To Whom it May Concern;

The Upper Pit River Integrated Regional Water Management Plan has been in development since February 2011. The RWMG has just finalized the public review process and anticipates that the plan will go to Department of Water Resources (DWR) for compliance review by May 1, 2013.

Once the plan has been cleared by the compliance review team at DWR the Upper Pit River Regional Water Management Group (RWMG) anticipates having the plan adopted for the region by September 16, 2013.

The North Cal-Neva Resource Conservation and Development Council, Inc. (RC&D) anticipates full adoption of the Upper Pit River IRWMP by Sept. 23, 2013 if DWR compliance review and subsequent amendments are completed by then. The North Cal-Neva RC&D Council is fully aware that failing to adopt the IRWMP leaves us ineligible for funding through the IRWM Round 2 Implementation grant.

If you have any questions regarding the timeline or process please contact the North Cal-Neva RC&D Council Director of Administrative Services, Stacey Hafen at (530) 233-8871.

Sincerely,

Pearce Flournoy
