

# Attachment 1: Authorization and Eligibility Requirements for the Mokelumne /Amador / Calaveras Region

## ✓ CASGEM Compliance

The following table summarizes the projects, underlying groundwater basins, and CASGEM priorities. Figure 1 shows the groundwater basins located in the MAC Region, the project proponent service areas and the project locations. AWA is the project proponent and has volunteered as the monitoring entity for CASGEM for the portion of the Cosumnes Subbasin of the San Joaquin Valley Groundwater Basin within Amador County. The GIS shapefile of AWA's service area boundary has been uploaded to the GRanTs system and provided on the CD.

**Table 1: Groundwater Basins in the MAC Region and CASGEM Priority**

<b>Project Overlying Groundwater Basin</b>	<b>Underlying Groundwater Basin(s)</b>	<b>CASGEM Priority</b>	<b>Monitoring Entity</b>
Ione WTP Backwash Water Reuse Project	Cosumnes Subbasin of the San Joaquin Valley Groundwater Basin	Medium	Amador Water Agency for the portion of the groundwater basin in Amador County
None of the projects included in the Proposal	Eastern San Joaquin Subbasin of the San Joaquin Valley Groundwater Basin	High	Calaveras County Water District for the portion of the groundwater basin in Calaveras County
