

Central Valley Flood Protection Plan
Agenda
Technical Analyses Workshop

June 10, 2011, 9:00 am - 4:00 pm
Robert J. Cabral Agricultural Center
2101 East Earhart Avenue
Stockton, CA

WORKSHOP PURPOSE:

Provide information about the status and initial content of the technical analyses supporting the development of the State Systemwide Investment Approach of the 2012 CVFPP.

WORKSHOP GOALS:

1. Provide an overview of the formulation of the various flood management alternative approaches considered in formulation of the State Systemwide Investment Approach of the 2012 CVFPP.
2. Present the evaluation tools, data, and analyses supporting the development of the State Systemwide Investment Approach, and initial findings of the evaluation and comparison of the alternative approaches.
3. Discuss next steps in the plan development process, towards the completion of the 2012 CVFPP.
