April 22, 2013

Mr. Bill Monaghan
City of Burlingame
501 Primrose Road
Burlingame, California 94010

Dear Mr. Monaghan:

The Department of Water Resources (DWR) has reviewed the City of Burlingame's 2010 Urban Water Management Plan (UWMP) received in August 2011. The California Water Code (CWC) directs DWR to report to the legislature once every five years on the status of submitted plans. In meeting this legislative reporting requirement, DWR reviews all submitted plans.

DWR's review of Burlingame's 2010 UWMP has found that the Plan generally addresses the requirements of the CWC. We also recommend that in the 2015 update of the UWMP, the City provide a more detailed projection of expected demand and supply over a 20 year span in five year increments, as was provided in the City's 2005 UWMP, Table 14. Additionally, we encourage the City to provide more information in the 2015 UWMP on the feasibility or infeasibility of supplying recycled water in its service area.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does no evaluate or analyze the supplier's UWMP data, projections, or water management strategies. This letter simply acknowledges that the City of Burlingame's UWMP has addressed these requirements. The results of the review will also be provided to DWR's Financial Assistance Branch.

If you have any questions regarding the review of the plan or urban water planning, please don't hesitate to email or call.

Sincerely,

Peter Brostrom
UWMP Program Manager
