Subject: Sacramento Central Groundwater Authority GSA Notice of Formation

Dear Mr. Nordberg,

This letter serves as notice that the Sacramento Central Groundwater Authority (SCGA) intends to be a Groundwater Sustainability Agency (GSA) to undertake sustainable groundwater management for three areas of the South American Groundwater Subbasin (No. 5-21.65) as defined by Bulletin 118 (2003) in Sacramento County. This notice is submitted in accordance with Water Code Section 10723.8.

Sacramento Central Groundwater Authority is a joint powers authority created in 2006 to manage groundwater through an agreement among the County of Sacramento and the Cities of Sacramento, Folsom, Elk Grove, and Rancho Cordova (Exhibit A), and is thereby a "local agency" as defined by the Sustainable Groundwater Management Act (SGMA). A map of SCGA's service area and the three areas for which SCGA formed GSAs is enclosed as Exhibit B¹.

Pursuant to Water Code Section 10723(b), SCGA published notice as required by Government Code Section 6066 (Exhibit C), and held a public hearing on July 13, 2016 as a part of its regular board meeting (agenda attached as Exhibit D). Immediately following the public hearing, the Board of Directors of SCGA adopted Resolutions 2016-06, 2016-07, and 2016-08 (attached as Exhibits E, F, & G), establishing SCGA GSA1, SCGA GSA2, and SCGA GSA3.

In compliance with Water Code Section 10723.2, SCGA GSA1, SCGA GSA2 and SCGA GSA3 will consider the interests of all beneficial uses and users of groundwater, as well as those responsible for implementing groundwater sustainability plans. Exhibit H contains a discussion and list of water users and other stakeholders that have been notified and will continue to be informed as SCGA complies with SGMA as GSA1, GSA2,

¹ A shapefile of these areas is also provided electronically.

and GSA3, and undertakes development of an Alternative Plan/Groundwater Sustainability Plan. SCGA has established and will maintain a list of persons interested in receiving notices of its GSA1, GSA2, and GSA3 activities, as required in Water Code Section 10723.4.

SCGA is aware that Omochumne Hartnell Water District (OHWD) and Sloughhouse Resource Conservation District (SRCD) have submitted notices of election to become GSAs over the South American subbasin areas of SCGA GSA2 and SCGA GSA 3, respectively. SCGA staff has conducted outreach to other local agencies and water users in the remaining portion of the South American Subbasin and will continue to coordinate with basin interests and stakeholders for GSA1, GSA2, and GSA3 operations and activities, to develop and implement an Alternative Plan/Groundwater Sustainability Plan, and fulfill SGMA implementation. SCGA did not adopt any new bylaws, ordinances, or authorities during its actions to prepare for its GSA formations.

If you have any questions regarding SCGA's notification to be the GSA for a portion of the South American Subbasin, please contact me at (916) 874-5039.

Sincerely,

Darrell K. Eck
Executive Director

Exhibit H: List of Interested Parties and Discussion Pursuant to Water Code Section 10723.8(a)(4)

The Sacramento Central Groundwater Authority (SCGA) is a joint powers agency formed pursuant to the Joint Exercise of Powers Act (Chapter 5 of Division 7 of Title 1 of the California Government Code). The Joint Powers Agreement (JPA) signatories include the County of Sacramento and the Cities of Sacramento, Elk Grove, Folsom, and Rancho Cordova, which collectively cover all of the land area within the JPA service area. The JPA signatories appoint 16 representatives to serve as the Board of Directors of SCGA, including a representative of each municipal water supplier, a representative of self-supplied agriculture, agricultural-residential, public agency self-supplied, conservation landowners, and a representative of private self-supplied (or commercial) groundwater use.

Pursuant to Water Code Section 10723.2, SCGA has and will continue to consider the interests of all beneficial uses and users of groundwater, including:

- (a) Holders of overlying groundwater rights – The SCGA Board, which includes representatives of self-supplied agricultural, agricultural-residential, public agency self-supplied, conservation landowners, and self-supplied industrial groundwater users, represents a broad range of interests that will ensure overlying groundwater rights are considered. SCGA will also continue to reach out to other parties that may be interested in these endeavors. While domestic well owners are not directly represented, SCGA is a public agency and complies with all requirements for public notice and public input on its activities.
- (b) Municipal well operators – Five municipal water suppliers within the SCGA service area are represented on the Board of Directors. These entities represent about 23% of groundwater extraction within the jurisdictional area of SCGA. Additionally, SCGA maintains a list of municipal well operators who are not represented on the Board of Directors and will notify them as development of the Groundwater Sustainability Plan proceeds.
- (c) Public water systems – SCGA maintains a list of public water systems within its jurisdiction and will notify them as the development of the Groundwater Sustainability Plan Proceeds.
- (d) Local land use planning agencies – The local land use planning agencies are the signatories to the SCGA JPA.
- (e) Environmental users of groundwater – SCGA has the owners/managers of conservation properties that use groundwater as a Board member and will notify them as the development of the Groundwater Sustainability Plan proceeds.
- (f) Surface water users – The primary surface water users within the SCGA area are a subset of the five municipal water suppliers on the SCGA Board of Directors.
- (g) The Federal Government – SCGA is not aware of any federal properties that use groundwater within the jurisdictional area. SCGA maintains a close working relationship with the Bureau of Reclamation, Corps of Engineers, U.S. Geological Survey, Stone Lakes National Wildlife Refuge, and Air Force Real Property Agency on their actions that may impact the groundwater basin.
- (h) California Native America tribes – SCGA has not identified and tribal properties that use surface water or groundwater with the area.

Exhibit H: List of Interested Parties and Discussion Pursuant to Water Code Section 10723.8(a)(4)

- (i) Disadvantaged communities – The vast majority of census tracts meeting the definition of “disadvantaged community” are within the service areas of the five municipal water suppliers or the City and County of Sacramento serving on the SCGA Board of Directors. In addition, SCGA is including small community water systems as identified in (c) above.
- (j) SCGA is the CASGEM reporting agency for the same areas for which it intends to serve as the Groundwater Sustainability Agency.
