IN THE MATTER OF THE DETERMINATION OF THE RIGHTS OF THE VARIOUS CLAIMANTS TO THE WATER OF THAT PORTION OF MIDDLE FORK OF FEATHER RIVER AND ITS TRIBUTARIES SITUATE ABOVE BECKWITH IN PLUMAS COUNTY AND BEING WITHIN SIERRA AND PLUMAS COUNTIES, CALIFORNIA.	No. 3095

JUDGMENT AND DECREE

The above entitled proceeding came on regularly for hearing, trial and determination on the 24th day of October, 1939, before the above entitled Court; Spencer Burroughs, Esq. appearing as attorney for the Division of Water Resources of the Department of Public Works, State of California; all claimants in said proceeding having been duly and regularly notified of said hearing, trial and determination and having failed to appear at said hearing, trial and determination, and having thereby waived findings of fact and conclusions of law; evidence both oral and documentary having been introduced and the evidence having been closed and the matter having been submitted for decision; the Court having heretofore made and entered orders herein, as hereinafter set forth in paragraph 14, substituting certain parties and amending the order of determination filed herein by the Division of Water Resources of the Department of Public Works, State of California; and the Court being fully advised in the premises; now therefore,

IT IS HEREBY ORDERED, ADJUDGED AND DECREED as follows:

1. The said order of determination as heretofore amended by the Court is affirmed and adopted as the basis for the decree of this Court determining and establishing the several rights in and to the use of the

waters of the Middle Fork of Feather River and its tributaries above Beckwith, Plumas County.

2. All of the rights hereinafter set forth are subject to all definitions, limitations and provisions hereinafter set forth under the heading, "GENERAL DEFINITIONS, LIMITATIONS AND PROVISIONS".

HISTORY OF SAID PROCEEDING

3. The above entitled proceeding was initiated by F. E. Humphrey, Jr., who on March 5, 1936, duly filed a petition with said Division of Water Resources, for determination in accordance with the provisions of the water commission act, of the rights of the various claimants in and to the use of the waters of the Middle Fork of Feather River and its tributaries above Beckwith.

4. Upon investigation said Division of Water Resources found the facts and conditions to be such that the public interest and necessity would be served by the determination petitioned for. On March 6, 1936, by order duly given and made, said Division of Water Resources granted said petition, and thereafter duly gave notice by publication as provided by law, setting forth the fact of the entry of the aforesaid order and of the pendency of said proceeding, specifying the date upon which said Division of Water Resources would begin its examination of said stream system, to wit, April 15, 1936, and prescribing and requiring all claimants to rights in and to the use of the waters of said Middle Fork of Feather River and its tributaries above Beckwith to make proof of their claims in the manner provided by law.

5. At the time set in said notice said Division of Water Resources began its investigation of the flow of said Middle Fork of Feather River and its tributaries above Beckwith and of the conduits diverting water, and of the lands irrigated or irrigable therefrom, and proceeded to gather all other data and information essential to the proper determination of the rights in and to the use of the waters therefrom, and thereafter said Division of Water

Resources, reduced its observations, data, information and measurements to writing and executed surveys and prepared maps from the observations of such surveys in accordance with uniform rules and regulations duly and regularly adopted by said Division of Water Resources, which surveys and maps showed with substantial accuracy the course of the streams involved in said proceeding, the location of each conduit diverting water therefrom, land irrigated and capable of being irrigated by each conduit, and the kind of culture upon said irrigated lands. Said maps were prepared by said Division of Water Resources as the surveys and observations progressed, and when completed were duly and regularly filed and made of record in the office of said Division of Water Resources.

6. A conference of the various claimants included in said proceeding and their representatives was called by said Division of Water Resources on April 16, 1937, at Vinton, in said Plumas County and in said state, for the purpose of presenting the data that had been collected prior to that time by said Division of Water Resources. After discussing the matter at said conference, an agreement based upon the data collected by said Division of Water Resources, was entered into by all claimants in said proceeding, which agreement provided a plan of trial distribution of the waters of the Middle Fork of Feather River and its tributaries above Beckwith during the 1937 season pursuant to the provisions of Section 10a of said water commission act. Said plan of distribution was to be operative during the 1937 season only and it was provided therein that the rights of said claimants should in no manner be prejudiced by such distribution of water. Said agreement provided that said Division of Water Resources should supervise said plan of distribution through the agency of a water master and that said Division of Water Resources should have power and authority to modify said plan, if any defects in said plan became revealed through operation thereof during the course of said season. Said plan of distribution, as modified and improved during the course of operation thereof, was considered by more than 95 per cent of claimants in said proceeding to correctly show the status, measure and relation of the relative

rights involved in said proceeding. The proofs filed by claimants in said proceeding as hereinafter set forth in paragraph 7 were in most instances based upon said modified plan of distribution. Operation of said modified plan of distribution was continued through the 1938 season pursuant to an agreement entered into by said claimants on April 21, 1938.

7. Upon the completion of the aforesaid measurements and maps and after filing of said observations, data, information and measurements, as aforesaid, said Division of Water Resources, by order duly given and made, gave notice by publication thereof as provided by law, setting forth the date prior to which proofs to be furnished by claimants, in and to the use of the waters involved in said proceeding, were required to be filed with said Division of Water Resources, and said Division of Water Resources gave like notice and enclosed therewith forms of proofs as required by said water commission act, by registered mail, with postage fully prepaid thereon, to each claimant to m[illegible]s in and to the use of the waters involved in said proceeding, insofar as such claimant could be reasonably ascertained at his last known place of address. Thereafter the time allowed within which proofs might be filed was extended by order duly given and made by said Division of Water Resources, to and including January 15, 1938, and within said period as so extended claimants herein duly filed with said Division of Water Resources proofs of their respective rights in and to the use of the waters involved in said proceeding with the exception of proofs 213 and 214 which were filed on May 13, 1938. The rights of the parties filing said proofs 213 and 214 have been determined as hereinafter set forth by said Division of Water Resources on such evidence as it had obtained or that it had on file in its office in conformity with the provisions of Section 30 of said water commission act.

8. After the filing of proofs by claimants as aforesaid, and after the expiration of the time fixed by said Division of Water Resources for the filing of said proofs, said Division of Water Resources duly assembled all proofs which had been filed, except proofs 213 and 214, and prepared and duly certified an abstract of all said proofs, and duly caused the same to be

printed in accordance with the provisions of said water commission act, and thereafter by order duly given and made, prepared a notice fixing and setting a time and place convenient to the claimants when and where evidence taken by or filed with said Division of Water Resources would be open to inspection for a period of not less than ten days; and a copy of said notice together with a printed copy of said abstract of proofs, was thereafter, and more than fifteen days prior to the first day prescribed in said order as the commencement of the period of such inspection, duly mailed by registered mail, with the postage fully prepaid thereon, to each claimant who had appeared and filed proofs as required by said water commission act, and thereafter and in accordance with said notice and with said water commission act, all of the evidence taken by or filed with said Division of Water Resources was open for inspection at the times and in the places and for the period designated in said notice, and any and all persons during said period were permitted to inspect such evidence and proofs in conformity with the provisions of said water commission act, and during all of said period of inspection, a representative of said Division of Water Resources was present.

9. Twenty-eight contests of claims were filed with said Division of Water Resources within fifteen days after said evidence and proofs were opened to public inspection in conformity with the provisions of Section 34 of said water commission act; within ten days after the receipt of the notice of each of said contests, said Division of Water Resources notified by registered mail the contestants and the claimants respectively involved in each of said contests of the respective time and place fixed for hearing the matter of said contest, each of said times being fixed not less than fifteen nor more than sixty days from the respective time said Division of Water Resources mailed said notice of hearing in conformity with Section 35 of said water commission act; and said Division of Water Resources duly held said hearings of contests at the respective times and places fixed by said notices of hearing, and caused a copy of transcript of all testimony taken at each of said hearings to be filed with said Division of Water Resources.

10. Said Division of Water Resources duly made and entered on August 3, 1939, its order finding, determining and establishing the several rights in and to the use of the waters of said Middle Fork of Feather River and its tributaries above Beckwith, Plumas County, California, which said order was entered of record in the office of said Division of Water Resources in Book 1, Orders of Determination, at page 552, which said order was duly certified by said Division of Water Resources. Thereafter said Division of Water Resources caused said order of determination so certified to be printed in the State Printing Office and a copy thereof to be sent by registered mail, with the postage fully prepaid, to each person who had filed proof of claim, and to each person who had become interested through intervention in said proceeding under the provisions of said water commission act, in all respects as provided thereby and in conformity therewith.

11. At the time of submission of said proofs, said Division of Water Resources collected the fees due thereon, as prescribed in Section 52 of said water commission act, and after the time of mailing its order of determination as aforesaid, computed the entire cost incurred in performing the duties prescribed in Sections 26 to 36 of said water commission act, and duly apportioned the amount by which said entire cost exceeded the total amount received on account of fees paid at the time of filing said proofs among all claimants according to the method of apportionment provided in Section 52 of said water commission act, and in all respects in conformity therewith, and duly mailed notice of the assessment of additional charges by registered mail to each claimant, said notice including a statement of the total sum assessed and of the sum assessed against each claimant in said proceeding.

12. After the entry of said order of determination as aforesaid, and on August 22, 1939, a certified copy thereof, together with the original evidence filed with or taken by said Division of Water Resources, all duly certified by said Division of Water Resources, was filed with the Clerk of the Superior Court of the State of California, in and for the County of Plumas.

Upon the filing of said certified copy of said order and evidence with the Clerk of said Court, and on August 22, 1939, said Division of Water Resources procured an order from said Court setting October 24, 1939, at 10:00 o'clock in the morning of said day, in the courtroom of said Court in the city of Quincy in said county and state, as the time and place for hearing on said order of determination, and requiring and prescribing that on or before ten days prior thereto all parties in interest aggrieved or dissatisfied with said order of determination, should file with the Clerk of said Court notice of exceptions to said order of determination. Said Division of Water Resources thereupon procured from the Clerk of said Court a certified copy of said order of said Court setting said time and place for hearing as aforesaid, and forthwith said Division of Water Resources mailed a copy of such certified copy of said order of said Court by registered mail, with postage fully prepaid thereon, addressed to each known party in interest at his last known place of residence, in all respects as required by said water commission act, and duly caused said certified copy of said order to be published as required by said water commission act, and duly filed with the Clerk of said Court proof of such service by registered mail and publication.

13. No exceptions were filed with said Court within the time or in the manner as provided by Section 38b of said water commission act. Said proceeding came on duly and regularly for hearing before Judge. J. G. Bruton on October 24, 1939, at which time said Court made an order directing said Division of Water Resources to prepare for entry by said Court a decree determining the rights of all persons involved in said proceeding in accordance with said amended order of determination.

