We are local "Pocket" area residents with a home located directly behind the levee in the Pocket/Greenhaven area, i.e. Dutra Bend Drive.

Our understanding of the BDCP is that it includes the building of 4-5 new water intake pumps and water storage facilities to enable more water to be conveyed to the Bay and Southern California areas.

It is also our understanding that the pumps and water storage facilities will require construction of vast numbers of new towers and power lines. We have concerns about the noise pollution, landscape and riverbank degradation, as well as the volume of water drained, especially during drought periods.

We are astonished at the lack of public discussion and short notice regarding this project. Do we need to remind you of the successful lawsuits that occurred after the airport was forced on the Garden Highway neighborhood?

It would be our hope that full disclosure and consideration of the above listed concerns be addressed.

Les and Maureen Johnson
