

April 7, 2016

Attn: Craig Cross and Melissa Sparks

Dear Craig and Melissa:

Thank you for the opportunity to provide one more comment on the draft Prop. 1 IRWM Guidelines. We really have learned so much from the Prop. 84 process, and these draft documents reflect those lessons.

On page 8 of the draft Guidelines, in Section B. Funding Opportunities, in the paragraph about the Implementation Grant Program, the last sentence mentions that funds may be awarded on competitive or non-competitive basis. I assume that refers to only the DAC portion of the Implementation funds. The way it reads now is not clear. I suggest clarifying the intent of that sentence.

Thank you for considering this comment.

Holly