14. The Court has heretofore made and entered orders herein as follows:

(1) That on page 1 after the second paragraph of said order of determination, the following be inserted: "The following parties are corporations organized and existing under and by virtue of the laws of the State of California and their offices and principal places of business are set forth after their respective names as follows, to wit, Westover Co., San Francisco,

California; Sierra Valley Water Company, a corporation, Sierraville, California; Davies-Johnson Lumber Company, Calaveras County, California; Sierra Valley Bank, Loyalton, California; and said parties are hereinafter designated by their respective corporate names as above set forth."

"The following parties are corporations organized and existing under and by virtue of the laws of the State of Nevada, having their offices and principal places of business in Reno, Nevada, and are hereinafter designated by their respective corporate names, to wit, Clover Valley Lumber Company, and First National Bank of Nevada."

"Randolph Water Company is a co-partnership, having its office and principal place of business in Sierraville, California, and is hereinafter referred to as Randolph Water Company"; and

(3) That on page 11, paragraph 21, of said order of determination, lines 9, 10 and 11 be stricken out and in lieu thereof the following be substituted:

"designated as follows:

(a) Two (2) inches to said Amanda T. Blaisdell at a point on said ditch west of the Amanda T. Blaisdell dwelling on the Truckee Road.

(b) Two (2) inches to said D. J. Webber at any point on said ditch where the same passes the lot of said D. J. Webber in Randolph.

(c) Two (2) inches to said Mrs. O. N. Webber at any point where the said ditch passes the land of said Mrs. O. N. Webber in said Randolph, and

(d) The remainder of nineteen (19) inches to be taken out of said ditch at the point on said ditch where the so-called town of Randolph flume leads from said ditch to the so-called Town Tank, said point being at or near the end of the so-called White Ditch;" and

(5) That the said order of determination be amended to include

additional provisions as follows:

(a) "Josephine Roberti, C. D. Laffranchini and L. A. Laffranchini are entitled to extend and enlarge the Huntley Upper North Ditch (Diversion 40) along the northerly boundary of the irrigated lands of said Jennie F. Huntley to connect said ditch with a slough which traverses the NW¼ SW¼ of Section 1, T. 22 N., R. 15 E., M.D.B.& M.; said ditch so extended and said slough are to be jointly used by said Jennie F. Huntley, Josephine Roberti, C. D. Laffranchini and L. A. Laffranchini to convey all or any portion of the allotments through Diversions 39 to 46, inclusive, hereinafter set forth opposite their respective names in Schedule 4; and said Jennie F. Huntley shall have exclusive control over the operation of said Huntley Upper North Ditch (Diversion 40)."

(b) "Josephine Roberti is entitled to extend the northerly branch channel of the North Channel of Last Chance Creek from its present terminus near the center of the SW¼ SE¼ of Section 2, T. 22 N., R. 15 E., M.D.B.& M., along the line of an existing ditch leading westerly therefrom to the west boundary of the lands of said Jennie F. Huntley and thence westerly to connect with a canalized channel near the northwest corner of the SE¼ SW¼ of said Section 2; two spillways shall be installed in said extended channel, one near the center of the SW¼ SE¼ of said Section 2, and the other immediately west of the east boundary of the lands of said Josephine Roberti, to prevent backwater from damaging the lands of said Jennie F. Huntley; and said Josephine Roberti is entitled to use the Wherity North Ditch (Diversion 43) in conjunction with said Huntley Upper North Ditch (Diversion 40) for the irrigation of the lands hereinafter described under her name in Schedule 1;" and

(4) That on page 21 in paragraph 39, page 22 in paragraph 39, page 43 in paragraph 73, page 86 in Schedule 1, page 130 in Schedule 5, and page 141 in Schedule 10 of said order of determination, the name "Celia D. Fallow" be

changed to "Celia D. Fallon"; and

(5) That on page 46 in Schedule 1 of said order of determination, under the name of Horace G. Adams, the section number in the sixth description be changed from "25" to "35"; and

(6) That on page 49 in Schedule 1 of said order of determination, under the name of Francesca G. Bony and Marcel J. Bony, the fourth description of the 40 acre subdivision be changed from "NE¼ NW¼" to "SE¼ SE¼" and the range be changed from "R 15 E" to "R 14 E"; and

(7) That on page 51 in Schedule 1 of said order of determination, under the name of Albert B. Church, the first description of the 40 acre subdivision be changed from "NW¼ SW¼" to "NW¼ NW¼"; and

(8) That on page 52 in Schedule 1 of said order of determination, the name of "Allan B. Devine" be changed to "Allen B. Devine"; and

(9) That on page 64 in Schedule 1 of said order of determination, under the name of Elsie Herz Golden, the third description of the 40 acre subdivision on "(Frenchman Creek)" be changed from "SW¼ NW¼" to "SE¼ SW¼"; and

(10) That on page 65 in Schedule 1 of said order of determination, under the name of Elsie Herz Golden, between the eighth and ninth descriptions of acreages on the "(Home Ranch)" the following description be inserted: "39.5 acres in the NW¼ NW¼ of Section 17, T. 23 N., R. 16 E., M.D.B.& M."; and

(11) That on page 67 in Schedule 1 of said order of determination, under the name of F. E. Humphrey, Jr., the Range in the fifteenth description on the "(Middle Fork of Feather River Home Ranch)" be changed from "R. 14 E." to "R. 15 E."; and

(12) That on page 75 in Schedule 1 of said order of determination, under the name of Mary C. Laffranchini, in the first description on "(Bear Valley Creek)" the figure "24.9" be changed to "34.9"; and

(13) That on page 80 in Schedule 1 of said order of determination, under the name of Anna B. Miller the thirteenth description of the 40 acre subdivision on the "(Home Ranch)" be changed from "NE¼ NE¼" to "NE¼ SE¼"; and

(14) That on page 89 in Schedule 1 of said order of determination, under

the name of Frank R. Turner, et al., the fourth description of 40 acre subdivision on the "(West Side Canal - Mounds Ranch)" be changed from "NW¼ NE¼" to "SW¼ NE¼"; and

(15) That on page 89 in Schedule 1 in line 12 of said order of determination, the name "Frank Turner" be changed to "Frank R. Turner"; and

(16) That on page 95 in Schedule 2 of said order of determination, between the descriptions of the Goble Upper North Channel and Goble Lower North Channel the following items be inserted: "Goble Middle North Channel" in the first column, the figure "36" in the second column, the description "NW¼ SE¼ Sec. 32, T. 23 N., R. 16 E." in the third column, the description "S¼ cor. Sec. 32, T. 23 N., R. 16 E." in the fourth column, the bearing "N. 23° E." in the fifth column, the figure "1500" in the sixth column, and the figure "2" in the seventh column; and

(17) That on page 103 in Schedule 2 of said order of determination, the last item in the first column be changed from "Genasci Upper" to "Genasci Upper Field"; and

(18) That on page 107 in Schedule 2 of said order of determination, the third item in the fifth column be changed from "S. 28° W." to "S. 27° W."; and

(19) That on page 107 in Schedule 2 of said order of determination, the seventh item in the first column be changed from "Alpers Lower" to "Alpers Lower Field"; and

(20) That on page 108 in Schedule 2 of said order of determination, the sixth item in the fifth column be changed from "S. 69° 30' W." to "S. 69° 30' E."; and

(21) That on page 110 in Schedule 2 of said order of determination, the tenth item in the third column be changed from "Sec. 15" to "Sec. 10"; and

(22) That on page 112 in Schedule 2 of said order of determination, the fifth item in the first column be changed from "Martinetti/Lower West Channel" to "Martinetti Lower West Channel"; and

(23) That on page 114 in Schedule 2 of said order of determination, the fifth item in the first column be changed from "Pasquetti Turner" to "Pasquetti Turner Creek"; and

(24) That on page 116 in Schedule 2 of said order of determination, the twelfth item in the fourth column be changed from "SW Cor. Sec. 20, T. 21 N., R. 14 E." to "SE Cor. Sec. 20, T. 21 N., R. 14 E."; and

(25) That on page 116 in Schedule 2 of said order of determination, the twelfth item in the fifth column be changed from "N. 3° E." to "N. 3° W."; and

(26) That on page 119 in Schedule 2 of said order of determination, the eighth item in the fifth column be changed from "N 79° E" to "S 79° E"; and

(27) That on page 123 in Schedule 2 of said order of determination, the 40 acre subdivision in the third item in the third column be changed from "NE¼ SW¼" to "NE¼ NW¼"; and

(28) That on page 129 in Schedule 4 of said order of determination, the figure in the first line of the footnote below the schedule be changed from "11.5" to "11.15"; and

(29) That on page 139 in Schedule 10 of said order of determination, the seventh figure in the third column be changed from "129A" to "128A"; and

(30) That on page 141 in Schedule 10 of said order of determination, the fifth figure "(224)" in the third column and the fifth item "(Humphrey Upper River)" in the fourth column be stricken out; and

(31) That Daniel M. Scott and Gemma Solari Scott have succeeded to all right, title and interest of Annetta Solari as set forth in said order of determination, and that said Daniel M. Scott and Gemma Solari Scott be substituted herein in lieu, place and stead of said Annetta Solari.

DESCRIPTION OF AREA INVOLVED

15. The Middle Fork of Feather River has its source in the several tributary streams which rise in the plateau area on the west slope of the main divide of the Sierra Nevada mountain range in the east portion of Sierra and Plumas Counties. The various tributaries flow into a common basin, known as Sierra Valley, and converge into one stream which flows from said valley near

Beckwith in said Plumas County. The six most important tributaries, in clockwise order from the north around Sierra Valley, are Last Chance Creek, Smithneck Creek, Webber or Parker Creek, Hamlin Creek, Miller Creek and Turner Creek. In addition to the above six larger streams there are five streams of lesser importance, namely, in the same order around the valley, Staverville Creek, Antelope Creek, Lemon Creek, Fletcher Creek and Craycroft Creek, all of which are tributary to the above major streams within the confines of the valley floor. There are a number of small streams of even lesser importance debouching onto the valley floor, which insofar as water supply is concerned, are important only so far as the rights thereon are involved.

16. The Middle Fork of Feather River above Beckwith has a tributary area of about 540 square miles. The altitudes within this area range from about 8700 feet at Babbitt Peak to about 5000 feet on the floor of Sierra Valley. Approximately 100,000 acres of land within the basin are relatively level in contour, one-half of which may be classified as agricultural, and of which about 40,500 acres are irrigated from said Middle Fork of Feather River and its tributaries.

17. The climate of the area involved in said proceeding is typical of that prevailing generally over the Great Basin. Low precipitation, abundance of sunshine, wide range of temperature variations, low humidity and rapid evaporation are the characteristic features of the weather. The mean seasonal precipitation as measured at Sierraville, in said Sierra County and in said state, is approximately 21.9 inches, of which about 93 per cent occurs during the period from October first to May thirty-first. About 40 per cent of the seasonal precipitation falls in the form of snow, normally in the months of December, January, February and March. Occasional thunder showers of high intensity but of short duration occur during the summer months. These showers largely account for the remaining 7 per cent of the seasonal precipitation but cannot be depended upon for crop growth. Records of temperature at Sierraville show the mean minimum temperatures for the months from October to April, inclusive, to be below freezing. For the remaining months of the year the

monthly mean minimum temperatures range from 33.0 to 39.7 degrees and the monthly mean maximum temperatures range from 67.1 to 84.8 degrees. The highest recorded temperature at Sierraville was 104 degrees and the lowest was minus 34 degrees, a range of 138 degrees. Killing frosts for tender-leaf vegetation may occur any month of the year. These frosts, however, do not cause permanent injury to the predominating crops grown in the area and the growing season for such crops extends from about May first to September first, a period of about 120 days.

