Regional Water Management Group (RWMG)

RESOLUTION NO. 2013-01

A Resolution of the USR RWMG to Adopt the USR Integrated Regional Water Management Plan (IRWMP)

WHEREAS, the USR is an IRWMP region comprised of hydrologic areas that include the Upper Sacramento, McCloud, and Lower Pit River watersheds, terminating at the high water mark of Shasta Lake Reservoir, and which also includes the Medicine Lake Highlands; and

WHEREAS, it is understood that the integrated regional water management plan (IRWMP) program offers opportunities to help communities and organizations in the USR address long-term needs related to water supply, water quality, flood management, ecosystem protection and enhancement, sustainable employment and economy, and recreation, and RWMG members see the adoption of this IRWMP as a vehicle for these opportunities; and

WHEREAS, the River Exchange, on behalf of the USR, received approval from the California Department of Water Resources (DWR) for designation of the IRWMP region and later, with the support of diverse in-region interests, applied for and received a grant funded by the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (Proposition 84) to prepare an IRWMP; and

WHEREAS, various stakeholders in this IRWMP region met multiple times in the period of 2011-2013 to provide input for development of the IRWMP and formation of the RWMG; and

WHEREAS, pursuant to the California Water Code, the USR RWMG was established through a memorandum of understanding to coordinate and complete the IRWMP for the USR planning area; and

WHEREAS, it is understood that adoption of the USR IRWMP in no way commits the RWMG as a whole or individual signatories to supporting or implementing provisions of the California Water Plan or other DWR policies; and

WHEREAS, approval of this IRWMP does not relieve the RWMG or any signatory of responsibilities, and establishes no new authorities, under existing statutes or regulations; and

WHEREAS, the USR IRWM plan is a living document, with defined processes for updating plan components and projects; and

WHEREAS, a public meeting pursuant to the California Water Code was held by the RWMG on November 25, 2013, in Mt. Shasta, California, to consider adoption of the USR IRWMP.

NOW THEREFORE BE IT RESOLVED THAT the RWMG so finds and determines that the facts contained in the recitals above are true and correct.

FURTHER, BE IT RESOLVED THAT the USR RWMG hereby adopts the USR IRWM plan and authorizes it for submittal to the DWR.

PASSED AND ADOPTED THIS 25th DAY OF NOVEMBER, 2013, BY THE MEMBERS OF THE USR RWMG.

resolution #1213

A resolution for Individual Member Adoption of the Upper Sacramento, McCloud, and Lower Pit Region (USR) Integrated Regional Water Management Plan (IRWMP)

WHEREAS, the USR is an IRWMP region comprised of hydrologic areas that include the Upper Sacramento, McCloud, and Lower Pit River watersheds, terminating at the high water mark of Shasta Lake Reservoir, and which also includes the Medicine Lake Highlands; and

WHEREAS, it is understood that the integrated regional water management plan (IRWMP) program offers opportunities to help communities and organizations in the USR address long-term needs related to water supply, water quality, flood management, ecosystem protection and enhancement, sustainable employment and economy, and recreation, and RWMG members see the adoption of this IRWMP as a vehicle for these opportunities; and

WHEREAS, the River Exchange, on behalf of the USR, received approval from the California Department of Water Resources (DWR) for designation of the IRWMP region and later, with the support of diverse in-region interests, applied for and received a grant funded by the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (Proposition 84) to prepare an IRWMP; and

WHEREAS, pursuant to the California Water Code, the USR Regional Water Management Group (RWMG) was established through a memorandum of understanding to coordinate and complete the IRWMP for the USR planning area; and

WHEREAS, the USR RWMG's diverse membership, including public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this IRWMP and met multiple times in the period of 2011-2013 to provide input for development of the IRWMP and formation of the RWMG; and

WHEREAS, it is understood that adoption of the USR IRWMP in no way commits the RWMG as a whole or individual signatories to supporting or implementing provisions of the California Water Plan or other DWR policies; and

WHEREAS, approval of this IRWMP does not relieve the RWMG or any signatory of responsibilities, and establishes no new authorities, under existing statutes or regulations; and

WHEREAS, the USR IRWM plan is a living document, with defined processes for updating plan components and projects, and serves as a voluntary planning document that identifies broadly supported objectives for enhancing beneficial uses of water in the USR; and

