECYCLED WATER 10-5
REFERENCES 10-8

APPENDIX A: Urban Water Management Plan Act

APPENDIX B: Resolution to Adopt Urban Water Management Plan

APPENDIX C: Water Contracts and Agreements

APPENDIX D: Groundwater Management Plans

APPENDIX E: 72-Year Hydrologic Analysis

APPENDIX F: California Urban Water Conservation Council (CUWCC) BMP Reporting

APPENDIX G: City of Sacramento Water Forum Water Conservation Plan

APPENDIX H: City of Sacramento Municipal Code and Ordinances Related to Water Conservation

APPENDIX I: Draft Water Shortage Contingency Plan Resolution

LIST OF TABLES

Table 3-1. Climate Information for the City's Water Service Area (DWR Table 3) 3-2

Table 3-2. Historic and Projected Population for the City's Water Service Area (DWR Table 2) 3-4

Table 3-3. City Customer Types in Fiscal Year 2004/2005 (DWR Table 12) 3-5

Table 4-1. City of Sacramento State Water Right Permits Summary..... 4-2

Table 4-2. Maximum Annual Diversion Allowed to the Year 2030 4-4

Table 5-1. Maximum Rate of Diversion to the FWTP During Hodge Flow Years..... 5-4

Table 5-2. Monthly Diversion Limit During Hodge Flow Years at the FWTP 5-4

Table 5-3. Available Surface Water Supply During Normal and Drought Conditions, acre-feet..... 5-8

Table 5-4. Occurrence of Historical Drought Conditions 5-9

Table 5-5. Assumed Total Future Water Supplies During Normal and Drought Conditions, acre-feet.....5-10

Table 5-6. Assumed Future Water Supplies Available During Multiple Dry Years, acre-feet.....5-11

Table 5-7. Available Supply from the NWTP during Multiple-Dry Years (DWR Table 17)....5-13

Table 6-1. Historical Water Production 6-2

Table 6-2. Total Future Area of the City's Retail Customers 6-3

Table 6-3. Aggregate Unit Demand Factors Used to Calculate Water Demands 6-4

Table 6-4. Projected Retail Water Demands at Buildout 6-5
Table 6-5. Projected Wholesale/Wheeling Water Demands in 2030, af (DWR 13) 6-7
Table 6-6. Total Existing and Projected Water Demands 6-8
Table 6-7. 2003 Water Demands by Customer Type 6-9
Table 6-8. Future Water Demands by Customer Type – 25.6% Conservation Achieved by City Retail Customers by 2030, af (DWR Table 12) 6-10
Table 6-11. Projected Water Demands for Lower Income Households 6-11
Table 6-9. Unit Factors for Projecting Accounts 6-12
Table 6-10. Future Accounts by Customer Type (DWR Table 12) 6-12
Table 6-12. Unaccounted-for System Losses, acre-feet (DWR Table 14) 6-13
Table 7-1. Comparison of Current Supply and Demand in Normal and Single Dry Years, af ... 7-2
Table 7-2. Comparison of Projected Water Supply and Demand in Normal Years, af 7-3
Table 7-3. Comparison of Projected Water Supply and Demand in Single Dry Years, af 7-5
Table 7-4. Comparison of Projected Water Supply and Demand in Multiple Dry Years, af (DWR Table 4, 7, 8, 9, 40, 41, 42) 7-6
Table 8-1. Relationship of the DMMs, CUWCC BMPs and Water Forum BMPs 8-3
Table 8-2. Number of Residential Surveys Offered and Completed 8-5
Table 8-3. Number of Low-Flow Devices Distributed 8-6
Table 8-4. Summary of Flat Rate and Metered Accounts in Fiscal Year 2004/2005[(a)] 8-8
Table 8-5. Number of Meter Retrofits Completed 8-9
Table 8-6. Number of Large Landscape Surveys Offered and Completed 8-11
Table 8-7. Number of Public Information Events Conducted 8-13
Table 8-8. Number of Commercial, Industrial and Institutional Surveys Offered and Completed 8-15
Table 8-9. RWA Dues from City 8-17
Table 8-10. City of Sacramento Water Rates for Metered Service for FY06 8-18
Table 8-11. City of Sacramento Sewer Rates for Metered Services for FY06 8-19
Table 8-12. Number of Residential Toilet Replacements 8-22
Table 8-13. Summary of DMM Implementation 8-22
Table 8-14. Estimated Annual Water Conservation Savings 8-24
Table 9-1. City of Sacramento Water Use Reduction Plan 9-2
Table 9-2. Stages of Action for Water Shortages 9-3
Table 9-3. Estimated Minimum Water Supply for the Next Three Years (DWR Table 24) 9-4

Table 10-1. Projected Wastewater Flow from the SRWWTP, mgd 10-4
Table 10-2. Quantity of Wastewater Planned for Recycled Water Programs, mgd (DWR Table 14,33,36) 10-5
Table 10-3. Methods to Encourage Recycled Water Use (DWR Table 36) 10-6