18. The soils of the irrigated lands involved in said proceeding range from clay loams to gravelly loams in their various phases, with the clay loams and sandy loams predominating. The crops grown in the area are well adapted to the soils.

19. Agriculture on a commercial basis is limited by the climate of the region to the growing of forage crops and the hardier grains upon the lands involved in said proceeding. Of the total irrigated area in the Middle Fork of Feather River basin above Beckwith, approximately 92 per cent is devoted to the production of meadow hay and meadow pasturage. The remaining 8 per cent of the area is about equally divided between lands planted to alfalfa and those cropped to grain. Small orchards and gardens are found on a few ranches but the total acreage cropped thereto is negligible. The forage crops and grain are consumed locally in the livestock and the dairying industries.

20. The successful production of said basic crops is dependent upon irrigation, and since the water supply of the Middle Fork of Feather River and its tributaries above Beckwith is inadequate for all agricultural needs throughout each irrigation season, it is essential that the rights in and to the use of waters of said Middle Fork of Feather River and its tributaries above Beckwith be determined in order that there may be an orderly distribution thereof, to the lawful owners.

GENERAL DEFINITIONS, LIMITATIONS AND PROVISIONS

21. The term "act" when used herein means the "water commission act", being Chapter 586, Statutes of 1913 of the State of California, as amended; the term "stream system" when used herein means the Middle Fork of Feather River and its tributaries above Beckwith; the term "claimant" when used herein means a party claiming rights in and to the use of waters of the Middle Fork of Feather River or any of its tributaries above Beckwith.

22. Although all quantities of water hereinafter found for the several claimants for direct application to beneficial use are severally expressed in terms of continuous flow, nevertheless, nothing herein contained shall be construed as limiting or restricting the rights of any such claimants to rotate in the use of water, or the right of any such claimant to divert for limited periods of time convenient "irrigation heads", and thus apply water to his lands at a greater rate than indicated by the quantity of continuous flow so found; provided, that such practice of rotation or use of "irrigation heads" shall not result in the use by any such claimant of a total quantity of water during any thirty-day period in excess of the equivalent of such claimant's continuous flow allowance for thirty days; except water may be diverted under each right hereinafter set forth in "second priority class" and "third priority class" in Schedule 5, in "fifth priority class" in Schedule 6, in "third priority class" in Schedule 8, and in paragraphs 32 to 38, inclusive, 50, 51, 58, 59, 60, 63, 72 and 73 at a greater rate than the continuous flow hereinafter set forth therefor provided that such diversion does not result in the use under each of said rights of a total quantity of water during any ninety-day period in excess of the equivalent of said continuous flow allowance for ninety days; and provided, further, that such practice of rotation or such use of "irrigation heads" shall not impair or infringe the rights of any other such claimant.

23. Nothing herein contained shall, or shall be construed to, prevent any of the claimants herein, who jointly use a ditch, where there is a continuous flow allotment to said ditch, from employing by agreement of

such joint users of said ditch a system of rotation in use as among themselves; or prevent any claimant herein who has allotments to two or more ditches, from using all or any portion of the summation of such allotments through each or any of said ditches on all or any portion of his lands, provided the total quantity of water diverted by said claimant at any time shall not exceed said summation of such allotments.

24. The term "directly apply to beneficial use" means the direct conveyance and application of water diverted to beneficial use without intermediate storage, except such regulatory storage as may be practiced for the purpose of equalizing the flow of water diverted to a convenient irrigation head.

25. The term "natural flow" means such flow as will naturally occur at any given point in a stream from the run-off of the watershed which it drains, from springs which naturally contribute to the stream from seepage, and from waste and return flow from dams, conduits and irrigated lands; as distinguished from released stored water, and from foreign water directly conveyed to the stream from another watershed.

26. The "Division of Water Resources Map" hereinafter referred to as "D. W. R. Map" is the map prepared by the Division of Water Resources of the Department of Public Works of the State of California, from its surveys made in 1936 and 1937, which map comprises seven sheets, is entitled "Middle Fork of Feather River Stream System Showing Diversions and Irrigated Lands, Plumas-Sierra Counties, California", is dated 1937, and is on file in said proceeding.

DEFINITION OF WATER RIGHTS

27. The rights in and to the waters, and in and to the use thereof, from said stream system are divided into six separate groups, designated as follows:

Last Chance Creek Group, Smithneck Creek Group, West Side Canal Group, Fletcher Creek Group, Little Truckee River Group, and Middle Fork of

Feather River Group; and all rights in each of the five first named groups, to wit, Last Chance Creek, Smithneck Creek, West Side Canal, Fletcher Creek and Little Truckee River are independent of all rights in the remaining four of said five first named groups, but are superior in priority and in right to all rights in said Middle Fork of Feather River Group as hereinafter set forth.

28. The various claimants in said proceeding are entitled to use of the waters of said stream system upon the irrigated lands hereinafter described under their respective names in Schedule 1, and are entitled to divert said waters at the respective points of diversion from said stream system as hereinafter numbered and described in Schedule 2. The respective points of measurements of the quantities of water hereinafter allotted to the several claimants are at said respective points of diversion from said stream system, except the allotments to Fred P. Giudici and Myrtle W. Giudici, and Mauricilio Giudici and Julie Giudici through the F. P. Giudici Upper Ditch (Diversion 21) set forth in Schedule 4 hereof shall be measured at a point in said ditch immediately east of Diversion 22, the allotments to Bernard E. Giudici and Rudolph E. Giudici through the Dicen Dam (Diversion 73) set forth in Schedules 4 and 5 hereof shall be measured in Morris Slough at or near Dicen Lane, the allotment to Caesar P. Lombardi through the Upper Concrete Dam (Diversion 81) set forth in Schedule 6 hereof shall be measured at the place of use in the NW¼ NW¼ Section 29, T. 21 N., R. 16 E., M.D.B.& M., the allotments to A. E. Strang and Delia R. Martinetti through the Miller-Strang Ditch (Diversion 167) set forth in Schedule 7 hereof shall be measured at a point in said ditch immediately above the pipe line forebay about 500 feet easterly from said Diversion 167, the allotments to the Freeman Ditch (Diversion 180) set forth in said Schedule 7 shall be measured at a point in said ditch at the State Highway crossing about one-half mile easterly from said Diversion 180, and the allotment to Randolph Water Company set forth in Schedule 10 hereof shall be measured at the points designated as follows:

(a) Two (2) inches to Amanda T. Blaisdell at a point on said ditch west of the Amanda T. Blaisdell dwelling on the Truckee Road.

(b) Two (2) inches to D. J. Webber at any point on said ditch where the same passes the lot of said D. J. Webber in Randolph,

(c) Two (2) inches to Mrs. O. N. Webber at any point where the said ditch passes the land of said Mrs. O. N. Webber in said Randolph.

(d) The remainder of nineteen (19) inches to be taken out of said ditch at the point on said ditch where the so-called town of Randolph flume leads from said ditch to the so-called Town Tank, said point being at or near the end of the so-called White ditch.

29. The various claimants in said proceeding are entitled to "interrelated", "special class", and "surplus class" water rights. All allocations of said "interrelated" water rights in each of said groups in said stream system, as hereinbefore designated in paragraph 27, occur in various priority classes and are hereinafter set forth in Schedules 3, 4, 5, 6, 7, 8, 9 and 10; each of said Last Chance Creek, Smithneck Creek, West Side Canal, and Middle Fork of Feather River Groups, contains rights in "special class" in addition to said water right allocations set forth in said Schedules 3, 4, 5, 6, 7 and 10, which said rights in "special class" are superior in priority and in right to all other rights in the group in which said rights in "special class" respectively occur as hereinafter set forth; and each of said Last Chance Creek, Smithneck Creek, Fletcher Creek, and Middle Fork of Feather River Groups, contains rights in "surplus class" in addition to said water right allocations set forth in said Schedules 3, 4, 5, 8, 9 and 10 and in addition to said rights in "special class", which said rights in "surplus class" are inferior and subject to all other rights in the group in which said rights in "surplus class" respectively occur, as hereinafter set forth.

30. All allotments of "first priority class" set forth in Schedule 6, 7, 8, and 10 hereof, all allotments of "second priority class" to be diverted through Diversions 92, 93, 111 and 112 set forth in said Schedule 6, all allotments of "second priority class" to be diverted through Diversions 202 to 218, inclusive, set forth in said Schedule 7, all allotments of "second priority class" to be diverted through Diversions 224 to 233, inclusive, set

forth in said Schedule 10, and all allotments hereinafter provided in paragraphs 32, 34, 35, 37, 38, 40, 48, 49, and 70 to 79, inclusive, respectively to Sam Bonta, A. D. Maddalena, Louis A. Laffranchini and Jennie F. Laffranchini, Elsie Herz Golden, Mauricilio Giudici and Julie Giudici, J. S. Rees, John Caccini, Anna B. Miller, Fred P. Alpers and Christina Alpers, Marie Mattarolo and B. V. Mattarolo, Frank Carmichael, Veste Nelson, Giacomo Falchi and M. Falchi, Westover Co., Westover Co., John Amodei and Anna Amodei and A. E. Strang, and A. E. Strang shall be for continuous usage without regard to season; the allotment hereinafter provided in paragraph 33 to Sam Bonta shall be for continuous usage during the season from April 10 to April 20, both dates inclusive, of each and every year; the allotment hereinafter provided in paragraph 36 to L. D. Maddalena shall be for continuous usage during the season from April 21 of each and every year to April 9 of the succeeding year, both dates inclusive; all allotments set forth in Schedules 3, 4 and 5, all allotments of "second priority class", except those to be diverted through Diversions 92, 93, 111 and 112, set forth in said Schedule 6, all allotments of third, fourth and fifth priority classes set forth in said Schedule 6, all allotments of "second priority class", except those to be diverted through Diversions 202 to 218, inclusive, set forth in said Schedule 7, all allotments of third, fourth and fifth priority classes set forth in said Schedule 7, all allotments of second and third priority classes set forth in said Schedule 8, all allotments set forth in Schedule 9 hereof, all allotments of "second priority class", except those to be diverted through Diversions 224 to 233, inclusive, set forth in said Schedule 10, all allotments of third, fourth, fifth and sixth priority classes set forth in said Schedule 10, and the allotments hereinafter provided in paragraphs 39, 50, 51, 58, 59, 60, 63, 68, 69, 82, and 83 respectively to Fred P. Giudici and Myrtle W. Giudici, Leon F. Dotta and Raffaele Dotta, Odo Grandi, F. E. Humphrey, Jr., Henry Albini and James L. Humphrey, James L. Humphrey, F. E. Humphrey, Jr., Isolina Pasquetti, Caesar P. Lombardi, Julius Filippini and Perpetua Genasci, Anna B. Miller and Westover Co. shall be for continuous usage during the season from March 15 to September

30, both dates inclusive, of each and every year; and all rights hereinafter provided in "surplus class" for the storage of the waters of the Middle Fork of Feather River and its tributaries shall be for diversion to storage at any season of each year whenever there is a surplus, if any, over and above the quantity required to fully supply all rights to divert and directly apply water to beneficial use as hereinbefore set forth in this paragraph.

