

**Attachment 10: GWMP, AB 1420, and Water Meter Compliance Information**

Attachment 10 is mandatory and consists of three self-certification documents, as described below.

**1. GROUNDWATER MANAGEMENT PLAN (CWC SECTION 10753.7)**

The Florin Creek Multi-Use Basin implemented by SAFCA may affect groundwater. California Water Code Section 10753.7 requires agencies seeking state funding for projects that may affect groundwater to participate in Groundwater Management Plans (GWMPs) SAFCA will self-certify that it participates or consents to be subject to a GWMP (the Central Sacramento County Groundwater Management Plan) as soon as is feasible after SAFCA's February 21 Board of Directors meeting.

**2. AB1420**

Assembly Bill (AB) 1420 (Stats. 2007, ch. 628) requires the state to condition water management grants to urban water suppliers (defined as agencies providing water for municipal purposes to more than 3000 customers or supplying a volume of more than 3000 acre-feet of water annually) on the implementation of Demand Management Measures by the suppliers. SAFCA is not an urban water supplier, as is acknowledged in the Water Meter Compliance self certification on the last page of this attachment, and SAFCA is therefore not required to submit self-certification documents on the implementation of Demand Management Measures for AB1420.

**3. WATER METER COMPLIANCE (CWC SECTION 525 ET SEQ.)**

Assembly Bill 2572 requires urban water suppliers to meet certain volumetric pricing and water metering requirements in order to apply for state funds for certain water projects. The self certification document on the last page of this attachment certifies that SAFCA is not an urban water supplier.
