***Implementation Grant Proposal
BCSD Arsenic Management Feasibility Study and Well Design
GWMP, AB 1420, and Water Meter Compliance Information***

Attachment 11 consists of the following items:

- ✓ **GWMP, AB 1420, and Water Meter Compliance Forms.**

Introduction

The Project proponent, Boron Community Services District (BCSD), does not meet the definition of an Urban Water Supplier which consists of "...a supplier, either publicly or privately owned, providing water for municipal purposes either directly or indirectly to 3,000 or more customers or supplying 3,000 acre-feet or more of water annually" (Water Code Section 10617). BCSD serves only 630 service connections and supplies approximately 500 AFY of water. Therefore the AB 1420 tables are not required for submittal under the Round 2, Proposition 84 IRWM Grant Program

BCSD has attached the following documents as required per the Round 2, Proposition 84 IRWM Grant Program, Implementation Grant Solicitation requirements:

- **Water Meter Compliance Self Certification Form** – States BCSD is not an urban water supplier as the term is defined in Section 529.5 and Section 10617 of the Water Code.
- **Ground Water Management Plan Self Certification Form**