Definition of Water Rights in Last Chance Creek Group

31. Said Last Chance Creek Group, as hereinbefore designated in paragraph 27, comprises rights of "special class", "interrelated" rights hereinafter set forth in Schedules 3, 4 and 5, and one right in "surplus class." Said "special class" embraces nine rights hereinafter defined in paragraphs 32 to 40, inclusive, which are independent of each other, but are superior in priority and in right to all other rights in said Last Chance Creek Group.

32. SAM BONTA is entitled to divert as a right in said "special class" from the natural flow of Bonta Creek at a point designated on said D.W.R. Map as Diversion 270, described in Schedule 2 hereof, through the Bonta Creek Ditches,

3.15 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

33. SAM BONTA is entitled to divert as a right in said "special class" from the natural flow of Bonta East Creek at a point designated on said D.W.R. Map as Diversion 271, described in Schedule 2 hereof, through the Bonta East Ditch,

0.37 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under

his name in Schedule 1.

34. A. D. MADDALENA is entitled to divert as a right in said "special class" from the natural flow of Bonta Creek, if any, flowing into the NW¼ NE¼ Section 29, T. 23 N., R. 15 E., M.D.B.& M., at a point designated on said D.W.R. Map as Diversion 269, described in Schedule 2 hereof, through the A. D. Maddalena Pasture Ditches,

0.52 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

35. L. D. MADDALENA is entitled to divert as a right in said "special class" from the natural and developed flow of L. D. Maddalena Spring at a point which bears approximately S. 67° W. approximately 2300 feet distant from the northeast corner of Section 15, T. 23 N., R. 15 E., M.D.B.& M., through the L. D. Maddalena Spring pipe line, as shown on said D.W.R. map,

0.015 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic and stock-watering purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

36. L. D. MADDALENA is entitled to divert as a right in said "special class" from the natural flow of Bonta East Creek at a point designated on said D.W.R. Map as Diversion 272, described in Schedule 2 hereof, through the L. D. Maddalena Pasture Ditch,

0.47 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

37. LOUIS A. LAFFRANCHINI, also known as L. A. Laffranchini, and JENNIE F. LAFFRANCHINI, collectively, are entitled to divert as a right in said "special class" from the natural flow of Laffranchini Creek at a point designated on said D.W.R. Map as Diversion 273, described in Schedule 2 hereof, through the Laffranchini Creek Ditches,

3.20 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on their lands hereinafter described under their names in Schedule 1.

38. ELSIE HERZ GOLDEN is entitled to divert as a right in said "special class" from the natural flow of Trosi Canyon and its tributaries at points designated on said D.W.R. Map as Diversions 274 and 275, described in Schedule 2 hereof, through the Trosi West Canyon, Trosi Middle Canyon and Trosi East Canyon Ditches,

2.25 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on her lands hereinafter described under her name in Schedule 1.

39. FRED P. GIUDICI AND MYRTLE W. GIUDICI, collectively, are entitled to divert as a right in said "special class" from the natural flow of Last Chance Creek at points designated on said D.W.R. Map as Diversions 21 and 22, described in Schedule 2 hereof, through the F. P. Giudici Upper and F. P. Giudici Lower Ditches,

3.50 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for utilization as a vehicle for diversion to maintain the storage back of the diversion dams at said Diversions 21 and 22 and to compensate for transportation losses below the point of measurement hereinbefore specified in Paragraph 28 in said ditches, said water so diverted to be returned to said Last Chance Creek,

except such quantity as is necessarily consumed for said purposes.

40. MAURICILIO GIUDICI and JULIE GIUDICI, collectively, are entitled as a right in said "special class" to receive upon their lands, hereinafter described under their names in Schedule 1, all drainage naturally tributary thereto from the Home Ranch lands described under the names of Fred P. Giudici and Myrtle W. Giudici in said Schedule 1, said drainage so received to be used as a supplemental supply for stock-watering and irrigation purposes on said lands of Mauricilio Giudici and Julie Giudici during the season hereinbefore stated in paragraph 30.

41. Said "interrelated" rights embrace rights of "first priority class" and "second priority class" set forth in Schedule 3 hereof, rights of "first priority class", "second priority class", "third priority class", "fourth priority class", and "fifth priority class" set forth in Schedule 4 hereof, and rights of "first priority class", "second priority class", and "third priority class" set forth in Schedule 5 hereof. All rights set forth in said Schedule 3 are superior in priority and in right to all rights set forth in said Schedules 4 and 5. All rights set forth in said Schedule 4 are superior in priority and in right to all rights set forth in said Schedule 5.

42. Subject to the foregoing rights, the various claimants enumerated in Schedule 3 hereof are entitled to rights of "first priority class" and "second priority class", as hereinbefore designated in paragraph 41, in and to the use of the natural flow of Last Chance Creek and its tributaries above Adams Neck, during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted, and through the diversions numbered and named as set forth in said Schedule 3. Said rights in "first priority class" are equal in priority and correlative in right, are subject and inferior to the rights in "special class", hereinbefore set forth in paragraphs 32 to 40, inclusive, but are superior in priority and in right to all other rights in

said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said rights in "special class", in accordance with their respective allotments in said "first priority class" as set forth in said Schedule 3. Said "second priority class" contains only one right, which is inferior and subject to all of said rights in "special class" and "first priority class", but is superior in priority and in right to all other rights in said Last Chance Creek Group; provided, however, not more than 1.15 cubic feet per second of the quantity of water allotted to C. C. Rowland and Ida May Rowland is to be used outside the watershed of the Middle Fork of Feather River and its tributaries; and provided further, no diversion shall be made for general irrigation purposes under the rights hereinbefore provided in this paragraph unless stock-water is available in the branch channels of said Last Chance Creek down to the east boundary of Section 27, T. 23 N., R. 16 E., M.D.B.& M.

43. Subject to the foregoing rights, the various claimants enumerated in Schedule 4 hereof are entitled to rights of "first priority class", "second priority class", "third priority class", "fourth priority class", and "fifth priority class", as hereinbefore designated in paragraph 41, in and to the use of the natural flow of Last Chance Creek and its tributaries below Frenchman Creek, during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted, and through the diversions numbered and named as set forth in said Schedule 4. Said rights in "first priority class" are equal in priority and correlative in right, are subject and inferior to the rights in "special class" and to all rights in Schedule 3 hereof, hereinbefore set forth in paragraphs 32 to 42, inclusive, but are superior in priority and in right to all other rights in said Last Chance

Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class" then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "first priority class" as set forth in said Schedule 4. Said rights in "second priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", Schedule 3 and "first priority class", but are superior in priority and in right to all other rights in said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "second priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "second priority class" as set forth in said Schedule 4. Said rights in "third priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", Schedule 3, "first priority class" and "second priority class", but are superior in priority and in right to all other rights in said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "third priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "third priority class" as set forth in said Schedule 4. Said rights in "fourth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", Schedule 3, "first priority class", "second priority class" and "third priority class", but are superior in priority and in right to all other rights in said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "fourth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply,

if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "fourth priority class" as set forth in said Schedule 4. Said rights in "fifth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", Schedule 3, "first priority class", "second priority class", "third priority class" and "fourth priority class", but are superior in priority and in right to all other rights in said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "fifth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "fifth priority class" as set forth in said Schedule 4, except as otherwise hereinafter provided in this paragraph; provided, however, Bernard E. Giudici and Rudolph E. Giudici shall not be entitled to divert any water under their allotment set forth in said Schedule 4 whenever the flow in the East Channel of Last Chance Creek is equal to or less than 11.15 cubic feet per second measured below the Laffranchini East Channel Division designated on said D.W.R. Map as Diversion 66, as hereinafter described in Schedule 2; provided further, no diversion shall be made for general irrigation purposes under the rights hereinbefore provided in this paragraph unless stock-water is available in the branch channels of said Last Chance Creek down to the east boundary of Section 27, T. 23 N., R. 16 E., M.D.B.& M; provided further, Edmund J. Goble and Ida C. Goble are entitled to maintain a rediversion dam within the SE¼ SE¼ Section 32, T. 23 N., R. 16 E., M.D.B.& M., in order to deliver their allotments diverted through Diversions 57 and 58 as set forth in said Schedule 4; and provided further, the use of the Huntley Upper North Channel (Diversion 40) by Josephine Roberti, C. D. Laffranchini and L. A. Laffranchini is subject to the control thereof by Jennie F. Huntley.

44. Subject to the foregoing rights, the various claimants enumerated in Schedule 5 hereof are entitled to rights of "first priority

class", "second priority class" and "third priority class", as hereinbefore designated in paragraph 41, in and to the use of the natural flow of Last Chance Creek below Adams Neck, during the seasons hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted, and through the diversions numbered and named as set forth in said Schedule 5. Said rights in "first priority class" are equal in priority and correlative in right, are subject and inferior to the rights in "special class" and to all rights in Schedules 3 and 4 hereof, hereinbefore set forth in paragraphs 32 to 43, inclusive, but are superior in priority and in right to all other rights in said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "first priority class" as set forth in said Schedule 5. Said rights in "second priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", Schedules 3 and 4 and "first priority class", but are superior in priority and in right to all other rights in said Last Chance Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "second priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "second priority class" as set forth in said Schedule 5. Said rights in "third priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", Schedules 3 and 4, "first priority class" and "second priority class", but are superior in priority and in right to the right hereinafter defined in paragraph 46, and at all times when the available water supply is inadequate to supply all of said

rights in "third priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "third priority class" as set forth in said Schedule 5; provided however, any water diverted under the allotment of 3.50 cubic feet per second in "third priority class" set forth in said Schedule 5 through Diversions 67 and 73, described in said Schedule 2, shall be deducted from the allotments for a total area of 971.9 acres included in Schedule 6 hereof served by Diversions 107, 108, 109, 118 and 119 from Smithneck Creek as hereinafter provided in paragraph 52.

45. No direct diversion shall be made of the waters of Last Chance Creek and its tributaries under the rights hereinbefore provided in paragraphs 42, 43 and 44 outside of the season of diversion hereinbefore stated therefor in paragraph 30, but all waters of said Last Chance Creek and its tributaries, over and above the allotments to said rights in "special class" hereinbefore set forth in paragraphs 32 to 38, inclusive, shall be allowed to flow unobstructed down the channel of said Last Chance Creek to the channel division in the NW¼ NW¼ of Section 26, T. 23 N., R. 16 E., M.D.B.& M., during the period from October 1 of each and every year to March 14 of the succeeding year, both dates inclusive, and said flow shall be equally divided at the point of said channel division between the North Channel and East Channel of said creek for stock-watering purposes in said branch channels and for diversion from said East Channel to storage as hereinafter provided in paragraph 46.

