<b>Proposal Name *</b>	San Luis Obispo County Integrated Regional Water Management 2015 Implementation Grant Proposal		
<b>Proposal Objective*</b>	<p>Our suite of projects supports local IRWM planning and implementation and greatly assist the San Luis Obispo County IRWM Region in achieving long-term drought resilience and addressing the Human Right to Water Policy. They strengthen the region by achieving the 2014 IRWM Plan's strategic long-term vision: greater resilience in the face of uncertain hydrology and climactic fluctuations, integration and improvement of our existing supplies and infrastructure, and sustainability. Working at the sub-regional scale to address geographically-unique challenges and to strengthen each sub-region's ability to improve its long-term water resources management, each project will addresses their local priorities: Templeton CSD's Upper Salinas River Basin Conjunctive Use Project (US CUP) will implement a conjunctive use and conservation project within the rural inland community of Templeton to offset groundwater level decline and increase water supply reliability. San Simeon CSD's Well Head Treatment Project (WHTP) will treat their disadvantage community's sole water source to maintain potable drinking water (Human Right to Water) . Oceano CSD"s Water Resources Reliability Program (WRRP) - Planning Study develops a study that evaluates the disadvantage community's current supplies, identifies opportunities for improvement</p>		

and project prioritization, and readies this DAC for future project implementation.
