

## Delta Plan resolutions are now posted

The Delta Plan resolutions have been posted, [certifying the PEIR, adopting the Delta Plan, and adopting the Plan's regulations.](#)

## DWR posts grant guidelines for flood response programs

DWR has posted the final guidelines and proposal solicitation package for Flood Emergency Response Projects in the Sacramento-San Joaquin Delta. This grant is designed to provide funding for local flood emergency responders in the legal Delta to improve preparedness and response. The 60-day application period ends on September 23. Details are [here](#).

## Watershed University features flood risk programs

The 2013 Watershed University will be held August 13-14 in West Sacramento. This 2-day program gives participants the opportunity to learn about Federal Emergency Management Agency (FEMA), DWR, and U.S. Army Corps of Engineers (USACE) flood risk programs, hazard mitigation plans and grants, California Office of Emergency Services (OES) programs, and other valuable resources that address floodplain issues. There will be networking, group discussions, and opportunities to hear examples of successful mitigation strategies from across the country. More information is [here](#).

## CVFPB July 26 meeting video is now available

A [video](#) of the July 26, 2013 Central Valley Flood Protection Board (CVFPB) meeting is now available.

## U.S. EPA releases calculator to manage stormwater runoff

The U.S. Environmental Protection Agency has released the National Stormwater Calculator. This new online tool will help property owners, developers, landscapers, and urban planners make informed land use decisions to protect local waterways from pollution caused by stormwater runoff. Pollution from stormwater runoff can affect drinking water resources, ecosystems, and public health. More information on the National Stormwater Calculator and how to install and use it is [here](#).

## New Aquapedia.com is a resource for water information

The latest offering from the [Water Education Foundation](#) is [Aquapedia.com](#), an online resource for water information. It focuses on water issues in California and neighboring states, but also has information on matters with global implications. The site includes research articles, interactive maps, and a directory of government and private water agencies.
