

County of Ventura Watershed Protection District Proposition 1E Grant Application South Oxnard Stormwater Flood Management Project Attachment 10: Self Certification

ATTACHMENT 10 – SELF CERTIFICATION

There are no urban water suppliers receiving funding through the South Oxnard Stormwater Flood Management Project (Project), therefore no self-certification documents to verify compliance with AB 1420 and Water Meter Compliance are required.

The Project is neither a groundwater project nor a project that directly affects groundwater levels or quality, therefore no GWMP is required.
