

Project Consistency with an adopted IRWM Plan

The Tuolumne-Stanislaus 2015 IRWM Implementation Grant Proposal includes a single project for implementation. The proposed project is being implemented by the City of Angels and was a part of the initial call for projects during the creation of the Tuolumne-Stanislaus IRWM Plan. The Region completed its IRWM Plan in the fall of 2013. The project was submitted for consideration in September 2012, vetted by the review committee in November 2012, and is listed in the T-S IRWM Plan as Project No. 24.
