

I. CASGEM Compliance

California Statewide Groundwater Elevation Monitoring (CASGEM) eligibility for project proponents included in this Proposal is presented in **Table 1-8** below, and shown in **Figure 1**. All Proposal project proponents with service areas within CASGEM Program high- and medium-priority groundwater basins are eligible for funding; there are no high-priority groundwater basins in this IRWM Region. Monitoring entities for all medium-priority groundwater basins affected by the Proposal have been designated.

A GIS shapefile with service area boundaries of applicable project proponents, project locations, and CASGEM groundwater basins are in the zipped folder included in Attachment 1, File 10 of 10.