46. Subject to the foregoing rights, AMELIA D. RAMELLI, LOUISA SCOLARI, IDA A. SCOLARI, CELIA D. FALLON, P. R. SCOLARI, R. A. SCOLARI, OLIVIA R. ROBERTI and LYDIA H. WESTOVER, and JAMES L. HUMPHREY are entitled to divert as said right in "surplus class" from the natural flow of the East Channel of Last Chance Creek at a point designated on said D.W.R. Map as Diversion 70, described in Schedule 2 hereof, through the Roberti Lower Channel for storage in Last Chance Lake in the amounts set forth after their respective names as follows:

Amelia D. Ramelli - 220 acre-feet

Louisa Scolari, Ida A. Scolari, Celia D. Fallon, P. R. Scolari, R. A. Scolari, Olivia R. Roberti and Lydia H. Westover - 84 acre-feet

James L. Humphrey - 27 acre-feet

or as much of said amounts of water as are impounded in said Last Chance Lake, situated in the NE¼, W½ and SW¼ SE¼ Section 9 and the NE¼ NW¼ and NW¼ NE¼ Section 16, all in T. 22 N., R. 15 E., M.D.B.& M., and applied to beneficial use for domestic, stock-watering and irrigation purposes on the inundated lands within said Last Chance Lake as hereinafter described under their respective names in Schedule 1.

Definition of Water Rights in Smithneck Creek Group

47. Said Smithneck Creek Group, as hereinbefore designated in paragraph 27, comprises rights of "special class", "first priority class", "second priority class", "third priority class", "fourth priority class", "fifth priority class", and "surplus class". Said "special class" embraces four rights hereinafter defined in paragraphs 48 to 51, inclusive, which are superior in priority and in right to all other rights in said Smithneck Creek Group; and the relative priorities of such rights in "special class" are as hereinafter set forth in paragraphs 48 to 51, inclusive.

48. J. S. REES and JOHN CACCINI, collectively, are entitled to divert as a right in said "special class", from the natural flow of Staverville Creek at a point designated on said D.W.R. Map as Diversion 74, described in Schedule 2 hereof, through the Parker (Grey) Ditch,

0.50 cubic foot per second,

during the season hereinbefore stated in paragraph 30, or as much of said amount of water as is directly applied to beneficial use, for domestic and stock-watering purposes. Said J. S. Rees is entitled to use said water in the W½ SW¼ Section 8, T. 21 N., R. 16 E., M.D.B.& M., without obstructing the flow of water in said ditch, and said John Caccini is entitled to receive said water in the NE¼ SE¼ Section 7 of said township and range whenever such unobstructed

flow in said ditch will reach said land; and the right set forth in this paragraph is independent of the right hereinafter set forth in paragraph 51, but is superior in priority and in right to all other rights in said Smithneck Creek Group.

49. JOHN CACCINI is entitled to divert as a right in said "special class", from the natural flow of Staverville Creek at a point designated on said D.W.R. Map as Diversion 75, described in Schedule 2 hereof, through the Caccini Ditches,

1.15 cubic feet per second, year around

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on the lands hereinafter described under his name in Schedule 1; and the right set forth in this paragraph is inferior and subject to the right hereinbefore set forth in paragraph 48, is independent of the right hereinafter set forth in paragraph 51, but is superior in priority and in right to all other rights in said Smithneck Creek Group.

50. LEON F. DOTTA and RAFFAELE DOTTA, collectively, are entitled to divert as a right in said "special class" from the natural flow of Staverville Creek, if any, flowing into the SW¼ SE¼ Section 7, T. 21 N., R. 16 E., M.D.B.& M., at a point designated on said D.W.R. Map as Diversion 76, described in Schedule 2 hereof, through the Lower Staverville Channel,

0.80 cubic foot per second, Mar 15 - Sept 30

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on their lands hereinafter described under their respective names in Schedule 1, and at all times the water diverted under the right set forth in this paragraph shall be divided 7/16ths to said Leon F. Dotta and 9/16ths to said Raffaele Dotta; and the right set forth in this paragraph is inferior and subject to the rights hereinbefore set forth in paragraphs 48 and 49, is independent of the right hereinafter set forth in paragraph 51, but is superior in priority and in right to all other rights in said Smithneck Creek Group.

51. ODO GRANDI is entitled to divert as a right in said "special class", from the natural flow of Graveyard Creek at a point which bears approximately S 5° W, approximately 1300 feet distant from the North quarter corner of Section 13, T. 21 N., R. 15 E., M.D.B.& M., through the Grandi Ditch, 0.50 cubic foot per second, Mar 15 - Sept. 30 during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on the lands hereinafter described under his name in Schedule 1; and the right set forth in this paragraph is independent of the rights hereinbefore set forth in paragraphs 48, 49 and 50, but is superior in priority and in right to all other rights in said Smithneck Creek Group.

52. Subject to the rights hereinbefore defined in paragraphs 48, 49, 50 and 51, the various claimants enumerated in Schedule 6 hereof are entitled to said rights in "first priority class", "second priority class", "third priority class", "fourth priority class" and "fifth priority class", in and to the use of the natural flow of Smithneck Creek and its tributaries, during the seasons hereinbefore stated in paragraph 30, for domestic, stock-watering, and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted and through the diversions numbered and named as set forth in said Schedule 6. Said rights in "first priority class" are equal in priority and correlative in right, are subject and inferior to the rights in "special class" hereinbefore set forth in paragraphs 48 to 51, inclusive, but are superior in priority and in right to all other rights in said Smithneck Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said rights in "special class", in accordance with their respective allotments in said "first priority class" as

set forth in said Schedule 6. Said rights in "second priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class" and "first priority class", but are superior in priority and in right to all other rights in said Smithneck Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "second priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "second priority class" as set forth in said Schedule 6 except as otherwise hereinafter provided in this paragraph. Said rights in "third priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class" and "second priority class", but are superior in priority and in right to all other rights in said Smithneck Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "third priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "third priority class" as set forth in said Schedule 6 except as otherwise hereinafter provided in this paragraph. Said rights in "fourth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class", "second priority class" and "third priority class", but are superior in priority and in right to all other rights in said Smithneck Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "fourth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "fourth priority class" as set forth in said Schedule 6 except as otherwise hereinafter provided in this paragraph. Said rights in "fifth priority class" are equal

in priority and correlative in right, are inferior and subject to said rights in "special class", "first priority class", "second priority class", "third priority class" and "fourth priority class", but are superior in priority and in right to all other rights in said Smithneck Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "fifth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "fifth priority class" as set forth in said Schedule 6 except as otherwise hereinafter provided in this paragraph; provided, however, water may be diverted for a total area of 971.9 acres included in said Schedule 6 served by Diversions 107, 108, 109, 118 and 119, described in Schedule 2 hereof, from Last Chance Creek below Adams Neck as herein set forth in paragraph 44 and Schedule 5 through Diversions 67 and 73, described in said Schedule 2, in lieu of a corresponding quantity from said Smithneck Creek; provided further, Clover Valley Lumber Company is entitled to use all or any portion of its allotments set forth in said Schedule 6 for industrial purposes on the lands hereinafter described under its name in Schedule 1 and for municipal purposes in the Town of Loyalton; provided further, at all times when the total flow in the West Branch of Smithneck Creek at Diversion 111, described in said Schedule 2, is equal to or less than 1.00 cubic foot per second, Attilio R. Genasci and Louis Genasci are entitled to divert and use said total flow reaching said point on the lands hereinafter described under their names in said Schedule 1; provided further, at all times when the total flow in the Middle Branch of Smithneck Creek measured at Diversion 102, described in said Schedule 2, is equal to or less than 1.50 cubic feet per second, Julio Genasci and Angie Genasci are entitled to divert and use said total flow reaching said point on that portion of the lands hereinafter described under their names in Schedule 1, lying in the S½ Section 2, T. 21 N., R. 15 E., M.D.B.& M; provided further, at all times when the total flow in the East Branch of Smithneck Creek measured at Diversion 96, described in said

Schedule 2, is equal to or less than 1.00 cubic foot per second, Albert C. Dotta and Caesar Dotta are entitled to divert and use said total flow reaching said point on that portion of the lands hereinafter described under their names in Schedule 1, lying in the N½ Section 2, T. 21 N., R. 15 E., M.D.B.& M., and the S½ Section 35, T. 22 N., R. 15 E., M.D.B.& M; provided further, the allotment in "second priority class" set forth in said Schedule 6 for Leon F. Dotta shall be supplied from drainage from the lands of Alice Guidici, Frances Giudici and Stephen Giudici insofar as said drainage is available and the deficiency, if any, in said drainage, below 0.50 cubic foot per second, shall be supplied by diversion from the East Branch of Smithneck Creek through Diversion 92, described in said Schedule 2; provided further, all waters of Smithneck Creek available for rights in "second priority class", "third priority class", "fourth priority class" and "fifth priority class" set forth in said Schedule 6 below Diversion 89, described in said Schedule 2, shall be divided in the NE¼ NW¼ Section 13, T. 21 N., R. 15 E., M.D.B.& M., one-third part into the West Branch of said creek and the remainder on down the main channel, and that portion of said waters flowing on down said main channel and reaching the heads of the Middle and East Branches thereof in the SW¼ SW¼ Section 12 of said township and range, shall be divided equally between said Middle Branch and East Branch, except at all times when the total flow of said Smithneck Creek available for all rights in "second priority class", as set forth in said Schedule 6, is equal to or less than 0.40 cubic foot per second, Max Dory and May Dory are entitled to divert and use two-thirds of said total flow available for rights in "second priority class" on the lands hereinafter described under their names in Schedule 1 and the remaining one-third shall be allowed to flow down the East Branch of Smithneck Creek for stock-watering purposes; provided further, J. S. Rees is entitled to divert all or any portion of his allotment of 1.30 cubic feet per second in first priority class to the Lewis Bros. East Ditch, as set forth in said Schedule 6, from the natural flow of Cobb Spring in lieu of the diversion of a corresponding quantity of water from said Smithneck Creek; provided further, not more than one-half of the

water flowing in the West Branch of Smithneck Creek immediately above the Ramelli Division (Diversion 114) shall at any time be diverted through said Ramelli Division and no water shall be diverted through the Ramelli Flood Ditch (Diversion 113) when the total flow at said Diversion 113 is less than 10.0 cubic feet per second; and provided further, the allotments to Julio Genasci and Angie Genasci through Diversions 102 and 103, as set forth in said Schedule 6, shall be subject to the provisions of an agreement entered into on March 4, 1931, and recorded on March 11, 1931 in Liber H. of Contracts and Agreements, page 444, Records of Sierra County.