WHEREAS, an integrated regional approach to water management will streamline individual efforts and increase efficiencies: the USR IRWMP will also increase partnership, collaboration and organizational capacity, and collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the USR; and

USR Resolution for Individual Entity Adoption

WHEREAS, a public meeting pursuant to the California Water Code was held by the RWMG on November 25, 2013, in Mt. Shasta, California, to consider adoption of the USR IRWMP by the RWMG as a whole, and the document was adopted by a unanimous vote; and

WHEREAS, Medicine Lake Citizens for Quality Environment representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board and/or leaders, and realize that the IRWMP will not be a legally binding document, but rather a regional compact with commitments to work together as a region to implement the plan; and

Whereas, the IRWMP will be a living document, reviewed and updated over time, and individual entities/signatories can remain involved or terminate their involvement at any time.

THEREFORE BE IT RESOLVED, that Medicine Lake Citizens for Quality Environment hereby adopts the USR IRWMP as a voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Upper Sacramento, McCloud, and Lower Pit region now and into the future.

MEMORANDUM OF UNDERSTANDING

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is entered into with an assigned effective date of September 1, 2013. Parties to this MOU shall be recognized when a "Confirmation and Signature for Approval" form, attached to this MOU as Exhibit B, has been completed and, when applicable, new members have been approved pursuant to Section 2.10 herein.

The following list indentifies (in alphabetical order) agencies and entities which, due to their standing and interests in the region and participation in the IRWM process, are initially considered as appropriate potential parties for this MOU. This list does not intend to presume whether each entity will choose to adopt this MOU, nor is this list exclusive. Entities not included in this list may also be considered as appropriate parties for this MOU. When determined to be applicable by the RWMG, potential new members to this MOU may be considered pursuant to Section 2.10 herein.

RECITALS

WHEREAS, the Integrated Regional Water Management Planning Act (Water Code Sections 10530 to 10547) authorizes three or more local agencies, at least two of which have statutory authority over water supply or water management, to enter into a memorandum of understanding ("MOU") or other legal agreement to establish a Regional Water Management Group ("RWMG"); and

WHEREAS, the parties to this MOU desire to develop and adopt an Integrated Regional Water Management ("IRWM") Plan and to increase coordination and collaboration among stakeholders in the Upper Sacramento-McCloud-Lower Pit Region ("Region"); and

WHEREAS, the River Exchange ("REX") entered into a Grant Agreement on October 7, 2011 with the California Department of Water Resources ("DWR") to develop a new IRWM Plan for the Region.

WHEREAS, the parties to this MOU seek to ensure that an appropriate share of the $73 million in IRWM funding available in the Sacramento River funding area is allocated to the Region; and

WHEREAS, the parties to this MOU seek to implement a long-term IRWM Program within the Region which will be closely coordinated with other planning and land and water resource management interests and agencies; and

WHEREAS, the parties to this MOU seek to provide stability and consistency in the planning, management, and coordination of resources within the Region and to implement projects to benefit the Region; and

WHEREAS, the parties to this MOU seek to ensure that IRWM funding and any other future funding is expended in the best way possible to enhance the many beneficial uses of water and other resources in the Region for the benefit of the Region itself and for downstream water users.

NOW, THEREFORE, in consideration of the above premises and of the mutual promises and agreements herein contained, the parties to this MOU agree as set forth below to work together in the RWMG for the Upper Sacramento-McCloud-Lower Pit Region to carry out the purposes of this MOU.

ARTICLE I
DEFINITIONS

Section 1.01. Definitions. Unless the context otherwise requires, the words and terms defined in this Article I shall, for the purpose hereof, have the meanings herein specified.

"Consensus" means approval of the Members to move forward with a particular action. "Consensus" does not necessarily mean that all Members affirmatively support an action but rather that no Member has opposed the action. A Member may verbally note disagreement with an action but still allow consensus on an action without the Member's support if the action does not affect the Member or compromise the Member's interests.

"Coordinating Council" means the Coordinating Council of the Upper Sacramento-McCloud-Lower Pit Regional Water Management Group having the responsibilities and composition described herein.

"Fiscal Year" means the period from July 1st to and including the following June 30th.

