Purpose of Public Listening Sessions: The California Department of Water Resources (DWR) and the Agricultural Water Management Council (AWMC) are starting the process to comply with the requirements of the Senate Bill x 7-7, which include among other directives, requirements of developing a methodology for quantifying the efficiency of agricultural water use; and adopting regulations that provide for a range of options for agricultural water measurement. The Listening Sessions are for the public to provide input on possible approaches, effects of the requirements and their implications and share regional variations and considerations. Session participants are encouraged to provide input to DWR staff.

Meeting Materials: All meeting materials will be distributed to the Agricultural Stakeholder Committee (ASC) members and will be posted online for the public by July 20, 2010 at <http://www.dwr.water.ca.gov/wateruseefficiency/sb7/>. The text of SBX7-7 is posted on the above web site.

For availability and details of Webinar, please visit web site above.

(Please note: In an attempt to not waste resources, a limited number of handout copies will be available at the meeting. You are encouraged to bring your own copies)
