

## Carl Torgersen chosen to lead the State Water Project

Carl Torgersen has been named acting deputy director for the [State Water Project](#) (SWP). Torgersen began working at DWR in 1981 and most recently was the chief of the SWP's Division of Operations and Maintenance. He replaces Ralph Torres, who led the SWP for the past six years. Torres will take over duties related to renewing long-term contracts with SWP contractors.

## Looking at the Delta from a different perspective

The [Water Education Foundation](#) would like to take the discussion about the Delta in a different direction. To promote new perspectives the foundation is hosting a [forum](#) Tuesday, Oct. 18, in Sacramento. It is a session aimed at exploring new ways of thinking about the Delta. The forum will include a panel discussion with state legislators.

## Three Delta meetings to add to the September calendar

This month's meetings related to the Delta include the Delta Conservancy's [Strategic Plan and Policy Subcommittee](#) on Monday, Sept. 12, in West Sacramento; and the [South Delta Habitat Working Group](#) on Thursday, Sept. 15, in Stockton. The [Central Valley Flood Protection Board](#) will be meeting in Sacramento on Friday, Sept. 23.

## Water commission asking for RSVPs to upcoming workshops

The California Water Commission will hold the first of two water storage [workshops](#) on Wednesday, Sept. 14, in Sacramento. Those planning to attend are asked to [email their RSVP](#) by Friday, Sept. 9. The second workshop will be Tuesday, Oct. 25, in Sacramento. The workshops will examine the needs, options and outlook for water storage in California. Updated [agendas](#) are now available.

## SGC decides to combine two meetings into one

The Strategic Growth Council (SGC) has canceled meetings scheduled to be held on Oct. 5 and Dec. 7. They will be combined into one meeting on Wednesday, Nov. 2, in Sacramento. The agenda and meeting materials will be posted on the [SGC](#) website in late October.

## Water management screening model ready for downloading

DWR and the U.S. Bureau of Reclamation have teamed up to develop a water management screening model for California's State Water Project and Central Valley Project. [Callite 2.00 \(Beta\)](#) is designed to improve the understanding of water system operations and potential management changes. Instructions for [downloading](#) the model are available on the DWR website.
