

Memo

To: California Department of Water Resources, IRWM, Financial Assistance Branch

Fr: Katherine Gledhill, Staff to the North Coast Integrated Regional Water Management Plan on behalf of the County of Humboldt

Re: Attachment 3 Work Plan (work plan components 6-11)

The North Coast Integrated Regional Water Management Plan Proposition 84, Round 1 Implementation Grant application includes 19 individual projects. To include work plan information, project maps, project photo pages and plans/technical specifications for each of the projects in the application materials, eleven Attachment 3 Work Plan components were developed. Due to the limitation of the BMS system only 5 components can be uploaded.

As per the direction of Wade Wylie (see email message below) I have uploaded four Attachment 3 Work Plan components and this document and will include the remaining seven Attachment 3 Work Plan components on a CD along with the other Attachments as per the Implementation PSP.

Thank you.

Subject: Prop 84 Implementation Grant Workplan Plans and Specs

Katherine,

As BMS does not provide enough space for your complete Workplan and associated documentation, you may place supporting documentation (plans and specs) on a CD and send that with your hardcopy submittal. Please understand that your hardcopy submittal and online application must be received by DWR no later than 5pm today, January 7, 2011. If it is not possible to attach the CD to the hardcopy submittal then you may ship the CD separately to arrive on Monday 10, January 2011.

Thank you,

Wade Wylie, PE, LEED AP
