### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The purpose of these actions is to adopt an Integrated Regional Water Management Plan and a Groundwater Management Plan (Plans) for the Antelope Valley.

The Plans were collaboratively prepared by 11 public agencies, including the Los Angeles County Waterworks District No. 40, Antelope Valley (District) in accordance with State guidelines to address regional water supply needs, protect and improve water quality, provide flood management, protect the environment, and establish a data management system to monitor the progress of these objectives. The adoption of the Plans will improve the Antelope Valley's competitiveness for State and Federal grant funds, including those authorized under Propositions 50, 84, and 1E.

### **Implementation of Strategic Plan Goals**

The Countywide Strategic Plan directs that we provide Fiscal Responsibility (Goal 4) and Community Services (Goal 6) by improving the District's competitiveness for State and Federal grant funds and enhancing the reliability of water supply for the District's customers.

### **FISCAL IMPACT/FINANCING**

There will be no impact to the County General Fund.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

The Integrated Regional Water Management Planning Act of 2002, as codified in California Water Code §10530 through §10546, provides the framework for preparation and adoption of Integrated Regional Water Management Plans in the State. California Water Code §10541(c) requires publication of a notice of intention to adopt an Integrated Regional Water Management Plan (IRWMP) in accordance with Government Code §6066 if three or more participants in the group propose to adopt the IRWMP. Additionally, California Water Code §10541(d) requires a determination to adopt the IRWMP after holding a public hearing.

The Groundwater Management Act, as codified in California Water Code §10750 through §10756, provides the framework for preparation and adoption of Groundwater Management Plan in the State. California Water Code §10753.5(a) requires that a local agency hold a public hearing to determine to adopt the Groundwater Management Plan. After the public hearing, the local agency shall consider protests to the adoption of the plan and determine whether a majority protest exists. Pursuant to California Water

Code §10753.6(b), the local agency must compare the names and property descriptions on the protests against the property ownership records of the County Assessors. If your Board finds that the protests filed represent more than 50 percent of the assessed value of land within the District, deny adoption of the Groundwater Management Plan and refer the matter back to Public Works. If there is no majority protest, adopt the resolution for the determination to adopt a Groundwater Management Plan for the Antelope Valley.

### **ENVIRONMENTAL DOCUMENTATION**

The proposed action is to adopt plans collaboratively prepared by 11 public agencies including the District, in accordance with State guidelines to address regional water supply needs, protect and improve water quality, provide flood management, protect the environment, and establish a data management system to monitor the progress of these objectives. It involves only feasibility or planning studies for possible future actions, which your Board has not approved, adopted, or funded. The Plans will not have a legally binding effect on later activities and, therefore, their adoption is exempt from the California Environmental Quality Act pursuant to Section 15262 of the California Environmental Quality Act Guidelines.

### **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

The adoption of the Plans will improve the District's competitiveness for State and Federal grant funds to improve the reliability of water supply for the District's customers.

There will be no impact on current County services or projects as a result of this action.