53. Said "surplus class" embraces rights to store waters of Smithneck Creek and its tributaries in three reservoirs; said rights in "surplus class" are inferior and subject to all other rights in said Smithneck Creek Group, as hereinbefore set forth in paragraphs 43 to 52, inclusive; and the relative priorities of said rights in "surplus class" are as hereinafter set forth in paragraphs 54, 55 and 56.

54. CHARLES W. EDE and M. B. HUMPHREY are entitled to divert as a right in said "surplus class" from the natural flow of Smithneck Creek at a point designated on said D.W.R. Map as Diversion 118, described in Schedule 2 hereof, for storage in Ede Lake in the amounts set forth after their respective names as follows:

Charles W. Ede	- 70 acre-feet per annum,
M. B. Humphrey	- 70 acre-feet per annum,

or as much of said amounts of water as are impounded in said Ede Lake, situated in the E½ SE¼ Section 20, the SW¼ SW¼ Section 21, the NW¼ and NW¼ SW¼ Section 28, and the NE¼ NE¼ Section 29, all in T. 22 N., R. 15 E., M.D.B.& M., and applied to beneficial use for domestic, stock-watering and irrigation purposes on the inundated lands within said Ede Lake as hereinafter described under their respective names in Schedule 1; and the right set forth in this paragraph is subject and inferior to all rights in said Smithneck Creek Group as hereinbefore defined, but is superior in priority and in right to the rights hereinafter defined in paragraphs 55 and 56.

55. CLOVER VALLEY LUMBER COMPANY is entitled to divert as a right in said "surplus class" from the natural flow of Smithneck Creek at a point designated on said D.W.R. Map as Diversion 39, described in Schedule 2 hereof, for storage in the Mill Pond,

50 acre-feet per annum,

to be used for industrial purposes, or as much of said amount of water as is impounded in said Mill Pond, situated in the E½ SE¼ Section 13, T. 21 N., R. 15 E., M.D.B.& M., and the W½ SW¼ Section 18, T. 21 N., R. 16 E., M.D.B.& M. and applied to beneficial use for said purposes within said Mill Pond; and the right set forth in this paragraph is subject and inferior to all rights in said Smithneck Creek Group as hereinbefore defined, but is superior in priority and in right to the right hereinafter defined in paragraph 56.

56. J. S. REES is entitled to divert as a right in said "surplus class" from the natural flow of Smithneck Creek at a point designated on said D.W.R. Map as Diversion 37, described in Schedule 2 hereof, through the Lewis Bros. East Ditch for storage in the Lewis (Rees) Reservoir,

50 acre-feet per annum,

to be used for domestic and stock-watering and irrigation purposes, or as much of said amount of water as is impounded in said Lewis (Rees) Reservoir, situated in the SE¼ SW¼ Section 7 and the NE¼ NW¼ Section 18, all in T. 21 N., R. 16 E., M.D.B.& M., and thereafter withdrawn from said reservoir, during the period of January 1 to December 31, both dates inclusive, of each year and applied to beneficial use for said purposes on the lands hereinafter described under his name in Schedule 1; and the right set forth in this paragraph is inferior and subject to all rights hereinbefore defined in said Smithneck Creek Group.

Definition of Water Rights in West Side Canal Group

57. Said West Side Canal Group, as hereinbefore designated in paragraph 27, comprises rights of "special class", "first priority class",

"second priority class", "third priority class", "fourth priority class" and "fifth priority class". Said "special class" embraces three rights hereinafter defined in paragraphs 58, 59 and 60, which are superior in priority and in right to all other rights in said West Side Canal Group; and the relative priorities of said rights in "special class" are as hereinafter set forth in paragraphs 58 to 60, inclusive.

58. F. E. HUMPHREY, Jr., HENRY ALBINI, and JAMES L. HUMPHREY are entitled to divert as a right in said "special class", from the natural flow of Craycroft Creek at a point designated on said D.W.R. Map as Diversion 201, described in Schedule 2 hereof, through the Lower Craycroft Creek Diversion in the amounts set after their respective names as follows:

F. E. Humphrey, Jr. - Russel - 0.22 cubic foot per second
Henry Albini - Wilson Bros - 0.18 cubic foot per second
James L. Humphrey - Carmichael - 0.60 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amounts of water as are directly applied to beneficial use for said purposes on their Craycroft Creek lands hereinafter described under their respective names in Schedule 1, and at all times when the available water supply is inadequate to supply said amounts of water above set forth in this paragraph, then during the continuance of such shortage, said owners thereof shall prorate the available supply in accordance with their respective allotments above set forth in this paragraph after their respective names; and the right set forth in this paragraph is superior in priority and in right to all other rights in said West Side Canal Group.

59. JAMES L. HUMPHREY is entitled to divert as a right in said "special class" from the natural flow of Craycroft Creek, if any, in excess of 3.00 cubic feet per second at a point designated on said D.W.R. Map as Diversion 201, described in Schedule 2 hereof, through the Lower Craycroft Creek Diversion,

0.20 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is

directly applied to beneficial use for said purposes on his Craycroft Creek lands hereinafter described under his name in Schedule 1; and the right set forth in this paragraph is inferior and subject to the right set forth in paragraph 58, but is superior in priority and in right to all other rights in said West Side Canal Group.

60. F. E. HUMPHREY, Jr. is entitled to divert as a right in said "special class" from the natural flow of Craycroft Creek, if any, in excess of 3.60 cubic feet per second, at a point designated on said D.W.R. Map as Diversion 201 A, through the Upper Craycroft Creek Diversion,

0.75 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his Craycroft Creek lands hereinafter described under his name in Schedule 1; and the right set forth in this paragraph is inferior and subject to the rights set forth in paragraphs 58 and 59, but is superior in priority and in right to all other rights in said West Side Canal Group.

61. Subject to the rights hereinbefore defined in paragraphs 58, 59 and 60, the various claimants enumerated in Schedule 7 hereof are entitled to said rights in "first priority class", "second priority class", "third priority class", "fourth priority class", and "fifth priority class", in and to the use of the natural flow of West Side Canal and its tributaries - Hamlin, Miller and Turner Creeks, during the seasons hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted, and through the diversions numbered and named as set forth in said Schedule 7. Said rights in "first priority class" are equal in priority and correlative in right, are subject and inferior to the rights in "special class" hereinbefore set forth in paragraphs 58, 59 and 60, but are superior in priority and in right to all other rights in said West Side

Canal Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said rights in "special class", in accordance with their respective allotments in said "first priority class" as set forth in said Schedule 7. Said rights in "second priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class" and "first priority class", but are superior in priority and in right to all other rights in said West Side Canal Group, and at all times when the available water supply is inadequate to supply all of said rights in "second priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "second priority class" as set forth in said Schedule 7. Said rights in "third priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class" and "second priority class", but are superior in priority and in right to all other rights in said West Side Canal Group, and at all times when the available water supply is inadequate to supply all of said rights in "third priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "third priority class" as set forth in said Schedule 7. Said rights in "fourth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class", "second priority class" and "third priority class", but are superior in priority and in right to all other rights in said West Side Canal Group, and at all times when the available water supply is inadequate to supply all of said rights in "fourth priority class", then during the continuance of such shortage the owners of such rights shall prorate the available water supply, if any,

in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "fourth priority class" as set forth in said Schedule 7. Said rights in "fifth priority class" are equal in priority and correlative in right, are subject and inferior to all other rights in said West Side Canal Group, and at all times when the available water supply is inadequate to supply all of said rights in "fifth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply all other rights in said West Side Canal Group, in accordance with their respective allotments in said "fifth priority class" as set forth in said Schedule 7; provided, however, the use of the H. Dotta North Channel (Diversion 161) by A. E. Strang is subject to the control thereof by Henry Dotta; provided further, the use of the Martinetti Spring Brook Ditch (Diversion 177) by J. H. Cavitt is subject and subordinate to the use of said diversion by Delia R. Martinetti; provided further, the use of the Church Ditch (Diversion 184) by J. H. Cavitt is subject and subordinate to the use of said diversion by Albert B. Church; provided further, the waters of Miller Creek reaching the SW¼ NE¼ of Section 9, T. 20 N., R. 14 E., M.D.B.& M., shall at all times be divided equally between the East Channel and the West Channel of said Creek; and provided further, Henry Dotta is entitled to divert 0.85 cubic foot per second of the allotment to A. E. Strang in "third priority class" in said Schedule 7 through the H. Dotta South Ditch (Diversion 159) to cause adequate drainage from the lands of said Henry Dotta for the irrigation of 67.3 acres of the Hamlin Creek lands of A. E. Strang hereinafter described under his name in Schedule 1.

Definition of Water Rights in Fletcher Creek Group

62. Said Fletcher Creek Group, as hereinbefore designated in paragraph 27, comprises rights of "first priority class", "second priority class", "third priority class", and one right in "surplus class". The various claim-

ents enumerated in Schedule 8 hereof are entitled to said rights in "first priority class", "second priority class", and "third priority class", in and to the use of the natural flow of Fletcher Creek and Spring Channels, during the seasons hereinbefore stated in paragraph 30, for domestic, stock-watering, irrigation and industrial purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted, and through the diversions numbered and named as set forth in said Schedule 8. Said rights in "first priority class" are equal in priority and correlative in right, and are superior in priority and in right to all other rights in said Fletcher Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply in accordance with their respective allotments in said "first priority class" as set forth in said Schedule 8. Said rights in "second priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "first priority class", but are superior in priority and in right to all other rights in said Fletcher Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "second priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "second priority class" as set forth in said Schedule 8. Said rights in "third priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "first priority class" and "second priority class", but are superior in priority and in right to all other rights in said Fletcher Creek Group, and at all times when the available water supply is inadequate to supply all of said rights in "third priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in

excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "third priority class" as set forth in said Schedule 8; provided however, the waters of Fletcher Creek and of Spring Channels shall at no time be directly commingled prior to application to beneficial use.

63. Subject to the rights hereinbefore defined in said Fletcher Creek Group, ISOLINA PASQUETTI is entitled to divert from the natural flow of Fletcher Creek and Spring Channels as said right in "surplus class" at points where said streams cross the west boundary of the E½ SE¼ of Section 21, T. 21 N., R. 14 E., M.D.B.& M.,

0.25 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on her Fletcher Creek lands hereinafter described under her name in Schedule 1.

Definition of Water Rights in Little Truckee River Group

64. Said Little Truckee River Group, as hereinbefore designated in paragraph 27, comprises rights of the various shareholders in Sierra Valley Water Company for rediversion of foreign water conveyed from the Little Truckee River into the Middle Fork of Feather River stream system, as hereinafter set forth in paragraph 65.