"Integrated Regional Water Management Plan" or "IRWM Plan" or "IRWMP" has the meaning set forth in Water Code Section 10534, which is a comprehensive plan for a defined geographic area, the specific development, content, and adoption of which shall satisfy requirements developed pursuant to Part 2.2 of Division 6 of the Water Code. At a minimum, an Integrated Regional Water Management Plan describes the major water-related objectives and conflicts within a region, considers a broad variety of water management strategies, identifies the appropriate mix of water demand and supply management alternatives, water quality protections, and environmental stewardship actions to provide long-term, reliable, and high-quality water supply and protect the environment, and identifies disadvantaged communities in the region and takes the water-related needs of those communities into consideration.

"IRWM Planning Act" means the Integrated Regional Water Management Planning Act, Part 2.2 of Division 6 of the California Water Code (commencing with section 10530).

"Member of the Regional Water Management Group" or "Member" means a local agency, tribe, or non-governmental organization that has become a party to this MOU. Federal and State agencies are not Members of the Regional Water Management Group, but such agencies may be parties to this MOU and may designate liaisons to the RWMG as provided herein.

"MOU" means this Memorandum of Understanding.

"Regional Water Management Group" or "RWMG" means the Regional Water Management Group for the Upper Sacramento-McCloud-Lower Pit Region. Regional Water Management Group has the meaning set forth in Water Code Section 10539, which is a group in which three or more local agencies, at least two of which have statutory authority over water supply or water management, as well as those other persons who may be necessary for the development and implementation of a plan that meets the requirements in Water Code Sections 10540 and 10541, participate by means of a joint powers agreement, memorandum of understanding, or other written agreement, as appropriate, that is approved by the governing bodies of those local agencies.

"Secretary" means the secretary appointed by the Regional Water Management Group.

"Upper Sacramento-McCloud-Lower Pit Region" and "Region" mean those portions of the Sacramento, McCloud, and Pit River watersheds depicted in the map attached hereto as Exhibit A.

ARTICLE II
PURPOSE, ORGANIZATION, OPERATION, AND MEMBERSHIP

Section 2.01. Purpose. This MOU is entered into in accordance with the provisions of the IRWM Planning Act for the purposes of permitting a Regional Water Management Group to carry out the Region's IRWM Program and further develop, implement, and periodically update the Region's IRWM Plan. In carrying out the IRWM Program, the RWMG shall work to:

- Support the objectives of the California Department of Water Resources' IRWM Program, which seeks to ensure sustainable water uses, reliable water supplies, better water quality, environmental stewardship, efficient development, protection of agriculture, and a strong economy.
- Promote communication and collaboration in the Region to identify and implement resource management strategies and projects with broad-based stakeholder support.
- Facilitate local investment in projects that can minimize costs and maximize regional benefits through economies of scale or through projects with compound resource benefits.

Section 2.02. Term. This MOU shall become effective on the assigned date of September 1, 2013. This MOU shall continue in effect until terminated by mutual consent of all current Members. The inclusion of additional Members pursuant to Section 2.15 or withdrawal of some, but not all, of the Members pursuant to Section 2.16 shall not be deemed a termination of this MOU, so long as at least three local agencies, two of which have statutory authority over water supply or management remain signatories.

Section 2.03. Regional Water Management Group. Pursuant to the IRWM Planning Act, the signatories to this MOU have agreed to work together to serve as the Regional Water Management Group for the Upper Sacramento-McCloud-Lower Pit Region and to carry out the IRWM Program in the Region.

Section 2.04. Member Representatives; RWMG Decision-Making; Coordinating Council; Technical Committees.

(a) Member Representatives: Each Member shall be represented by an individual designated from time to time by the Member's governing body or executive officer. Member Representatives will attend meetings consistently and will regularly communicate information about the process to the entity they represent. Each Member's governing body or executive officer may designate one alternate representative to represent the Member in the absence of the primary representative. It is expected that alternate representatives have been briefed on all pending decisions and are vested with the same authority as the primary representative.

- Active Member: In order to be considered an Active Member of the RWMG, a Member Representative or designated alternate of the Member shall have attended at least 2/3 of the RWMG or Coordinating Council meetings in the previous 12 months.

