

Visual Resources, Air Quality, Noise & Environmental Justice

WOULD THE PROJECT...

VISUAL RESOURCES

- Have a substantial effect on a scenic vista?
- Substantially damage scenic resources including but not limited to trees, rock outcroppings and historic buildings within a state scenic highway corridor?
- Substantially degrade the visual character of the site and surroundings?
- Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?

AIR QUALITY

- Conflict with ambient air quality standards
- Be consistent with applicable air quality plans and the State Implementation Plan (SIP)
- Comply with applicable legislation and regulations
- Cause human health impacts associated with airborne pollutants, including, but not limited to:
 - Diesel
 - Particulates
 - Ozone
 - Precursors
 - Nitrogen Oxides
 - Volatile Organic Compounds
- Cause odors

NOISE

- Cause exposure of persons to, or generation of, noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?
- Result in substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?
- Result in substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?
- Cause exposure of persons to or generation of excessive ground borne vibration or ground borne noise levels?

ENVIRONMENTAL JUSTICE

- Result in adverse human health or environmental impact disproportionately affecting minority populations, low-income populations or Indian tribes?
