

# Merced Integrated Regional Water Management Merced Region Grant Proposal

## *Attachment 1.9: CASGEM Compliance*

Attachment 1.9 consists of the following items:

- ✓ **Implementing agencies service area map**
- ✓ **Groundwater Basin information**

The two implementing agencies for projects in this grant application are the Merced Irrigation District (MID) and the University of California, Merced (UC Merced). Their service areas are provided on a map in this attachment and are included in the required GIS shape file. Additional groundwater basin information is also provided.

## CASGEM Compliance

Both the Atwater-McSwain Regulating/Recharge Basin Project and the UC Merced Surface Water Augmentation Project are within the Merced Sub-basin of the San Joaquin River Bulletin 118 Groundwater Basin (Figure 1.9-1). The MID and UC Merced service areas are also within the Merced Sub-basin, which is a CASGEM high priority basin. The designated monitoring entity is the Merced Area Groundwater Pool Interests (MAGPI).

The GIS shape file of both MID and UC Merced service areas is attached separately.