8. RWMG Decision-Making: Every Member of the RWMG will have one vote and the RWMG shall make decisions by Consensus or, when necessary, through the resolution process described in this section. The RWMG may approve elements of the IRWM Plan, project proposals, grant applications, and any other decisions that may or must be made regarding approval or implementation of the IRWM Plan. The RWMG may delegate authority to make certain types of decisions to the Coordinating Council or Secretary in addition to the authorities provided herein. If the RWMG is unable to reach Consensus by a second meeting at which a matter is considered, any Member may make a motion to initiate the Formal Issue Resolution ("FIR") Process and, upon an affirmative vote of at least 75% of the Members in attendance, the matter shall be referred to the FIR Process.

   The FIR Process consists of a voting mechanism where the Members are classified into three subgroups with representation as described below:

   - Statutory Authorities: participating statutory authorities have one seat each. Potential Members in this category, if party to the MOU, include: Siskiyou County (including the Siskiyou Power Authority and the Siskiyou County Flood Control and Water Conservation District), Shasta County, the Cities of Dunsmuir and Mt. Shasta, and McCloud Community Services District.

- Tribal Authorities: participating Tribal Authorities have one seat each. Potential Members in this category, if party to the MOU, include: the Modoc Nation, Pit River Tribe, Shasta Indian Nation, Shasta Nation, and Winnemem Wintu Tribe.
- Resource Management Interests: participating Resource Management Interests, including non-governmental organizations, resource conservation districts, and industrial timberland owners, shall appoint or elect one voting representative from each of the following broad areas of interest: fisheries management, timber/ag. management, resource/land management, and environmental advocacy.

A motion may only be adopted with the approval of at least two-thirds of the Active Members of each of the three subgroups (3 members requires 2 votes; 4 members requires 3 votes; 5 members requires 4 votes).

The RWMG shall not approve a grant application for any project located within the jurisdiction of any one of the statutory authorities described in Section 2.04(b)(i) that contravenes any authority of the affected statutory authority, and any element or policy of the IRWM Plan shall only be effective within the jurisdiction of a statutory authority described in Section 2.04(b)(i) if it does not contravene any authority of the affected statutory authority.

9. Coordinating Council: The Coordinating Council shall consist of one representative from each of the three subgroups identified in Section 2.04(b), the Fiscal Agent, any Member who is a party to an IRWM grant agreement with the Department of Water Resources, and the Secretary. The Coordinating Council shall be responsible for overseeing routine administrative matters, developing agendas for meetings of the RWMG, and performing any other responsibilities delegated by the RWMG.

10. Technical Committees: Technical committees may be established as standing committees or ad hoc committees by the RWMG to consider issues of importance upon referral from the RWMG. Technical committees shall report all findings or recommendations to the RWMG.

Section 2.05. Meetings.

- Meetings:
  - **Regional Water Management Group.** The RWMG shall meet from time to time as necessary to conduct business and no less frequently than every six months.

13. **Coordinating Council.** The Coordinating Council shall meet from time to time as necessary to conduct business or at any such other regular frequency as the Bylaws may provide.

(b) Notice and Conduct of Meetings: All meetings of the RWMG shall be open to the public. An agenda for each meeting shall be prepared with a brief description of each item on which action may be taken by the RWMG. No later than 72 hours before a meeting, the agenda for the meeting shall be posted on the Region's website and distributed by email to all persons who have requested notice of the meetings of the RWMG .

Section 2.06. Meeting notes. The Secretary shall cause to be kept a record of the meetings of the RWMG and shall, as soon as possible after each meeting, cause a draft copy to be forwarded to each Member Representative and any other interested parties who have requested to be included on the distribution list.

Section 2.07. Bylaws and Policies. The RWMG may, from time to time, adopt Bylaws or policies and procedures for the conduct of business

Section 2.08. Annual Budget. If any funds are in the custody and control of the RWMG, the RWMG shall approve an annual budget for each Fiscal Year in consultation with the Fiscal Agent.

Section 2.09. Annual Operational and Fiscal Report. The Secretary shall cause an annual operational report and annual fiscal report to be prepared and provided to each Member.

Section 2.10. Addition of New Members. After establishment of the RWMG, any local agency, non-governmental organization, or other entity that is not a Member and desires to become a Member shall have attended at least two meetings of the RWMG and shall submit a written request to the Secretary. Upon approval by the RWMG at a duly convened meeting, a new Member shall be allowed to execute an amendment to this MOU adding the new Member as a party. This MOU shall be deemed amended to reflect the addition of a new Member upon execution of the amendment by the new Member and by the Secretary.

