

Recreation Resources/ Socioeconomic Conditions

WOULD THE PROJECT...

- Result in obstructions to boat passage or cause significant boat traffic delays?
- Affect use of or access to recreation facilities/use areas?
- Reduce, enhance, or provide new recreation opportunities or experiences?
- Result in the increased need for recreation facilities that would have an adverse environmental impact?
- Change employment as a result of the project?
- Impact the Delta area economic output?
 - Agriculture
 - Recreation
 - Water-dependent businesses (food processors, ports, etc.)
- Impact the water delivery regions' economic output? Lead to an increase in public service expenditures or a reduction of local revenues?
- Impact Community cohesion and interaction by:
 - Displacing or relocating existing residents and businesses?
 - Generating construction housing demand in excess of available supply?
- Change water delivery amount/reliability that affects economic activity and other associated resources?