65. SIERRA VALLEY WATER COMPANY, a corporation, is entitled to deliver, during the period between March 15 and September 30, both dates inclusive, of each and every year into said Middle Fork of Feather River stream system at a point [illegible] NW¼ of Section 33, T. 20 N., R. 15 E., M.D.B.& M., water diverted from Little Truckee River through the Little Truckee-Sierra Valley Ditch, said foreign water so delivered not at any time to exceed 60.0 cubic feet per second, measured at said point of delivery, said foreign water to be rediverted and used by the shareholders in said company as

enumerated in Schedule 9 hereof, for domestic, stock-watering and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, or as much thereof as is directly applied to beneficial use for said purposes upon their said lands. Said Sierra Valley Water Company is entitled to use the channels of the Middle Fork of Feather River and its tributaries and branches to convey said foreign water to said shareholders, and said company is entitled to maintain such diversion dams and other structures in said river, its tributaries and branches, and ditches leading therefrom, as are necessary to distribute said water to said shareholders in accordance with the respective number of shares held by them as hereinafter set forth after their respective names in said Schedule 9. The rights of said shareholders are equal in priority and correlative in right, and at all times when said foreign water supply available for rediversion, after deducting transportation losses, is inadequate to supply all allotments set forth in said Schedule 9, then during the continuance of such shortage, said shareholders shall prorate said available foreign water supply in accordance with their respective allotments as set forth in said Schedule 9.

Definition of Water Rights in Middle Fork of Feather River Group.

66. The rights hereinafter defined in said Middle Fork of Feather River Group, as hereinbefore designated in paragraph 27, are subject to the provisions of the judgment and decree of the Superior Court of the State of California, in and for the County of Sierra, entered December 4, 1914, in Case No. 1267, entitled A. S. Nichols Co. vs. William A. Macy, et al., insofar as said rights have heretofore been determined by said judgment and decree.

67. Said Middle Fork of Feather River Group comprises rights of "special class", "first priority class", "second priority class", "third priority class", "fourth priority class", "fifth priority class", "sixth priority class", and "surplus class". Said "special class" embraces twelve

rights hereinafter defined in paragraphs 68 to 79, inclusive, which are independent of each other, but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group.

68. CAESAR P. LOMBARDI is entitled to divert as a right in said "special class" from the natural flow of Antelope Creek at points designated on said D.W.R. Map as Diversions 120, 121 and 122, described in Schedule 2 hereof, through the Antelope Upper, Antelope East Channel and Antelope West Channel Ditches,

4.00 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

69. JULIUS FILIPPINI and PERPETUA GENASCI, collectively, are entitled to divert as a right in said "special class" from the natural flow of Antelope Creek, if any, flowing into Section 9, T. 21 N., R. 15 E., M.D.B.& M., below a point designated on said D.W.R. Map as Diversion 122, described in Schedule 2 hereof, by means of the Antelope East Channel Dam,

2.00 cubic feet per second,

during the season hereinbefore stated in paragraph 30 for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on their respective Antelope Creek lands hereinafter described under their respective names in Schedule 1; and at all times any such water so diverted shall be divided equally between said Julius Filippini and Perpetua Genasci at said Antelope East Channel Dam.

70. ANNA B. MILLER is entitled to divert as a right in said "special class" from the natural flows of Lemon Creek and Blinman Springs at points designated on said D.W.R. Map as Diversions 123 to 126, inclusive, described in Schedule 2 hereof, through the Blinman Spring Channel, Lemon East, Lemon West and Lemon Lower Ditches,

5.00 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on her Lemon Creek lands hereinafter described under her name in Schedule 1.

71. FRED P. ALPERS and CHRISTINA ALPERS, collectively, are entitled to divert as a right in said "special class" from the natural flow of Lemon Creek, if any, flowing into Section 7, T. 20 N., R. 15 E., M.D.B.& M., below a point designated on said D.W.R. Map as Diversion 126, described in Schedule 2 hereof, through the Lemon Lower Ditches,

2.70 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on their Lemon Creek lands hereinafter described under their names in Schedule 1.

72. MARIE MATTAROLO and B. V. MATTAROLO, collectively, are entitled to divert as a right in said "special class" from the natural flows of Campbell Springs, an unnamed canyon and Hobo Springs at points designated on said D.W.R. Map as Diversions 257 and 258, described in Schedule 2 hereof, through the Campbell Springs and Hobo Springs Ditches,

0.60 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on their lands hereinafter described under their names in Schedule 1.

73. FRANK CARMICHAEL is entitled to divert as a right in said "special class" from the natural flows of Mapes Creeks and Mapes Springs at points designated on said D.W.R. Map as Diversions 267 and 268, described in Schedule 2 hereof, through the Mapes West Meadow and Mapes East Meadow Ditches,

5.00 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-

watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

74. VESTE NELSON is entitled to divert as a right in said "special class" from the natural flows of Nelson Canyons at a point designated on said D.W.R. Map as Diversion 265, described in Schedule 2 hereof, through the Nelson Ditches,

1.30 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on his lands hereinafter described under his name in Schedule 1.

75. GIACOMO FALCHI and M. FALCHI, collectively, are entitled to divert as a right in said "special class" from the natural flow of Falchi Canyon at a point designated on said D.W.R. Map as Diversion 266, described in Schedule 2 hereof, through the Falchi (Falchi and Noble) Ditches,

1.70 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on their Beckwith Peak Ranch lands hereinafter described under their names in Schedule 1.

76. WESTOVER CO. is entitled to divert as a right in said "special class" from the natural flows of Falchi and Noble Canyons, if any, in excess of 1.70 cubic feet per second, at a point designated on said D.W.R. Map as Diversion 266, described in Schedule 2 hereof, through the Falchi and Noble Ditches,

1.80 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on the Beckwith Peak Drainage lands of said Westover Co. hereinafter described under its name in

Schedule 1.

77. WESTOVER CO. is entitled to divert as a right in said "special class" from the natural and developed flow of an unnamed spring in the NW¼ NE¼ Section 10, T. 22 N., R. 14 E., M.D.B.& M.,

0.005 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic and stock-watering purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes within the N½ NE¼ Section 10, T. 22 N., R. 14 E., M.D.B.& M.

78. JOHN AMODEI and ANNA AMODEI, and A. E. STRANG are entitled to divert as a right in said "special class" from the natural flows of Amodei Upper Spring and Amodei Lower (Meadow) Springs at points designated on said D.W.R. Map as Diversions 259 and 260, described in Schedule 2 hereof, through the Amodei Upper Spring and Amodei Meadow Spring Ditches, in the amounts set forth after their respective names as follows:

John Amodei and Anna Amodei - 1.20 cubic feet per second
A. E. Strang - 0.20 cubic foot per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amounts of water as are directly applied to beneficial use for said purposes on their Amodei Springs lands hereinafter described under their respective names in Schedule 1, and at all times when the available water supply is inadequate to supply said amounts of water above set forth in this paragraph, then during the continuance of such shortage, said owners thereof shall prorate the available supply in accordance with their respective allotments above set forth in this paragraph after their respective names.

79. A. E. STRANG is entitled to divert as a right in said "special class", from the natural flow, if any, flowing from Amodei Meadow Springs through the Amodei Meadow Spring Channel into Section 11, T. 20 N., R. 14 E., M.D.B.& M.,

0.80 cubic foot per second,

during the season hereinbefore stated in paragraph 30, or as much of said amount of water as is directly applied to beneficial use for irrigation purposes on his Amodei Meadow Springs Lands hereinafter described under his name in Schedule 1.

80. Subject to all rights hereinbefore defined, the various claimants enumerated in Schedule 10 hereof are entitled to said rights in "first priority class", "second priority class", "third priority class", "fourth priority class", "fifth priority class", and "sixth priority class", in and to the use of the natural flow of the Middle Fork of Feather River and its tributaries, during the seasons hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes upon their respective lands as shown on said D.W.R. Map and as described under their respective names in Schedule 1 hereof, in accordance with the acreages to be supplied, priorities and quantities of water allotted, and through the diversions numbered and named as set forth in said Schedule 10. Said rights in "first priority class" are equal in priority and correlative in right, are subject and inferior to the rights in "special class" hereinbefore set forth in paragraphs 68 to 79, inclusive, but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group, and at all times when the available water supply is inadequate to supply all of said rights in "first priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said rights in "special class", in accordance with their respective allotments in said "first priority class" as set forth in said Schedule 10. Said rights in "second priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class" and "first priority class", but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group, and at all times when the available water supply is inadequate to supply all of said rights in "second priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply,

if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "second priority class" as set forth in said Schedule 10. Said rights in "third priority class" are equal in priority and correlative in right, except as hereinafter in this sentence specified, are subject and inferior to said rights in "special class", "first priority class" and "second priority class", but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group, and at all times when the available water supply is inadequate to supply all of said rights in "third priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "third priority class" as set forth in said Schedule 10, except the allotment to Grace L. Wilson in said "third priority class" is superior in priority and in right to the allotments to Fred P. Alpers and Christina Alpers, and Giulio Torri in said "third priority class" as set forth in said Schedule 10. Said rights in "fourth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class", "second priority class", and "third priority class", but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group, and at all times when the available water supply is inadequate to supply all of said rights in "fourth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "fourth priority class" as set forth in said Schedule 10. Said rights in "fifth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class", "second priority class", "third priority class", and "fourth priority class", but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group, and at all times when the available water supply is inadequate to supply all of said rights in "fifth

priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights in accordance with their respective allotments in "fifth priority class" as set forth in said Schedule 10. Said rights in "sixth priority class" are equal in priority and correlative in right, are subject and inferior to said rights in "special class", "first priority class", "second priority class", "third priority class", "fourth priority class", and "fifth priority class", but are superior in priority and in right to all other rights in said Middle Fork of Feather River Group, and at all times when the available water supply is inadequate to supply all of said rights in "sixth priority class", then during the continuance of such shortage, the owners of such rights shall prorate the available water supply, if any, in excess of the quantity required to supply said prior rights, in accordance with their respective allotments in said "sixth priority class"; provided, however, the allotment of 0.04 cubic foot per second through Diversion 133 to Annie Dora Adams shall be delivered at the place of use on the land described under her name in said Schedule 1; provided further, Antone E. Dotta has no right to cause water, in the Humphrey Dam East Ditch (Diversion 238) to be raised to such an elevation that interference will result in delivery of the allotments set forth in said Schedule 10 to James L. Humphrey and to Louisa Scolari, Ida A. Scolari, Celia D. Fallon, P. R. Scolari, R. A. Scolari, Olivia R. Roberti and Lydia H. Westover through said ditch; provided further, Fred F. Alpers and Christina Alpers shall be entitled to have their allotment set forth in Schedule 9 turned into the Bony East Ditch at the Bony Upper Concrete Dam (Diversion 136) to be used as a supplemental supply for their Lemon Creek lands described under their names in said Schedule 1, whenever Little Truckee River water is available for rediversion at said point and whenever such use will not interfere with delivery of allotments through said ditch and diversion herein set forth for the use of Francesca G. Bony and Marcel J. Bony; provided further, C. D. Johnson is entitled to use such drainage from the Albee Dam of the Morgan, Johnson and Adams Ditches (Diversion 133)

as may flow onto his lands described under his name in said Schedule 1 in addition to the allotment to his lands set forth in said Schedule 10; provided further, Thomas E. Miller is entitled to use such drainage from the Dolley Dam and Ditch of the Morgan, Johnson and Adams Ditches (Diversion 133) as may flow onto his lands described under his name in said Schedule 1 in addition to the allotment to his lands set forth in said Schedule 10; provided further, James I. Humphrey is entitled to divert and use all or any portion of his allotments set forth in said Schedule 10 as a supplemental supply on his West Side Canal and Craycroft Creek lands described under his name in said Schedule 1; and provided further all waters reaching the heads of Town Creek and Perry Creek, in the SE¼ NE¼ Section 24, T. 20 N., R. 14 E., M.D.B.& M., shall at all times be equally divided between said creeks.

