Section : Applicant Information and Question's Tab

APPLICANT INFORMATION AND QUESTION'S TAB

Is this an application for a Regional Planning Grant or an Interregional Planning Grant?

- 1) Regional Planning Grant
- 2) Interregional Planning Grant

Q1. Proposal Description:

Provide a brief abstract of the Proposal. This abstract must provide an overview of the proposal including the main issues and priorities addressed in the proposal. Within the abstract, please state if the proposal is a regional (1 IRWM region) or interregional (more than 1 IRWM region) proposal. Please note if the Proposal will facilitate or support the participation of DAC's in the IRWM planning effort.

The Anza Borrego Desert Planning Grant Proposal (Proposal) is a regional proposal that addresses one (1) IRWM Region, the Anza-Borrego Desert IRWM Region (Region). The Region is a very unique IRWM Region in that it faces pressing issues related to the economic viability of the Region's sole water supply source (groundwater), and also contains a vast amount of important statewide resources (the Anza-Borrego Desert State Park). Further, because almost the entire Region is classified as a disadvantaged community (DAC), securing an economically viable water supply source for the Region is imperative. Due to the Region's unique issues, the primary purpose of the Proposal is to develop an IRWM Plan that is compliant with DWR's 2010 IRWM Program Guidelines (Guidelines), and is also useful as a regional planning document for stakeholders throughout the Region. For the IRWM Plan to be useful and accepted by Regional stakeholders, development of the IRWM Plan must include robust stakeholder involvement. Due to the importance of stakeholder outreach and involvement within the Region, Task 1 of the Proposal includes comprehensive stakeholder outreach that aims at establishing a common understanding and support for the IRWM Plan among key stakeholders. Task 1 also contains specific subtasks that relate to increasing and sustaining involvement among DACs and tribes within the Region to ensure that each of these groups is involved in development of the IRWM Plan. For the IRWM Plan to be useful, it also must address key Regional issues and provide integrated solutions that could be implemented to address such issues. As such, the Proposal also contains planning work that will be incorporated into the IRWM Plan, and will address the Region's four main issues. These issues, as identified by stakeholders, include: water supply, water quality, flood control, and environmental integrity. Task 2 of the Proposal contains specific tasks that will address each of the four key issues from a planning perspective, and also includes work to incorporate the findings of each of these planning efforts into the IRWM Plan. Water supply (groundwater) is addressed in Task 2-1 and Task 2-2, and water quality (groundwater quality) as it relates to changes in groundwater levels is addressed in Task 2-3. Task 2-4 addresses climate change, which is a substantial component of the Guidelines. In addition, because climate change is anticipated to substantially impact flood control and environmental integrity, Task 2-4 also includes specific components that analyze how climate change will impact these key issues. Tasks 2-2 and 2-3 also include components that address environmental integrity as it relates to groundwater supply and groundwater quality. Task 3 of the Proposal synthesizes the work completed under Task 1 and Task 2, and includes additional work that will ensure production of an IRWM Plan that is useful for regional planning efforts, and is also compliant with the Guidelines. As the first complete IRWM Plan for the Region, the IRWM Plan that will be developed through implementation of this Proposal is important on many levels. Specifically, the IRWM Plan will provide a conduit through which to gather stakeholders and increase integration of water planning efforts throughout the Region, and will also provide a tool that stakeholders can use to move forward and address critical issues that are imperative to address at this time.

Q2. Project Director:

Provide the name, title, agency, address, phone number, and email of the person responsible for executing the grant agreement for the applicant. Persons that are subcontractors to be paid by the grant cannot be listed as the Project Director.

Mr. Jerry Rolwing General Manager Borrego Water District PO Box 1870 Borrego Springs, CA 92004

(760) 767-5806 jerry@borregowd.org

Q3. Project Manager:

Provide the name, title, agency, address, phone number, and email of the Project Manager from the applicant agency or organization that will be the day-to-day contact on this application.

Mr. Jerry Rolwing General Manager Borrego Water District PO Box 1870 Borrego Springs, CA 92004
(760) 767-5806 jerry@borregowd.org

Q4. Applicant Information:

Provide the agency name and address of the applicant submitting the application.

Borrego Water District PO Box 1870, 806 Palm Canyon Drive Borrego Springs, CA 92004 (760) 767-5806

Q5. Additional Information:

Based on the region's location, what is the applicable DWR region office (Northern, North Central, South Central, and/or Southern)? The following link can be used to view each DWR region office boundaries:

http://www.water.ca.gov/groundwater/groundwater_basics/gw_contacts_info.cfm

- a) Northern Region
- b) North Central Region
- c) South Central Region
- d) Southern Region

Q6. Additional Information:

List the name of the Regional Water Quality Control Board (RWQCB) in which your Project is located. For a region that extends beyond more than one RWQCB boundary, list the name of each region.

http://www.waterboards.ca.gov/waterboards_map.shtml

The Anza Borrego Desert IRWM Region lies within the Colorado River Regional Water Quality Control Board (Region 7).

Q7. Additional Information:

Name the entity(ies) providing the fund(s) reported in the application information tab (Budget section under the category "Other Contribution"). If there are no "Other Contributions" please answer this question with, "No Other Contributions".

No other contributions

Q8. Eligibility:

List the urban water suppliers that will receive funding from the proposed grant. Please provide the agency name, a contact phone number and email address. Those listed must submit self certification of compliance with California Water Code (CWC) §525 *et seq.* and Assembly Bill (AB) 1420, see information on Attachment 7 (PSP, Page 18). If there are none, so indicate.

There are no urban water suppliers that will receive funding from the proposed grant.

Q9. Eligibility:

Have all of the urban water suppliers, listed in Q8 above, submitted complete 2010 Urban Water Management Plans (UWMP) to DWR? If not, explain.

This is not applicable as there are no urban water suppliers listed in Q8 above.

Q10. Completeness Check:

Have all of the fields in the application been completed?

Yes

Q10. Completeness Check (cont):

If no, please explain.

Yes
