

DSC meeting features DWR report on drought and the Delta

The Delta Stewardship Council (DSC) will meet on June 27 in Sacramento. The meeting will feature a presentation by Paul Helliker, DWR Deputy Director, entitled Drought and the Delta: A Report by DWR on the Conditions and Their Impacts on the Reliability of California's Water Supplies and the Delta Ecosystem. The agenda is [here](#). Also, the Council is searching for a prominent scientist with expertise in the area of fish ecology to fill a vacancy on the Delta Independent Science Board. Applications are due no later than 5 p.m. (PDT) on August 6. More details and how to apply are [here](#).

DWR to conduct stormwater flood grants meeting

DWR Integrated Regional Water Management (IRWM) has released [Prop. 1E Round 2 Stormwater Flood Management Grants](#) draft funding recommendations. An open house and public comment meeting on the draft funding recommendations will be held on July 11 at the Cal EPA Building, 1001 I St., in Sacramento at 10 a.m. The meeting will be [webcast](#).

DWR releases draft regional flood atlases

DWR has released draft regional flood atlases that show flood risk characteristics and hazards for each region identified in the 2012 Central Valley Flood Protection Plan. Download PDFs of the draft atlases [here](#). These atlases are part of the 2012 Regional Flood Management Planning effort, which is a locally led process that produced regional flood management plans.
