

Upper Pit Disadvantaged Communities' Human Right to Water and Drought
Sustainability Projects
North Cal-Neva Resource Conservation and Development Council, Inc.

Attachment 1 – Eligibility: Groundwater Management Compliance

The projects submitted as part of this application do not affect groundwater.

Project 1 is grant administration, and thus has no effect on groundwater.

Project 2 (Pit River Streambank Stabilization), is not a groundwater project and will not directly affect groundwater levels or quality. This proposed project directly involves surface flow in a river channel. The project goal is to stabilize the streambank by reducing soil erosion from the bank and stop the channel widening process. This would be accomplished by adding rock structures to the bank and increasing the riparian corridor through vegetative plantings. The floodplain enhancement is proposed to improve the floodplain connection with the stream channel, getting water on and off the floodplain without creating bank erosion. This activity will not directly impact the water aquifer by increasing or removing water.

Project 3 (Fall River RCD Open Ditch Conversions) is not a groundwater project. While decreasing seepage may affect groundwater levels on a localized basis, no basins in the potentially affected area are identified as priority 1 or 2 per DWR's ranking criteria.

California Department of Water Resources
Integrated Regional Water Management Grant Programs

**CERTIFICATION FOR GROUNDWATER MANAGEMENT PLAN COMPLIANCE
FOR THE
PROPOSITION 84, IMPLEMENTATION
GRANT PROGRAM**

Grant Program: Proposition 84, Implementation
IRWM Region: Upper Pit River
Agency name: Fall River Resource Conservation District
Project Title (as shown on application form): Fall River RCD/Pit RCD Open Ditch
Conversion Water Conservation/Water Supply DAC Project
Please check one of the boxes below and sign and date this form.

- As the authorized representative for the agency, I certify under penalty of perjury under the laws of the State of California, that the agency has prepared and implemented a GWMP in compliance with CWC §10753.7.
- As the authorized representative for the agency, I certify under penalty of perjury under the laws of the State of California, that the agency participates or consents to be subjected to an existing GWMP, basin-wide management plan, or other IRWM program or plan that meets the requirements of CWC §10753.7(a).
- As the authorized representative for the agency, I certify under penalty of perjury under the laws of the State of California that the agency conforms to the requirements of an adjudication of water rights in the subject groundwater basin.
- As the authorized representative for the agency, I certify under penalty of perjury under the laws of the State of California, that my project is located in a low or very low priority groundwater basin (as defined by CASGEM) and the agency consents to be subjected to a GWMP that will meet the requirements of CWC §10753.7 and be completed within 1-year of the grant application submittal date.

I understand that the Department of Water Resources will rely on this signed certification in order to approve funding and that false and/or inaccurate representations in this Certification may result in loss of all funds awarded to the applicant for its project. Additionally, for the aforementioned reasons, the Department of Water Resources may withhold disbursement of project funds, and/or pursue any other applicable legal remedy.
