

# Attachment 13: IRWM Plan – Reduce Delta Water Dependence

Attachment 13 is not required as part of the Mokelumne / Amador / Calaveras (MAC) Prop 84, Round 2 Implementation Grant Proposal as the MAC Region does not receive water supplies from the Sacramento-San Joaquin Delta. The MAC region, which includes most of Amador, Alpine and Calaveras counties, lies in its entirety to east of the Delta. The region relies on local groundwater and surface water supplied from the Mokelumne and Calaveras Rivers and associated tributaries.