81. Said "surplus class" embraces two rights to direct diversion and two rights to store waters of tributaries to said Middle Fork of Feather River; said rights in "surplus class" are inferior and subject to all other rights in said Middle Fork of Feather River Group as hereinbefore set forth in paragraphs 68 to 80, inclusive; and the relative priorities of said rights in "surplus class" are as hereinafter set forth in paragraphs 82 to 85, inclusive.

82. ANNA B. MILLER is entitled to divert as a right in said "surplus class" from the natural flow of Webber Creek at a point designated on said D.W.R. Map as Diversion 155, described in Schedule 2 hereof, through the Amodei Ditch,

3.00 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on her Amodei Ditch lands hereinafter described under her name in Schedule 1; and said right set forth in this paragraph is equal in priority and correlative in right with the right hereinafter defined in paragraph 83, but is independent of the rights hereinafter defined in paragraphs 84 and 85.

83. WESTOVER CO. is entitled to divert as a right in said "surplus class" from the natural flow of the Middle Fork of Feather River at points designated on said D.W.R. Map as Diversions 243, 244 and 245, described in Schedule 2 hereof, through the Noble East and Noble West Ditches and Noble Dam,

3.30 cubic feet per second,

during the season hereinbefore stated in paragraph 30, for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is directly applied to beneficial use for said purposes on the Middle Fork of Feather River lands of said Westover Co. hereinafter described under its name in Schedule 1; and said right set forth in this paragraph is equal in priority and correlative in right with the right hereinbefore defined in paragraph 82, but is independent of the rights hereinafter defined in paragraphs 84 and 85.

84. WESTOVER CO. is entitled to divert as a right in said "surplus class" from the natural flows of unnamed canyons situate between Falchi Canyon and Nelson Canyon at a point designated on said D.W.R. Map as Diversion 263, described in Schedule 2 hereof, for storage in the Noble Reservoir,

200 acre-feet per annum,

to be used as a supplemental supply for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is impounded in said Noble Reservoir, situated in the SW¼ SW¼ Section 1, E½ SE¼ and NW¼ SE¼ Section 2, NE¼ NE¼ Section 11, and NW¼ NW¼ Section 12, all in T. 22 N., R. 14 E., M.D.B.& M. and thereafter withdrawn from said reservoir, during the period from May 1 to September 1, both dates inclusive, of each year and applied to beneficial use for said purposes on the Middle Fork of Feather River lands hereinafter described under the name of said Westover Co. in Schedule 1; and the right set forth in this paragraph is independent of the other rights in said "surplus class" herein set forth in paragraphs 82, 83, and 85.

85. FRANK CARMICHAEL is entitled to divert as a right in said "surplus class" from the natural flow of Mapes Creeks and its tributaries at points within the NW¼ Section 19, T. 23 N., R. 15 E., M.D.B.& M., for storage

in the Mapes Reservoir,

80 acre-feet per annum,

to be used as a supplemental supply for domestic, stock-watering and irrigation purposes, or as much of said amount of water as is impounded in said Mapes Reservoir, situated in the E½ NE¼ Section 24, T. 23 N., R. 14 E., M.D.B.& M., and the W½ NW¼ and NE¼ NW¼ Section 19, T. 23 N., R. 15 E., M.D.B.& M., and thereafter withdrawn from said reservoir, during the period from March 1 to September 1, both dates inclusive, of each year and applied to beneficial use for said purposes on the lands hereinafter described under his name in Schedule 1; and the right set forth in this paragraph is independent of the other rights in said "surplus class" herein set forth in paragraphs 82, 83 and 84.

* Delivered at place of use as hereinbefore set forth in paragraph 80.
** Use of Diversion 238 by Antone E. Dotta shall not materially affect delivery of water to other users of said diversion as hereinbefore set forth in paragraph 80.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED as follows:

86. That no party herein adjudged and decreed a right to water shall divert from said Middle Fork of Feather River and its tributaries above Beckwith, at any time, a quantity of water in excess of the quantity reasonably necessary for his requirements and being put to beneficial use by said party.

87. The Court retains continuing jurisdiction of the parties and subject matter of this proceeding for the purpose of enforcing its judgments, orders and decrees.

88. That each and every party to this action, his or her agents, successors, grantees and assigns, be and they are hereby perpetually enjoined and restrained from doing anything in violation of the terms or provisions of this decree, or diverting any water from said Middle Fork of Feather River and its tributaries above Beckwith, at any time in violation of the terms hereof, or from doing anything that will obstruct or interfere with any other right in this decree adjudged and decreed.

89. As this decree is made and entered too late in the present year to permit the formation and functioning of a water master district under sections 37 to 37f, inclusive, of the Water Commission Act, to provide supervision of water distribution to enforce the provisions of said decree, it appears necessary and proper to the Court to provide a procedure for such supervision of water distribution for the 1940 irrigation season during the period from April 1st to October 1st, inclusive, of said year. In succeeding years, the procedure provided under said sections of the Water Commission Act will be available and appropriate for adequate water master service to enforce this decree. Accordingly, upon written request therefor, to the Division of Water Resources of the Department of Public Works of the State of California, of the owners or governing bodies of at least fifteen per cent of the conduit ditches, pipe linex and other means of diversion lawfully entitled to directl divert water from the streams or other sources of water supply involved in this cause, the said Division of Water Resources is hereby authorized and directed to supervise the distribution of water under this decree through the

agency of a water master or water masters for the 1940 irrigation season, as necessity therefor may exist, during the period from April 1st to October 1st, inclusive, 1940. The costs and expenses of such water master service for the 1940 season shall be borne by the parties hereto, and said costs and expenses shall be equitably apportioned by said Division of Water Resources among said parties in the manner heretofore approved by the Court in "Order Approving Statement and Apportionment of Expenses", made October 24, 1939, and the following procedure shall be followed:

(a) The Division of Water Resources shall prepare a statement containing a budget showing estimated cost and apportionment thereof of the expenses of said Division for supervision of water distribution to be performed during said season. Said statement and certified copy of the written request or requests hereinabove mentioned shall be filed in this cause with the Clerk of this Court and a true copy of said statement served by mail upon each of the parties to this action on or before February 15th, 1940. Proof of service of said statement as herein provided shall be filed in this cause.

(b) The parties to this cause, and each of them, shall have until and including March 6th, 1940, in which to serve upon said Division of Water Resources and file in this cause written objections, if any, to said statement, setting forth the basis and grounds for such objections. Parties failing to object within the time and manner here provided, shall be conclusively deemed to have waived any and all objections to said statement and will be foreclosed from thereafter urging any objection to the same.

(c) If no objections are made to said statement in the time and manner provided, the Court will thereupon make and enter an order approving said statement and requiring that all apportionments shall be paid after entry of such an order of the Court

and within thirty days after notice of said order mailed by the Division of Water Resources to the parties or their attorneys. Execution shall issue in favor of the Division and against any party delinquent upon application therefor by the Division in like manner and with like effect as in instances of writs of execution upon a final judgment.

(d) If any objections to said statement are made in the time and manner provided, the Court will set such objections for hearing, hear the same, and thereupon enter an order determining and adjudging the amount or apportionment, or both, of said expenses as the Court may deem just and equitable, and requiring payment in the time and manner provided in the preceding sub-paragraph, with like provisions for issuance of writs of execution.

(e) Payments made hereunder by the parties to said Division of Water Resources shall be placed in a separate account by said Division and all expenditures for supervision of water distribution for said season shall be paid from said account upon claims approved by said Division and as otherwise audited and approved under the laws of this State relating to such matters.

(f) The balance, if any, remaining in said separate account after payment of expenditures for supervision of water distribution for the 1940 season, shall remain available for use by the Division of Water Resources for supervision of water distribution under this decree for succeeding years in accordance with provisions of sections 37 to 37f, inclusive, of the Water Commission Act.

90. The said Division of Water Resources, having duly computed and apportioned the excess expense incurred in performing the duties prescribed in sections 26 to 36 of the Water Commission Act and having given notice thereof to the parties to this proceeding as prescribed in said act; said apportionments having become due and payable to said Division of Water Resources by the respective parties; no objections having been made to said expense or the apportionment thereof; said expense and apportionment thereof having been approved by "Order Approving Statement and Apportionment of Expenses", made by the Court on the 24th day of October, 1939; said order having become final thirty days from entry thereof as provided in said act; and all parties having heretofore paid their respective apportionments excepting those parties against whom judgment in favor of said Division is rendered as follows:

IT IS FINALLY ORDERED, ADJUDGED AND DECREED that the parties hereinafter named in this paragraph shall forthwith pay their respective apportionments of the costs of this proceeding to said Division of Water Resources, Sacramento, California, as respectively set forth after their names as follows:

AGREEMENT AND WATER RIGHT ASSIGNMENT

WHEREAS, the Sierra County (Calpine) Water Works District No. 1 has heretofore been organized and incorporated for the purpose of supplying water for domestic and recreational use within said district; and

WHEREAS, it is necessary for said district to acquire rights to water for distribution purposes to serve said district with water;

NOW, THEREFORE, the undersigned agree to, and doe hereby, assign to the Sierra County (Calpine) Water Works District No. 1 the water right consisting of 0.26 cubic foot per second first priority, and 0.26 cubic foot per second second priority through Diversion No. 196 from Fletcher Creek as set forth in Schedule 8 of that certain judgment and decree of the Superior Court of the State of California, in and for the County of Plumas, being action No. 8905 therein, and entitled:

"IN THE MATTER OF THE DETERMINATION OF THE RIGHTS OF THE VARIOUS CLAIMANTS TO THE WATER OF THAT PORTION OF MIDDLE FORK OF THE FEATHER RIVER AND ITS TRIBUTARIES SITUATE ABOVE BECKWITH IN PLUMAS COUNTY AND BEING WITHIN SIERRA AND PLUMAS COUNTIES, CALIFORNIA"

said decree being dated January 19, 1940, and filed January 22, 1940, in Judgment Book No. 5, at Page 245, Plumas County Records and also filed in Sierra County.

IT IS UNDERSTOOD AND AGREED that if at any time the Sierra County (Calpine) Water Works District No. 1 ceases to function and to serve water to the inhabitants of said district, all water rights herein assigned shall at such time revert to the assignee, his legal representatives, heirs and assigns.

This agreement is to be binding upon the heirs, executors, administrators and assigns of all parties hereto.