Section 2.11. Withdrawal of Member. Any Member may withdraw from this MOU at any time by providing written notice of such withdrawal to the Secretary. Upon the effective date of withdrawal, this MOU shall be deemed automatically amended to reflect the deletion of the withdrawing Member.

ARTICLE III
OFFICERS AND ADMINISTRATION

Section 3.01. Secretary. The River Exchange, or such other Member as the RWMG may designate from time to time, shall serve as the Secretary to perform such duties as may be necessary to operate and administer the RWMG and to maintain a record of its activities. The Secretary shall be responsible for the call and noticing of all meetings of the RWMG and Coordinating Council. The RWMG may further provide for the duties and responsibilities of the Secretary through administrative and fiscal policies.

Section 3.02. Fiscal Agent. The River Exchange, or such other Member as the RWMG may designate from time to time, shall serve as the Fiscal Agent to receive, disburse, and account for funds related to this MOU. Members may make contributions to the Fiscal Agent to support the IRWM Program in such amounts as the Members may agree, in their individual discretion, to contribute from time to time. Funding received by the Fiscal Agent to carry out projects shall be disbursed to other Members or to cooperating entities only after the Fiscal Agent enters a funding agreement or collection agreement ("Project Contracts") with the other Member or entity, as may be appropriate or required depending on the source of the funding and any requirements of the recipient party or entity. The Fiscal Agent shall be responsible for any necessary financial reporting under this MOU, including reports needed to comply with the terms of any grant agreement.

Section 3.03. Relationship of the Parties. In entering into this MOU, it is the intention of the Parties that this MOU shall not be construed to be an enforceable contract or agreement, but rather a statement of principles, and shall not be the basis for litigation between the parties or by any third party. This MOU is not intended to, and does not create, any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity, against any of the Parties or their agencies or officers or against any person.

Section 3.04 Relationship to Existing Plans, Ordinances, and Regulations. Although the IRWMP refers to many legally binding statutory and regulatory provisions—such as general plans, zoning ordinances, water quality plans, and various permits, licenses, and approvals— its purpose in doing so is to ensure that the IRWMP is consistent and compatible with those existing legal obligations. Rather than adding to or modifying the present legal and regulatory environment, the IRWMP is intended to streamline and improve the stakeholders' ability to operate and succeed within that environment.

No. 40 - Upper Sacramento River-McCloud Integrated Regional Water Management Region

Region Acceptance Process Summary

General Description of Region

The Upper Sacramento River-McCloud Integrated Regional Water Management (IRWM) Region encompasses portions of Shasta and Siskiyou Counties in the Sacramento River Hydrologic Region. Aging infrastructure is the number one water-related issue of the Upper Sacramento River-McCloud IRWM Region, followed by water supply and water quality. The effects of climate change are also noted as potentially having a large impact on this Region's water supply. The lack of water supply capacity has led to a building moratorium in some communities within this Region.

Interview Conclusions- Approved

The minor boundary overlaps and gaps between the western boundary of the Upper Pit River Watershed IRWM Region and the eastern boundary of the Upper Sacramento-McCloud IRWM Region will need to be resolved between these two IRWM Regions.

Upper Sacramento, McCloud and Lower Pit River Region Plan Final Review

Dear Ms. Singler:

This letter transmits the Department of Water Resources (DWR) final review of the Upper Sacramento, McCloud and Lower Pit River Region Integrated Regional Water Management Plan (IRWM) Plan. The public comment period on DWR's review of the Upper Sacramento, McCloud and Lower Pit River Region IRWM Plan has closed and no public comments were received. DWR has determined that the Upper Sacramento, McCloud and Lower Pit River IRWM Plan is consistent with the IRWM Planning Act and the related IRWM Plan Standards contained in the 2012 IRWM Program Guidelines. The final review is posted on the following link: http://www.water.ca.gov/irwm/grants/prp.cfm.

If adopted by the Regional Water Management Group and project proponents, by the appropriate dates, the Upper Sacramento, McCloud and Lower Pit River Region IRWM Plan will satisfy the terms of the adopted plan eligibility criteria for the 2014 Drought Solicitation.

