

# CITY OF LOMPOC

June 8, 2011

Mr. Trevor Joseph  
California Department of Water Resources  
Division of Integrated Regional Water Management  
Financial Assistance Branch  
Post Office Box 942836  
Sacramento, CA 94236  
[tjoseph@water.ca.gov](mailto:tjoseph@water.ca.gov)

Dear Mr. Trevor,

On behalf of the City of Lompoc, the Project Proponent for the Lompoc Valley Leak Detection and Repair Project, which is included in the Santa Barbara Region's Proposition 84 1<sup>st</sup> Round Implementation Grant Application, we would like to thank the California Department of Water Resources (DWR) for the opportunity to submit comments on the Draft funding Recommendations. We also greatly appreciate the expeditious work and time that you and your staff have dedicated to reviewing the Grant Applications and in developing comments and recommendations.

We fully support DWR in its recommendation for funding of the 7 projects included in the Santa Barbara IRWM grant application. Should our Region be successful in the final funding recommendations, the City of Lompoc looks forward to working with DWR in execution of the Grant Agreement and in the actual implementation of our project.

Sincerely,

A handwritten signature in black ink, appearing to read "John H. Linn".

John H. Linn  
Mayor, City of Lompoc
