APPLICANT INFORMATION AND QUESTION'S TAB

Is this an application for a Regional Planning Grant or an Interregional Planning Grant?

- 1) Regional Planning Grant
- 2) Interregional Planning Grant

Q1. Proposal Description:

Provide a brief abstract of the Proposal. This abstract must provide an overview of the proposal including the main issues and priorities addressed in the proposal. Within the abstract, please state if the proposal is a regional (1 IRWM region) or interregional (more than 1 IRWM region) proposal. Please note if the Proposal will facilitate or support the participation of DAC's in the IRWM planning effort.

The East Contra Costa County IRWM Region is currently updating its 2005 Functionally Equivalent IRWMP into a fully compliant IRWMP. As planning work has progressed, the Regional Water Management Group (RWMG) has determined the need for additional tasks in this regional proposal that would greatly enhance its IRWMP Update. These tasks, which are described in detail in Attachment 3, "Work Plan," include: (1) improved outreach and collaboration including an enhanced web site, expanded outreach to Disadvantaged Communities (DAC), and increased regional collaboration; (2) expanded recycled water planning for evaluating recycled water use on a more regional basis; and (3) a Regional Capacity Study to determine how best to optimize water supplies and facilities for the ECCC Region as a whole. The Work Plan also includes a plan to incorporate the results and outcomes of the tasks into the IRWMP Update and administration of the grant and projects. Each of the three major tasks in the Work Plan contains specific activities to address the critical water supply needs of DACs through direct outreach and evaluation of alternative improvements for their ability to benefit DACs. Additionally, the three major tasks all contribute toward regionalizing water-related planning to address climate change, Delta restrictions, and other future potential challenges that may impact the region as a whole.