To simplify submitting proof of adoption, DWR will compile and track this information and inform DWR grant managers and grant application review teams appropriately. You may submit proof of adoption material as often as necessary. When submitting information, please fill out and the IRWM Plan Adoption Form, found at: http://www.water.ca.gov/irwm/grants/resourceslinks.cfm, along with scanned proof of adoption, and then submit the material directly to Craig Cross at the email address listed below.

If you have any questions, please contact Craig Cross at (916) 651-9204 or Craig.Cross@water.ca.gov

Sincerely,

Tracie L. Billington, P.E. Chief
Financial Assistance Branch
Division of Integrated Regional Water Management

INTRODUCTION

IRWM planning regions must have an IRWM Plan that has been reviewed and deemed consistent with the 2012 IRWM Plan Standards by DWR for eligibilty to receiving Round 3 Proposition 84 funding. This 2012 IRWM Plan Standards Review Form for DWR staff use provides a consistent means in determining whether the 2012 IRWM Guidelines are being addressed in the IRWM Plan. It is part of the Plan Review Process that will begin prior to Round 3 solicitation. The form is similar to a grant application review form in that there is a checklist for each of the 16 Plan Standards and narrative evaluations where required. However, the evaluation is pass/fail; there is no numeric scoring. Each Plan Standard is either sufficient or not based on its associated requirements. Each Standard consists of between one and fourteen requirements. A Yes or No is automatically calculated in each Plan Standard header based on the individual requirement evaluations. In general, a passing score of "C" (i.e. 70% of the requirements for a given Plan Standard) is required for a Standard to pass. Standards with only one or 2 requirements will need one or both of those requirements to pass. Standards with 3 requirements will need at least 2 of the requirements to pass. Standards with 4 or 5 requirements will need at least 3 to pass. Some plan elements are legislated requirements. Such plan elements must be met in order to be considered consistent with plan standards. A summary of the sufficiency of each Standard is automatically calculated on the Standards Summary worksheet. A "No" evaluation indicates that a Standard was not met due to insufficient requirements comprising the Standard. The evaluation for each Plan Standard and any associated insufficiencies is automatically compiled on the Standards Summary page. Additional reviewer comments may be added at the bottom of each standards work sheet.

Note: This review form is meant to be a tool used in conjunction with the 2012 IRWM Guidelines document to assist in the evaluation of IRWM plans. It is not designed to be a substitute for the Guidelines document itself. Reviewers must use the Guidelines in determining plan consistency.

DEFINITION OF TABLE HEADINGS

IRWM Plan Standard: As named in the November 2012 IRWM Prop 84 and 1E Guidlelines.

Overall Standard Sufficient: This field is either "YES" or "NO" and is automatically calculated based on the "Sufficient" column described below. If all fields are "y", the the overall standard is deemed sufficient. Any entry other than a "y" in the Sufficient column (i.e. "n", ?, not sure, more detail needed, etc.) results in a NO.

Plan Standard Requirements Which Must Be Addressed **Fields with an asterisk * are required by legislation to be included in an IRWM Plan.**

Requirement	Requirements are taken directly from the November 2012 Guidelines.
Included	Is the Guideline Requirement included in the IRWM Plan? The options are: y = yes, requirement is included in the IRWMP; or n = no, requirement is not included in the IRWMP. If only y or n then presence/absence of the requirement is sufficient for evaluation. If there is a "q" (qualitative) then add a brief narrative, similar to a Grant Application Review public evaluation or supporting information.
Plan Standard Source	
2012 IRWM Grant Program Guidelines Source Page(s)	Page(s) in the Guidelines (November 2012) which pertain to the Requirement.
Legislative Support and/or Other Citations	The CWC or other regulations that pertain to the Requirement, **if applicable**. This is for reference purposes. The cell links to a weblink of the regulatory code.
Evidence of Sufficiency	
Location of Standard in Grantee IRWM Plan	The page(s) or sections in the IRWM Plan where information on the Requirement can be found. This can be specific paragraphs or entire chapters for more general requirements.
Brief Qualitative Evaluation Narrative	Supporting information for the Requirement if a "q" is in the Included column. This can be just a few sentences or a paragraph and can be taken directly from the IRWM Plan. Comments or supporting information may be entered regardless of whether required.
Sufficient	Is the Guidelines requirement sufficiently represented in the IRWM Plan (y/n).

