

**Upper Feather River IRWM  
Proposition 84 Planning Grant Proposal  
*Attachment 7: AB 1420 and Water Meter  
Implementation Compliance***

The Plumas County Flood Control and Water Conservation District (PCFCWCD), the applicant that would receive funds from the proposed grant, is a Municipal and Agricultural Water Supplier; however, PCFCWCD does not supply water to over 3,000 customers or over 3,000 acre-feet/year of water and therefore do not meet the definition of an “urban water supplier” and are not required to prepare an Urban Water Management Plan. Thus, PCFCWCD is exempt from the AB 1420 and Water Meter Implementation self-certification compliance requirements.
