

ATTACHMENT 1: AUTHORIZATION AND ELIGIBILITY REQUIREMENTS

☒ **Project Consistency with an Adopted IRWM Plan**

The Westside-San Joaquin Integrated Water Resources Plan (WIWRP), the Region's IRWM plan, was recently updated and submitted to DWR for review on July 17, 2014. As part of that plan update, calls for projects for inclusion in the updated WIWRP were issued on June 17, 2014 and June 20, 2014.

Projects were formally submitted for inclusion in the Westside-San Joaquin IWRP to the RWMG via either email or U.S. Mail in response to the calls for projects. These projects were subsequently screened for consistency with the WIWRP, and were prioritized and vetted along with existing WIWRP projects by stakeholders in a project review and vetting process conducted via webinar, conference call and email during the period from July 9, 2014 (webinar project review and prioritization virtual meeting) through July 14, 2014. The updated list of projects included in the WIWRP was accepted by the RWMG and stakeholders on July 15, 2014. All projects included in this proposal, including the **North Valley Regional Recycled Water Program** (the inter-regional project), are included on that screened, vetted and updated project list included in the updated WIWRP.

Similarly, the **North Valley Regional Recycled Water Program** has been included on the project list recently developed, reviewed and vetted for inclusion in the ESIRWMP. This project has been judged to be consistent with the East Stanislaus IRWM Plan by fulfilling minimum project requirements as set forth in Section 6.2 – Project Review and Integration of that plan. The East Stanislaus IRWM plan project list was approved for inclusion in the ESIRWMP on July 14, 2014.

Documentation demonstrating project consistency with the IRWM plans is included in Appendix 1.5.

Appendix 1.5 – Proof of Project Consistency with IRWMPs

June 10, 2014

RE: Notice of Intent to Update the Westside-San Joaquin IWRP and a Call for Project to be included in the IWRP Update

Dear Stakeholders,

The San Luis & Delta-Mendota Water Authority (SLDMWA) is planning to update the 2010 Westside-San Joaquin Integrated Water Resources Plan (IWRP) to meet new state guidelines for integrated regional water management plans (IRWMPs). IRWMPs are, and have been, generated throughout the state to promote collaborative water resources management within a specified IRWM region by identifying regional water resource needs and solutions, generating regional partnerships, and providing funding support. Projects identified in the IRWMPs involve drainage, flood control, groundwater management, land use, water conservation, water quality, water supply, and water use efficiency, and are intended to resolve regional water conflicts and meet IRWM planning goals and objectives. Our intent is to complete a plan consistent with the California Department of Water Resources IRWM Guidelines, providing guidance and direction to the Westside-San Joaquin IRWM region as we proactively manage our water resources to meet all our needs.

As previously noted, part of the IRWMP is a listing/summary of projects identified to help resolve regional water conflicts and to provide progress towards regional water management goals. This letter also serves as a 'Call for Projects', to be submitted for inclusion in the 2014 Westside-San Joaquin IWRP (IWRP). To have your project included in the plan, basic project information is required by <date>, and will be evaluated for consistency with the IRWMP goals and objectives. Project must be included in the IRWMP in order to be eligible for State grant funding that is periodically available through the State's IRWM grant program.

Stakeholders are invited to submit projects to be included in the updated Westside-San Joaquin IWRP Update by <date>. Submittal guidelines including project submittal templates can be found on the SLDMWA website beginning <date> at www.sldmwa.org/irwmp. All required project information should be submitted to the SLDMWA <insert preferred methods for project information submittal>

For questions or comments, please contact Ara Azhderian at 209-826-9696 or ara.azhderian@sldmwa.org.

Sincerely,

Ara Azhderian
Water Policy Administrator

Leslie Dumas

Subject: FW: WIWRP Stakeholder Meeting
Location: GoToMeeting

Start: Wed 7/9/2014 2:00 PM
End: Wed 7/9/2014 3:30 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Ara Azhderian

When: Wednesday, July 09, 2014 2:00 PM-3:30 PM (UTC-08:00) Pacific Time (US & Canada).

Where: GoToMeeting

Note: The GMT offset above does not reflect daylight saving time adjustments.

Subject: WIWRP Stakeholder Meeting

When: Wednesday, July 09, 2014 2:00 PM-3:30 PM (UTC-08:00) Pacific Time (US & Canada).

Where: GoToMeeting

Greetings,

We will be holding a Westside Integrated Water Resources Plan Stakeholder meeting this coming Wednesday, July 9th, at 2pm to review responses to solicitation for additional projects and an update on grant preparation and plan update efforts. Web access and dial in information are provided below. We look forward to your participation.

Thank you,
Ara Azhderian
Water Policy Administrator