Additional Comments:

Two standard elements within the Governance Standard were not met. In both instances, the plan seems to document past outreach and participation efforts. It is not clear that the processes used in past efforts are the processes the Plan is carrying forward as established methodology for the IRWM region. DWR recommends that clarifications be made in future versions of the IRWM Plan.

IRWM Plan Standard: Governance					Overall Standard Sufficient	Yes

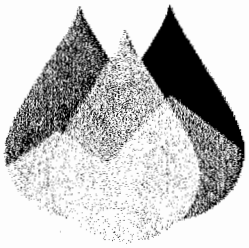
Upper Sac RWMG - Results of Motion to Approve Drought Funding Proposal

View this email in your browser

Upper Sacramento, McCloud and Lower Pit River IRWM Region (USR)



Hello USR Regional Water Management Group Members and Related Staff:

On June 18th, the motion below was raised by City of Mt. Shasta, and was seconded by Jeffery Kelley of Modoc Nation. Voting on this motion ended at 5pm June 21st. Out of the 16 RWMG member groups, votes have been received from 13 groups, which constitutes a quorum for voting purposes. It was mentioned in previous emails that the motion will pass only by consensus, meaning that no dissenting votes are returned.

Motion for consideration: **The RWMG authorizes the City of Mt. Shasta to submit a proposal for funding to the California Department of Water Resources 2014 IRWM Drought Solicitation Integrated Regional Water Management Implementation Grant Program Funded by Proposition 84 for two projects (Supply Line Replacement Project and the Water Meter Installation Project), both sponsored by the City of Mt. Shasta, as included in the IRWM Plan as Priority 1 projects, and authorize the chair of the RWMG to sign the *2014 IRWM Drought Grant Acknowledgement Form* (as attached) with the 'Applicant Name' identified as The City of Mt. Shasta.**

Further, Mt. Shasta City wishes to acknowledge that although both projects being proposed for funding are sponsored by the City of Mt. Shasta, the RWMG supports these projects and their integration with water monitoring and education efforts in partnership with RWMG members, including CalTrout. Be it also acknowledged that there are no other IRWM plan projects of the USR RWMG that have been identified as feasible for DWR's Drought Funding Round at this time.

Results: 13 yes votes, 0 abstain, 0 noes

Based on these results, the motion raised on June 18th, 2014 has passed.

This email constitutes the closing of the special electronic meeting to call for a vote to authorize the City of Mt. Shasta to submit a proposal for funding to the California Department of Water Resources 2014 IRWM Drought Solicitation Integrated Regional Water Management Implementation Grant Program.

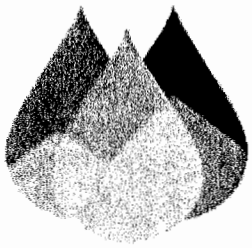
Upper Sac RWMG - Results of Motion to Adopt 2 New Projects



Hello Upper Sac RWMG Members, Potential Members and Staff:

On June 3rd, the motions below were raised by City of Mt. Shasta, and were seconded by California Trout's representative, Meadow Fitton. Voting on these motions ended at 5pm June 6th (today). Out of the 16 RWMG member groups, votes have been received from 12 groups, which constitutes a quorum for voting purposes. The results for each motion are below. It was mentioned in previous emails that the projects will only be adopted with consensus, meaning that no dissenting votes are returned.

RWMG Vote to Adopt Supply Line Project:
Motion for consideration: **The RWMG hereby approves the Supply Line Replacement Project sponsored by the City of Mt. Shasta for inclusion in the Upper Sacramento, McCloud, and Lower Pit Integrated Regional Water Management Plan as a Priority 1 Project.**
Results: 12 yes votes, 0 abstain, 0 noes

RWMG Vote to Adopt Water Meter Installation Project:
Motion for consideration: **The RWMG hereby approves the Water Meter Installation Project sponsored by the City of Mt. Shasta for inclusion in the Upper Sacramento, McCloud, and Lower Pit Integrated Regional Water Management Plan as a Priority 1 Project.**
Results: 12 yes votes, 0 abstain, 0 noes

Based on these results, it appears that both projects have been adopted by the RWMG members.

This email constitutes the closing of the special electronic meeting to call for a vote to adopt 2 new projects in to the USR's IRWM plan as Priority One projects.

Thank you and enjoy your weekend,
Robin
