BURBANK WATER AND POWER

MEMORANDUM

DATE: May 22, 2006

TO: Bill Mace, Assistant General Manager, Water Systems

THROUGH: Raul Garibay, Manager Water Engineering & Planning RG

THROUGH: Bassil Nahhas, Senior Civil Engineer B.N.

FROM: Danny Wang, Civil Engineering Assistant DW

SUBJECT: **Well 17 and 18 Destruction Award Recommendation**

Attached for your approval is the Contractor "Check and Recommend" packet from Purchasing Division for the Well 17 and 18 Destruction Project.

Eight bid documents were sent to state well licensed (C57) contractors. For informational purpose, a courtesy copy was also sent to Ms. Linda Gertler with Lockheed Martin. On May 5, 2006, three contractors attended the non-mandatory pre-bid job walk. On May 16, 2006, three bids (attachment) were received.

Analysis: So Cal Pump & Well Inc. is the lowest bidder at $55,032. Their bid is $13,905 lower than the next lowest bid submitted by General Pump Co. and $37,668 lower than the highest bid submitted by Layne Christensen Co.

Bid amounts were compared to Well 14A Destruction bids from 2003. So Cal Pump & Well's bid (see attachment) is very close in cost to the CPI adjusted 2003 contracted work (with Beylik Drilling) cost.

So Cal Pump & Well has a *C57-Well Drilling*, *A-General Engineering*, *D21-Machinery and Pumps*, and *C10-Electrical* contractor's license and is in good standing with the State License Board.

So Cal Pump & Well's references were checked, and it appears to be a reputable outfit with a good history of activity in well drilling/destruction and well/booster pump industry. So Cal Pump & Well recently completed a similar well destruction project for the City of Redlands in January 2006.

Recommendation: So Cal Pump & Well is the lowest responsible bidder and should be awarded the Well 17 and 18 Destruction contract.
