	Zip:	94604	
	First Name:	Jennifer	Last Name: Krebs
	Email:	jkrebs@waterboards.ca.gov	Phone (Direct): 5106222315
Point Of Contact Position Title *	Principal Environmental Planner		
Proposal Name *	Bay Area Drought Relief Program (Bay DRP)		
Proposal Objective*	<p>The Proposal Objective as determined by the Bay Area IRWM Coordinating Committee (CC) is to implement eleven high priority projects selected from the Bay Area IRWM Plan to provide immediate drought relief and meet the San Francisco Regional IRWM Plan Objectives as well as DWR's evaluation criteria for this funding round. The Bay Area Drought Relief Program (Bay DRP) projects comprise a geographically diverse and well-integrated implementation program that will provide major drought relief benefits to the Bay Area's diverse population. These projects include water supply enhancement (emphasizing both large scale benefits and communities most in need) recycling, and effective drought preparedness measures across the region. The projects were unanimously approved as a package for funding by the Bay Area IRWM Coordinating Committee at its May 28, 2014 meeting. The projects will implement multi-objective improvements in all parts of the region. They incorporate a range of water management elements and address drought-related regional and subregional needs. Alameda, Contra Costa, Santa Clara, San Mateo, and San Francisco counties are experiencing "exceptional drought" conditions, while Marin, Sonoma, Napa and Solano counties in the North Bay are under "extreme drought" conditions (National Drought Mitigation Center 2014). Emergency water shortage proclamations have been issued by the cities of St. Helena, Calistoga, and American Canyon in Napa County, the County of Sonoma, the Sonoma County Water Agency, the Alameda County Water District, the Zone 7 Water Agency, and the City of Mountain View. The Bay DRP,</p>		

if funded, will go a long way to meeting the region's current drought related needs and objectives.
