### STATEMENT OF WATER DIVERSION AND USE (**S023710**) FOR DIVERSION FROM SACRAMENTO RIVER, IN SHASTA COUNTY

The State Water Resources Control Board, Division of Water Rights (Division), received your Initial Statement of Water Diversion and Use (Statement) filed on **February 11, 2013** for the diversion site named **Pump House 1 (246.7R)**. This letter is confirmation that the Division has reviewed and processed the Statement related to your claim. Your Statement has been assigned identification number **S023710**. This number should be referenced in all correspondence with the Division regarding the Statement.

You will now be required to file an on-line Supplemental Statement of Water Diversion and Use Report (Supplemental Statement) for **S023710** every three years. The Division will notify you when you are due to file. Additionally, you are also required to file a Supplemental Statement if there is a change in the name or address of the person diverting water. (Water Code, § 5104, subd. (b).) You may also notify the Division of any change in diverter, responsible party or mailing address by visiting our website at:

[http://www.waterboards.ca.gov/waterrights/publications\\_forms/forms/](http://www.waterboards.ca.gov/waterrights/publications_forms/forms/). Due to recent changes in reporting requirements paper filing of Supplemental Statements will no longer be accepted.

Your water diversion might be subject to the notification requirements in Fish and Game Code §1602. Information regarding the Department of Fish and Wildlife's (DFW) Lake and Streambed Alteration program and DFW's Regional Office directory can be found on DFW's website at: <http://www.dfg.ca.gov/habcon/1600/>.

The submittal of a Supplemental Statement is a record of your water use. It is used by the Division to verify existing data and to notify you of water right matters related to your claim.

Please be advised that if you have a riparian right, your right does not generally permit you to store water. Stock ponds or reservoirs filled with water diverted pursuant to a riparian right may be subject to enforcement action.
