Justification/Attachments

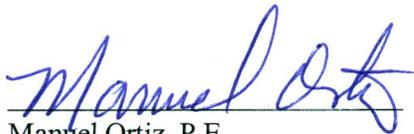

Field	Description	Attachments
Project useful life	The project useful life is 50 years, as given in the BCA Reference Guide Appendix D, Project Useful Life Summary.	Maintenance Plan for Seeley Drainage Impro.pdf

MAINTENANCE PLAN

DR-1911 HAZARD MITIGATION GRANT PROGRAM
COUNTY OF IMPERIAL
Drainage Improvements for the Township of Seeley
County Project Number 5363

The County of Imperial has established the following plan for the maintenance of drainage improvements in the Township of Seeley. The project will consist of drainage improvements that will lessen the potential for frequent flooding in Seeley that causes health and safety issues, as well as financial loss to the community. If the drainage improvements are properly maintained, the project useful life is 50 years. Imperial County Public Works Roads staff will be responsible for the maintenance.

Maintenance for this improvement will require periodic visual inspection of the manholes, gutter and curb inlets and other appurtenances to be sure they are clear of debris. It is estimated that the annual cost would be approximately \$2,500. Every five years a video inspection will be performed to evaluate the structural integrity of the drainage system. The video inspection would be approximately \$7,500, which spread over five years would be \$1,500 per year. Therefore, the total annual maintenance cost will be approximately \$4,000 per year.

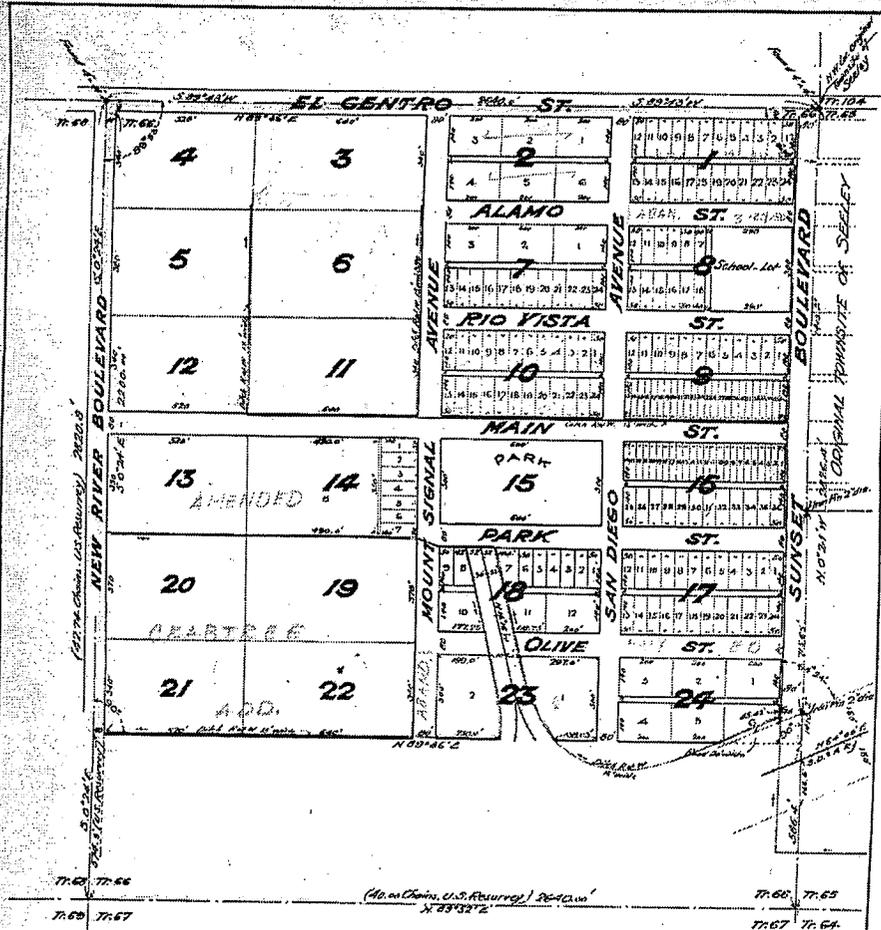

Manuel Ortiz, P.E.
Assistant County Engineer
County of Imperial
Department of Public Works

OFFICE OF EMERGENCY SERVICES

2800 MEADOWVIEW ROAD
SACRAMENTO, CALIFORNIA 95832

(916) 262-1765

MAR 14 1994

S. Harry Orfanos
Director of Public Works
Imperial Co. Public Works Dept.
155 South 11th Street
El Centro, CA 92251

Dear Mr. Orfanos:

SUBJECT: Supplement No. 04
Natural Disaster Assistance Act
State No. OES 93-01-357
Imperial Co. Public Works Dept.

