---

Thank you for giving Westlands the opportunity to provide comments on the draft guidelines for Counties with Stressed Basin Grant PSP. After reviewing the PSP, Westlands makes the recommendation that counties are able to submit grant applications and obtain the appropriate a board resolution in the rear. This flexibility will allow the counties enough time to receive the appropriate board approval and focus on submitting projects that provide a county wide benefit. If you have any questions please do not hesitate to contact me, 559-241-6226.
