
AUTHORIZING AND ELIGIBILITY REQUIREMENTS**Surface Water Diverter Compliance**

Within this application, two project proponents have surface water entitlements, the City of Fresno and Consolidated Irrigation District. The City of Fresno has a Central Valley Project (CVP) entitlement through the United States Bureau of Reclamation (USBR) and receives additional surface water by agreement from the Fresno Irrigation District's Kings River entitlement. Consolidated Irrigation District has a Kings River entitlement through the Kings River Water Association (KRWA).

The KRWA oversees Kings River entitlements and water deliveries. There are 28 member agencies (or "units," as they are known) of the KRWA, which as its name implies, is a private association. All member units are public districts or private water companies. Consolidated Irrigation District (Consolidated ID) is a member unit of KRWA. Member units place water orders for Kings River water with KRWA, and KRWA coordinates releases from Pine Flat Dam and diverts water into the member units distribution system at the canal headgates. All reporting of diversions and water use under the licenses is done by KRWA, the member units do not report directly to the State Board. The CID water diversions are reported under a Report of License through KRWA and are up to date. A screen shot of the State Board's website showing the submittal of the reports is included as **Attachment 1n**. Copies of the most recent reports can be viewed at here:

<https://ciwqs.waterboards.ca.gov/ciwqs/ewrims/listReportsForWaterRight.do?waterRightId=48>.

The USBR administers the CVP allocations and water deliveries. The CVP operates through contracts, of which there are nearly 50 within the Friant Division; the City of Fresno holds a contract in the Friant Division. All reporting of diversions and water use from the CVP is done by USBR. A screen shot of the State Board's website showing the submittal of the reports is included as **Attachment 1n**. Copies of the most recent reports can be viewed here:
