

Interregional Landscape Water Demand Reduction Program

Agricultural Water Management Plan Compliance

In the Santa Ana River Watershed IRWM Region, the agencies that will receive funding from the proposed grant are not agricultural water suppliers.

In the USMW IRWM Region, RCWD is an agricultural water supplier and has prepared and submitted an Agricultural Water Management Plan (AWMP) to DWR in December 2012. DWR has verified that RCWD's 2012 AWMP addresses the requirements of the CWC. Attached is a copy of DWR's verification letter.

Contact for the USMW IRWM Region water supplier with an AWMP:

- Rancho California Water District, Denise Landstedt
(951) 296-6916, landstedtd@ranchowater.com.

Dear Mr. Stone:

The Department of Water Resources (DWR) has completed its review of your Agricultural Water Management Plan for the purpose of meeting the requirements of Water Code Sections 10608.48 (a)-(d), and 10800 *et seq.*, Part 2.8. We find that your plan generally meets the requirements of the code sections.

DWR's review of plans is limited to assessing whether suppliers have addressed the required legislative elements. In its review, DWR does not evaluate or analyze the supplier's plan data, projections, or water management strategies. This letter is to acknowledge that the supplier has addressed these requirements. The results of the review will also be provided to the DWR's Water Use and Efficiency grants program and the Financial Assistance Branch, and to any other state agency that offers grants and loans.

Finally, we wanted to let you know that DWR intends to update its AWMP Guidebook by the end of 2014 in order to further assist water suppliers in preparing their plans.

If you have any questions regarding the review of the plan, please feel free to contact Marty Berbach at (916) 651-9216 or martin.berbach@water.ca.gov.

Sincerely,

Kent Frame
Program Manager II
Water Use and Efficiency Branch
Division of Statewide Integrated Water Management
