

Governor Brown announces changes to Delta restoration

Governor Edmund G. Brown, Jr. joined top federal officials to unveil plans that accelerate restoration of the Delta's ecosystem and fix the state's aging water infrastructure. The [news release](#) on his Web site says the revised plan substantially improves the health of California's fisheries, increases water reliability, and addresses the uncertainty of climate change. Additional fact sheets are [here](#).

Delta water quality is in CWC water storage program plans

The California Water Commission (CWC) will conduct the Water Storage Investment Program Stakeholder Advisory Committee Meeting, May 4, in Sacramento. Of particular interest is the program's focus on Delta water quality. More information, including time, location, and other meeting materials are [here](#).

Climate change seminar focuses on the SF Bay-Delta

The Delta Stewardship Council's Delta Science Program and the University of California, Davis, Center for Aquatic Biology and Aquaculture will present a day-long seminar, May 6, at UC Davis, titled New Approaches for Responding to Climate Change in the San Francisco Bay-Delta. The seminar will look at the current understanding of climate change impacts and approaches for adaptation and mitigation. The seminar is free and open to the public. More information is [here](#).

Also, an independent scientific review panel will meet May 19-20 in Sacramento to discuss its review of the methodology and scientific basis for development of the Delta Levees Investment Strategy (DLIS) proposed by the consulting firm, ARCADIS. More information, including times, location, and meeting materials, are [here](#).

SWRCB approves efficiency for Delta water transfers

The State Water Resources Control Board (SWRCB) has approved a petition to allow water transfers south of the Delta. More information is in the [news release](#).

Save the date — WEF Bay-Delta Tour June 24-26

The Water Education Foundation (WEF) is offering a Bay-Delta Tour June 24-26. This 3-day, 2-night tour takes participants to the heart of California water policy — the Sacramento-San Joaquin Delta and the San Francisco Bay. Stops include the Delta Cross Channel, the city of Stockton, the Bay-Delta model in Sausalito, Los Vaqueros Reservoir, and Suisun Marsh. Issues being discussed include Delta planning initiatives, water project operations, fish passage, ecosystem restoration, levees and flood management, Delta agriculture, water storage, drinking water quality, and water supply reliability. Ticket and other information are [here](#).
