---

This attachment is divided into separate parts per instructions in the 2015 IRWM Proposal Solicitation Package (PSP). For these parceled attachments all referenced figures and supporting documentation are provided at the end of the document. Supporting documentation is not isolated, such as in numbered appendices, but is rather simply included in the attachment with the implication of a direct connection to the attachment part.

## 1.6. AGRICULTURAL WATER MANAGEMENT COMPLIANCE

If the DWR awards the Poso Creek IRWM funding, North Kern WSD and LHUD may receive funding for the proposed projects. LHUD is not an agricultural water supplier that needs to submit an agricultural water management plan (AWMP). North Kern WSD is an agricultural water supplier and submitted documentation of AWMP compliance with the 2014 IRWM Drought Grant Solicitation. The information is being restated herein since North Kern was in the process of adopting their AWMP at the time of the 2014 IRWM Drought Grant Solicitation. Contact information for North Kern is provided with this attachment.

North Kern developed an AWMP following the DWR's 2012 AWMP Guidebook, entitled "A Guidebook to Assist Agricultural Water Suppliers Prepare a 2012 Agricultural Water Management Plan". North Kern's AWMP was finalized in July, 2014 and considered for adoption at North Kern's August 19, 2014 Board of Directors meeting. North Kern received notice from DWR the AWMP was in compliance via a letter dated August 27<sup>th</sup>, 2014.
