Proposal Name Lahontan Basin Integrated  
Regional Water Management Plan  
(IRWMP) \*

Proposal Objective The objective of the Lahontan Basins Integrated Regional Water Management Plan (IRWMP) is to expand and enhance the collaborative network of water management agencies to effectively manage all aspects of water use and conservation within the defined region, and where appropriate across regions. The IRWM will build upon the on-going watershed scale management planning efforts such as the Pine Creek/Eagle Lake CRMP and the Susan River Watershed Group. Also included are: programs such as Lassen and Sierra County's groundwater management plans; the City of Susanville's flood management, wastewater management, and recreational enhancement projects; irrigation water management by the Honey Lake Valley RCD and Lassen Irrigation District; as well as municipal water use by outlying Community Service Districts, and the Susanville Indian Rancheria. As the name implies, the Lahontan Basin IRWMP will integrate and coordinate water management activities across the many existing agencies and public stakeholders and strive to do so in an open collaborative process. \*
