Subject Draft Inland Saltwater Intrusion Monitoring Well Project Report

Hello Doug,

I have reviewed the Draft Inland Saltwater Intrusion Monitoring Well Project Report and found it to meet the necessary content to be finalized for release of retention monies to ACWD.

This project met and in some cases, in relation to the budget, schedule and scope, exceeded project expectations in a positive manner. Although ACWD experienced some trying challenges along the way with permitting and drilling, the project was very successful. Perhaps obtaining additional LGA grant funding will help further monitor the brackish water intrusion which appears to be approximately two miles or less from the Mowry Wellfield. I heard earlier today that a final PSP is planned for release toward the end of 2010.

Thank you for providing great communication along the way, and as I came up to speed with your project work.

I will prepare the retention invoice template for you and send it to your attention for completion and submittal to DWR.

Thank you,

Christy
