Re: Supporting SCAP's recommendation to insert specific language regarding wastewater management system improvements into Prop 84 and 1E funding definitions

Dear Ms. Billington:

The City of Corona strongly supports the proposal to include wastewater system improvements in the grant policies associated with Proposition 84 and 1E and encourages the Department of Water Resources to work with the appropriate parties to ensure this language is included within the funding parameters.

Wastewater is a crucial issue for California and especially the Inland Empire region as our population continues to grow. In order to keep up with the infrastructure and resource demands of these increases, it is vital that funding opportunities such as those associated with Proposition 84 and 1E include wastewater treatment agencies such as those represented by the Southern California Alliance of Publicly Owned Treatment Works (SCAP).

Thank you for your consideration of this request and I am hopeful that inclusion of the wastewater language can be incorporated into the funding guidelines for Proposition 84 and 1E.

Sincerely,

Beth Groves
City Manager
