

# Attachment 1: Authorization and Eligibility Requirements for the Mokelumne /Amador / Calaveras Region

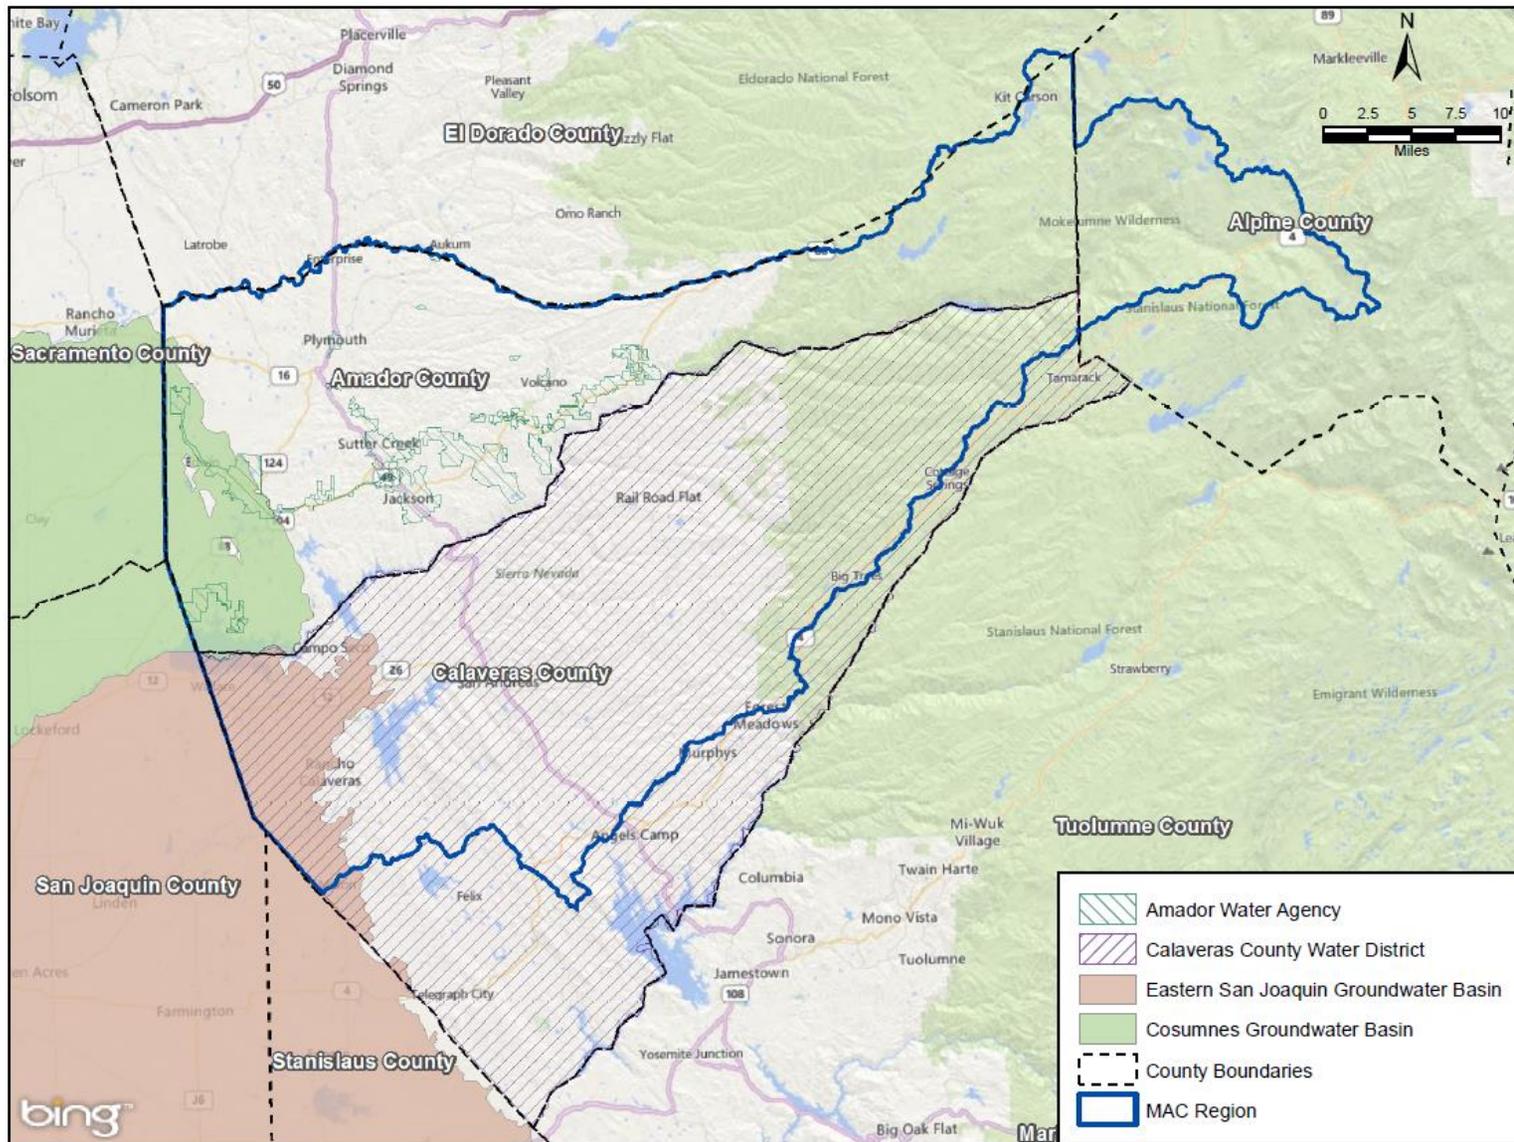

## ✓ CASGEM Compliance

The following table summarizes the projects, underlying groundwater basins, and CASGEM priorities. Figure 1-1 shows the project proponent service areas for those agencies receiving funding from this grant. AWA has volunteered as the monitoring entity for CASGEM for the portion of the Cosumnes Subbasin of the San Joaquin Valley Groundwater Basin within Amador County. Note that the applicant, UMRWA, does not have jurisdiction over waters and is not an eligible CASGEM monitoring entity, nor do the project partners, Amador Tuolumne Community Action Agency and Foothill Conservancy. The GIS shapefile of the agency service area boundaries has been uploaded to the GRanTs system.

**Table 1: Groundwater Basins in the MAC Region and CASGEM Priority**

Underlying Groundwater Basin(s)	Projects Overlying Groundwater Basin	Project Proponents or Applicant Overlying Groundwater Basin	CASGEM Priority	Monitoring Entity
Cosumnes Subbasin of the San Joaquin Valley Basin	<ul style="list-style-type: none"> <li>• Lake Camanche Service Lateral Replacement – Phase 3</li> <li>• MAC Region Water Conservation Program</li> </ul>	<ul style="list-style-type: none"> <li>• Amador Water Agency</li> <li>• Calaveras County Water District</li> </ul>	Medium	Amador Water Agency for the portion of the groundwater basin in Amador County
Eastern San Joaquin Subbasin of the San Joaquin Valley Basin	<ul style="list-style-type: none"> <li>• MAC Region Water Conservation Program</li> </ul>	<ul style="list-style-type: none"> <li>• Amador Water Agency</li> <li>• Calaveras County Water District</li> </ul>	High	Calaveras County Water District for the portion of the groundwater basin in Calaveras County