RECEIVED
MAR 18 1994
PUBLIC WORKS

The attached Supplement No. 04 has been approved by the Office of Emergency Services for \$5,652.00. The total amount now approved as the State share for this application is \$2,957,827.00.

Please review the attached project application proposal and if it is acceptable, complete the attached Exhibit "D" and return a signed original to this office within ten (10) days from the date on this letter. If you do not agree with the approved project proposal, please advise us immediately, in writing, citing the reason for the exception. Indirect costs will be adjusted at the time of final inspection. Funds cannot be allocated or paid for this application until we receive the signed acceptance.

To request an advance of funds, please complete the attached Request for an Advance of Funds (NDAA 3). Under procedures developed for this disaster, you may request the full 90% advance as allowed under the Act. Fund advances must be deposited in a special fund or account. Under no circumstance should any expenditure be made from this fund for costs not approved as eligible in your state application.

The attached supplement, including the Project Application and supporting documents, are for your information and records and should be retained by you. Please only return the Exhibit "D" and/or other forms as requested to process your application.

If any further information or assistance is needed, please call Janice Lane at OES Headquarters (916)262-1765.

Sincerely,

A handwritten signature in cursive script, appearing to read "Richard Ray".

RICHARD RAY
Acting Chief
Disaster Assistance Division

Codie,

The cost is annual so it works out to be about \$33.72 per day.

Lola,

Can you answer this question?

Thanks,

Cathy

Thank you so much, Mrs. Denton. This is the cost per child, per day – or the total cost for 2010-2011?

Codie,

Here are some figures for you:

For 2010-2011, the cost for ADA is \$6,069

Our budget is: \$2,531,165.

Thanks,

Cathy Denton

Subject: Hazard Mitigation Grant Application for Seeley Drainage Improvements
Importance: High

Good morning Ms. Larios,

I have been working with Mrs. Denton and Teresa Morales for information I need in order to apply for a grant from FEMA's Hazard Mitigation Grant Program. If approved, the project will improve the drainage in Seeley to protect against damages and hazards due to flooding. In order to apply for the grant, I need to have a benefit cost ratio of greater than 1.0, so I am scrambling to find costs and damages from previous floods. If you can assist me, I am asking for answers to the following questions:

What is the cost per student, per day, when students do not attend school?

What is the amount of Seeley School's annual total budget?

Do you have documentation of expenditures, such as costs to purchase palettes; costs of staff to place the palettes; or any other costs you can think of that the School incurs due to rain and flooding?

I have a fast-approaching deadline, so it will be helpful to have the information by the end of this week. I know your time is extremely valuable. Your assistance will be of great benefit to the students and residents of Seeley. Should you have any questions or need further information, please do not hesitate to contact me.

Thank you very much,

Codie Rowin

MEMORANDUM

TO: William S. Brunet, Public Works Director

FROM: Jeff Lamoure, Deputy Director

SUBJECT: Mosquito Abatement Response in the Townsite of Seeley, CA

In response to your letter dated April 12, 2011, the Public Health Department reviewed its Vector Control surveillance and response records from 2003 through 2011 for mosquito abatement activities in the townsite of Seeley, CA. Although our records do not specifically identify flooding or rainfall events, any mosquito abatement activities associated with the townsite of Seeley would be the result of standing/ponding water.

I have separated the data into the two categories; Monitored Sites and Complaints. Below is a summary of the total hours and costs incurred for each category:

Source	Hours	Cost
Complaints	1,215 min = 20.25 hrs	20.25 X \$63.23 (FBR) = \$1,280.40
Monitored Sites	871 min = 14.51 hrs	14.51 X \$63.23 (FBR) = \$917.46

I have also attached detailed spreadsheets for both categories. Unfortunately the time calculations from 2003 through 2008 for the Monitored Sites are missing as a result of an error in the data conversion when the Division upgraded to a new data management system.

Please let me know if you have any questions.
